To the Trustees of
The Ohio National Life Insurance Company
Profit Sharing Plan

**Report on the Financial Statements**
We have audited the accompanying financial statements of The Ohio National Life Insurance Company Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

THE OHIO NATIONAL LIFE INSURANCE COMPANY
PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

## NOTE 1 DESCRIPTION OF PLAN

The following description of The Ohio National Life Insurance Company (Company) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

GENERAL - The Plan is a defined contribution plan covering substantially all full-time common law employees of the Company who have completed 1,000 hours of service within 12 consecutive months of service.The Plan is subject to the provisions of ERISA. The Trustees are responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

CONTRIBUTIONS – Each year, participants may contribute up to 10% of after-tax annual compensation, as defined in the Plan. Participants direct the investment of their and the Company's contributions (in 1% increments) to either the fixed accumulation or the variable accumulation account C's subaccounts. The Plan currently offers 95 account C's subaccounts as investment options for participants. The Company may make 1) qualified non elective contributions, 2) non elective contributions, and 3) top-heavy contributions, to the Plan. The amount and type of the Company contribution is to be determined annually. Contributions are subject to certain IRS limitations.

PARTICIPANT ACCOUNTS - Each participant's account is credited with the participant's contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Plan forfeitures are used to reduce the Company contribution. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested in Company non elective contributions after three years of credited service. A participant is 100 percent vested in qualified non elecive contributions at all times.

NOTES RECEIVABLE FROM PARTICIPANTS - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loans bear interest at rates ranging from 4.25% to 7%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

PAYMENT OF BENEFITS - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, life annuity, joint and survivor annuity, or an annuity contract.

FORFEITED ACCOUNTS - At December 31, 2015 and 2014, forfeited nonvested accounts totaled $10,058 and $3,601 respectively. These amounts will be used to reduce the employer contributions.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

BASIS OF ACCOUNTING - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract which is substantially equal to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

USE OF ESTIMATES - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liabilitiy in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

PAYMENT OF BENEFITS - Benefits are recorded when paid.

EXPENSES - All expenses of maintaining the Plan are paid by the Company.

SUBSEQUENT EVENTS- The Plan has evaluated subsequent events through September 15, 2016, the date the financial statements were available to be issued. The Plan was restated January 1, 2016 and a new Group Annuity Contract went into effect June 2, 2016.

**NOTE 3 INVESTMENTS**

The following presents investments that represent 5 percent or more of the Plan's net assets.

**NOTE 3 INVESTMENTS (CONTINUED)**

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $(933,663) and $2,280,730 respectively as follows:

| | 2015 | 2014 |
|---|---|---|
| Pooled Separate Accounts (Mutual Funds) | $ (933,663) | $ 2,280,730 |

**NOTE 4 FAIR VALUE MEASUREMENTS**

The framework for measuring fair value provides a fair value hierarchy that priortizes the inputs to valuation techniques used to measure fair value. The heirarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

*Level 1*
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liablities in active markets that the Plan has the ability to access.

*Level 2*
Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term , the level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3*
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

*Fixed Accumulation Account*: Valued at fair value by using a unit value of $1.00. All transactions occur at $1.00 per unit.

*Mutual Funds:* Valued at the quoted net asset value of shares held by the Plan at year end.

**NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

## NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2001, the Plan entered into a benefit-responsive deposit administration contract with The Ohio National Life Insurance Company (Ohio National). Ohio National maintains the Plan's funds in accounts called the Fixed Accumulation and Variable Accumulation subaccounts. The value of the Fixed Accumulation Account is guaranteed by Ohio National and is part of their general assets. The Fixed account is credited with earnings on the underlying investments and charged for participant withdrawals and insurance premiums charged by Ohio National. The contract is included in the net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. Because fair value and contract value closely approximate each other there is no adjustment from fair value to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and insurance premiums. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Annuities purchased from Ohio National by the Plan are paid by Ohio National and are not considered assets of the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was $58,084,007 and $58,147,441, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting. Interest rates were approximately 3.00% and 3.00% for 2015 and 2014. The Variable Accumulation subaccounts are not guaranteed. Their value is based on the investment performance of the securities maintained by Ohio National in separate accounts.

Certain events limit the ability of the Plan to transact at contract value with Ohio National. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occuring.

## NOTE 6 RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTONS

The participant's separate accounts are held and managed by The Ohio National Life Insurance Company. Ohio National Life Insurance Company is the plan administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are deducted from participants' earnings and cannot be separately identified.

Administrative fees of $9,500 and $9,000 for 2015 and 2014 respectively, were paid by the Company.

Several employees of the plan sponsor provide administrative services to the Plan. These services include plan oversight and day-to-day plan administration. The Plan is not charged by the Company plan sponsor for the services of the employees to the Plan.

## NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

## NOTE 8 TAX STATUS

The plan is an adoption of a volume submitter profit sharing plan sponsored by Sungard Business Systems LLC. The plan sponsor has been informed by letter from the Internal Revenue Service, dated March 31, 2008, that the form of the plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

## NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
