Effective May 1, 1994 (restated October 12, 2014), *Bridgestone APM Company* (the “Company”) adopted this defined contribution plan qualifying under Sections 401(a) and 401(k) of the Internal Revenue Code (the “IRC”). The Plan covers all full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participants may elect to contribute from 1% to 60% of their eligible compensation, but not more than the maximum amounts allowed by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan also allows participants to make rollover contributions from other qualified retirement plans. For participants who have completed one year of service, the Company will make matching contributions equal to 50% of the first 6% of eligible compensation contributed by each participant. The Company may also make a qualified nonelective contribution each year, although it did not elect to make such a contribution in 2015 or 2014. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Effective January 1, 2016, the Plan was amended to provide for automatic enrollment at a contribution rate of 6% when they first become eligible to participate in the Plan, unless they elect otherwise. There is no automatic increase provided for in the amendment.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, an allocation of the Company's nonelective contributions (when made) based on participant compensation, and Plan earnings based on the investment options selected by the participant. Participant accounts are charged for certain administrative expenses as described below. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in all contributions and earnings thereon at all times.

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Loans can be authorized to participants for a minimum of \$1,000 and up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The \$50,000 maximum amount is reduced by the highest outstanding loan balance during the one-year period ending on the day before the new loan is made. The loans bear interest at rates commensurate with local prevailing rates as determined based on current bank lending rates. Principal and interest are paid ratably through payroll deductions, primarily over a period not to exceed five years.

Payment of Benefits

Distributions are not permitted while participants are employed, except in the case of "hardship" as defined by the IRS for participants' deferral contributions and earnings thereon, distributions of a participant's rollover contributions or upon attainment of age 59½. Participants are prohibited from making elective deferrals into the Plan for six months after receipt of a hardship withdrawal. Upon termination of service, a participant may receive a lump-sum amount equal to the value of his or her account or, if the participant's account balance is greater than \$5,000, may elect to receive the benefit in the form of one of various annuity options permitted by the Plan agreement. If a participant's balance is less than \$5,000 and a distribution election is not made, the full value of the account will be distributed in a single lump-sum, either directly to the participant if the balance does not exceed \$1,000, or to an individual retirement account if the balance is between \$1,000 and \$5,000.

Administrative Expenses

Certain administrative fees are charged by the trustee and deducted from participants' accounts. These fees, which are asset-based and calculated monthly, are netted with net (depreciation) appreciation in fair value of mutual funds in the statements of changes in net assets available for benefits. Participants initiating a loan against their account balance are charged a transaction fee as well as a quarterly maintenance fee for the term of the loan. Inactive participants are charged a quarterly account fee. Other expenses, including fees for professional services, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the contracts.

BRIDGESTONE APM COMPANY 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in fair value of mutual funds includes the Plan's gains and losses on mutual funds bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the fair value of such mutual funds.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default according to the terms of the Plan document, the participant note receivable is reduced and a benefit payment is recorded. There were no such defaults of participant notes receivable in 2015 or 2014.

Contributions

Contributions from participants are recorded when withheld from their compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Parts I and II early and, other than the change to disclosures and measuring the fully benefit-responsive contracts at contract value only, the early adoption of this standard did not have a material impact on the financial statements.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2015, the most recent statement of net assets available for benefits presented herein, through October 12, 2016, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company, dba Principal Trust Company ("Principal"), as trustee, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, (2) the December 31, 2015, schedule of assets (held at end of year), (3) the related investment activity reflected in the statements of changes in net assets available for benefits during 2015 and 2014, and (4) the information presented in Note 4. Principal has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the years ended December 31, 2015 and 2014.

NOTES TO FINANCIAL STATEMENTS

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy of each of the Plan's assets or liabilities is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

BRIDGESTONE APM COMPANY 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value at December 31:

2015	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	\$ 23,963,801	\$ -	\$ -	\$ -	\$ 23,963,801
2014	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	\$ 23,989,592	\$ -	\$ -	\$ -	\$ 23,989,592

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with Principal, who maintains contributions in a general account. This contract meets the fully benefit-responsive investment criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The average yield and crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. Such interest rates are reviewed on a semi-annual basis for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events, limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan's documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions contemplated under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

If the Company decided to terminate the Plan's interest in the investment contract, there would be a twelve-month delay in the payment, unless the Company requests earlier payment subject to a five percent surrender fee.

BRIDGESTONE APM COMPANY 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal. Principal is the trustee as defined by the Plan and, therefore, transactions related to these investments qualify as party-in-interest transactions. Amounts paid by the Plan for participant loan transaction fees, quarterly maintenance fees and inactive participant account fees were \$30,011 in 2015 and \$27,675 in 2014. Fees paid by the Plan for investment management services are included as an addition to net depreciation or a reduction of net appreciation in fair value of mutual funds.

6. INCOME TAX STATUS

The Company's Board of Directors adopted the Principal Financial Group Prototype for Savings Plans plan document. The prototype plan has received an opinion letter from the IRS dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the IRC and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. RISKS AND UNCERTAINTIES

The Plan invests in an investment contract with insurance company and mutual funds, with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
