INDEPENDENT AUDITORS' REPORT

October 12, 2016

Investment Committee
Bridgestone APM Company Retirement Plan
Findlay, Ohio**Report on the Financial Statements**

We were engaged to audit the accompanying financial statements of the *Bridgestone APM Company Retirement Plan* (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2014, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 2, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the custodian as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplemental Schedule

The December 31, 2015 supplemental schedule of assets (held at end of year) is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following brief description of the *Bridgestone APM Company Retirement Plan* (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan, which was amended and restated effective January 1, 2009, is a non-contributory fixed benefit formula plan covering all employees of *Bridgestone APM Company* (the "Company") who have one year of service, as defined by the Plan, and have reached 18 years of age. Japanese resident aliens are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective May 1, 2009, the Plan was amended to provide that no employee hired on or after that date is eligible for participation in the Plan and no inactive or former participant will again become eligible for active participation in the Plan.

Funding Policy

Contributions to the Plan are made at the discretion of the Company's Board of Directors, except that such contributions cannot be less than the minimum required contribution in accordance with Section 412 of the Internal Revenue Code ("IRC") and any other applicable federal statute regarding satisfaction of actuarially determined minimum funding standards. There were no minimum contributions required to avoid a funding deficiency for 2015 or 2014; however, the Company elected to contribute \$5,000,000 in 2015 and \$2,500,000 in 2014.

Pension Benefits

Participants employed by the Company at the normal retirement age of 65 are entitled to retirement benefits payable in the form of a pension, which is the actuarial equivalent of the participants' normal form of benefit. The participants' normal monthly benefit is equal to the product of (a) and (b) reduced by (c) below:

- (a) An amount equal to (1) 1.00% of average compensation (as defined in the Plan document) not in excess of the social security base, plus (2) 1.35% of average compensation in excess of the social security base.
- (b) Accrual service (not to exceed 40 years) on retirement date.
- (c) The accrued benefit, if any, on December 31, 1993, from the Pullman Company Retirement Plan.

Retirement benefits are paid to pensioners or beneficiaries in various forms of single life and joint and survivor annuities. If the present value of the participant's vested accrued benefit does not exceed \$5,000, such amounts may be distributed in a lump-sum.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Participants employed by the Company that have attained the age of 55 and have five years of vesting service can elect early retirement and obtain a reduced retirement benefit based on the number of years the early retirement date precedes the normal retirement date. Participants who attain age 62 with 30 years of vesting service are entitled to unreduced benefits upon early retirement.

Death and Disability Benefits

Participants with ten or more years of vesting service who become totally disabled are eligible to receive an unreduced benefit upon reaching the normal retirement age. In the event of a participant's death, a death benefit is paid in an amount equal to the amount that would have been paid had the participant terminated employment on the date of death, survived to his or her earliest retirement age and retired with a qualified joint and survivor annuity in effect. Death benefits are paid to the participant's spouse or beneficiary as an annuity.

Vesting

Participants are 100% vested upon the earlier of earning five years of service or reaching normal retirement age.

Administrative Expenses

Administrative expenses may be paid by the Plan at the discretion of the Company. Custodial fees charged by Principal Life Insurance Company ("Principal") were paid by the Plan. All other administrative expenses of the Plan were paid by the Company and qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Plan Trustee

Bridgestone APM Company is the trustee of the Plan.

Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting under accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net (depreciation) appreciation in fair value of pooled separate accounts includes the Plan's gains and losses on investments bought and sold as well as held during the year and interest and dividends received from the underlying investments.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as an addition to net depreciation or a reduction of net appreciation in fair value of pooled separate accounts.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' average compensation during the highest five consecutive years in the last ten years of service. The accumulated plan benefits for active employees are based on their average compensation during the highest five consecutive years in the last ten years of service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent such benefits are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Principal Financial Group, the Plan's actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

The significant actuarial assumptions used in the valuation as of December 31, 2014 are as follows:

Actuarial cost method	Unit Credit
Retirement age	65 for inactive participants 10% at age 62, 10% at age 63, 10% at age 64, 100% at age 65 for active participants
Mortality	SOA RP-2014 table with improvement scale. RPEC_2014 model beyond 2007 (IRS prescribed mortality-generational annuitant, male and female in 2013).
Valuation interest rate	7.00% (7.25% in 2013)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Contributions

Contributions to the Plan are recorded in the period in which they become obligations of the Company as determined by the Investment Committee.

Payment of Benefits

Benefit payments to participants are recorded when paid.

New Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provides for certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general investment type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Plan management has elected to adopt Part II early, and other than the change to disclosures, the early adoption did not have a material impact on the financial statements.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2015, the most recent statement of net assets available for benefits presented herein, through October 12, 2016, the date these financial statements were available to be issued. No significant events or transactions of this nature were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal, the Plan custodian, has certified the completeness and accuracy of all investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, (2) the supplemental schedule of assets (held at end of year) as of December 31, 2015, and (3) the related investment activity reflected in the statements of changes in net assets available for benefits for 2015 and 2014.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

The fair value measurement level within the fair value hierarchy of each of the Plan's assets is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Pooled separate accounts ("PSA"): These investments are valued using the net asset value ("NAV") of units held by the Plan at year end as provided by the insurance company and are not assigned to a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV. There has been no change in methodology used at December 31, 2015 and 2014.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2015			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 33,056,134	\$ -	Daily	Daily

Investment Type	2014			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 31,177,044	\$ -	Daily	Daily

The following is a description of the investment strategies for investments in certain entities that calculate net asset value per share (or its equivalent) at December 31, 2015 and 2014:

Pooled separate accounts: These funds include investments that seek to provide long-term capital growth, current income, or capital appreciation by investing primarily in the equity securities of small, medium, or large-sized companies, short-term investments using index funds, investments in fixed income debt securities, real estate investments, and stocks of companies contained in the S&P 500 stock index and are perceived by the manager of the funds to have excellent growth potential.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments consist entirely of pooled separate accounts issued by Principal. Principal is the custodian of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the net appreciation on pooled separate accounts. Fees paid by the Plan to Principal for custodial fees amounted to \$39,374 in 2015 and \$42,352 in 2014.

5. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 16, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator and the Plan's legal counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the rights of each participant to benefits accrued become fully vested. The assets of the Plan would be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some further time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

7. RISKS AND UNCERTAINTIES

The Plan invests in PSAs with the underlying assets consisting of any combination of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

One PSA held by the Plan invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. Another PSA held by the Plan invests primarily in commercial real estate holdings. The value, liquidity and related income of these investments are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

BRIDGESTONE APM COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The Plan invests in an annuity contract that has a benefit index for retired participants. The benefit index represents amounts needed to purchase an annuity for each retired participant. Principal issues a certificate to each retiree which is an irrevocable commitment to pay all the participants' earned benefits at a future date with no impact from fluctuations in fair value of the Plan's investments. These benefit payments are made directly from Plan assets to the retirees as long as there are assets in the Plan's annuity contract to support the projected future payments. In the event that these assets are equal to or less than the benefit index, individual annuity contracts would be purchased from Principal and these contracts would not be included in Plan assets. As a result of the benefit index, assets designated to pay benefits due to retired participants are excluded from the Plan's Form 5500. The present value of these benefits included in assets designated to pay benefits to retired participants as of December 31, 2015 and 2014 was \$6,278,164 and \$5,839,640, respectively.

The following is a reconciliation of net assets available for benefits reported in these financial statements to the amounts reported on Schedule H of Form 5500 at December 31:

	2015	2014
Net assets available for benefits reported in these financial statements	\$ 35,556,134	\$ 31,177,044

Assumptions Prescribed by Law											
Mortality	During Benefit Payment Period IRS Prescribed Mortality - Generational Annuitant, male and female. Before Benefit Payment Period IRS Prescribed Mortality - Generational Non-annuitant, male and female.										
Assumptions Selected by Actuary											
Inflation	2.25% increase per year. See Long-Term Capital Market Assumptions link.										
Asset Return	7.00% for the current plan year. The Asset Return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the See Long-Term Capital Market Assumptions link.										
Expected Expense	The expected expense included in Target Normal Cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses. This is the best estimate available of upcoming year's expenses.										
Retirement	Active Participant: <table border="1"> <thead> <tr> <th>Age</th><th>Probability of Retirement</th></tr> </thead> <tbody> <tr> <td>62</td><td>10%</td></tr> <tr> <td>63</td><td>10%</td></tr> <tr> <td>64</td><td>10%</td></tr> <tr> <td>65</td><td>100%</td></tr> </tbody> </table> Inactive participants are assumed to retire at age 65. This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 62 with 30 years of service.	Age	Probability of Retirement	62	10%	63	10%	64	10%	65	100%

Upcoming Year Salary Increase	The preceding year's salary is increased using the S-5 Table from The Actuary's Pension Handbook, increased by 3.00% at each age. This table provides a rate of increase that declines as participants age. Note: not used for Plan Accounting calculations. <table> <tr> <th>Age</th><th>Upcoming Increase</th></tr> <tr> <td>25</td><td>7.18%</td></tr> <tr> <td>40</td><td>5.72%</td></tr> <tr> <td>55</td><td>4.88%</td></tr> </table> Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.	Age	Upcoming Increase	25	7.18%	40	5.72%	55	4.88%
Age	Upcoming Increase								
25	7.18%								
40	5.72%								
55	4.88%								
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.								
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.								
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.								
Wage Base Increase	3.25% per year. Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.								
Compensation Limit Increase	2.25% increase per year used in the calculation of the IRC 404 Maximum Deduction cushion. See Calculated Deduction in Rules and Regulations. Compensation limit increase is consistent with the inflation assumption.								
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.								

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit Accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in Funding Target. The following pieces are included in the Funding Target. • The portion based on the plan's definition of accrued benefit. • The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in Target Normal Cost are calculated similarly, by splitting the benefits. The Target Normal Cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.
Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Variable Rate Premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
 BRIDGESTONE APM COMPANY RETIREMENT PLAN
 EIN 34-1559919 Plan No. 001

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods may be used.
Vested Benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post retirement death benefits for non-retired participants except as noted in the Plan Provisions.

Interest Rate Used to Value Liabilities	7.00%	The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions
 BRIDGESTONE APM COMPANY RETIREMENT PLAN
 EIN 34-1559919 Plan No. 001

Early Retirement Benefit	
Age	Attained age 55.
Service	Five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date. Effective January 1, 2004, a participant who attains age 62 with 30 years of vesting service can retire with unreduced benefits.

Late Retirement Benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date.

Termination Benefit	
Vesting Percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability Benefit	
Eligibility	Ten years of vesting service.
Form	A deferred annuity payable at normal retirement date.
Amount	Expected benefit deferred to normal retirement date.

Survivor Annuity Death Benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Accrual Service	Service from employment commencement date to date of termination (counting a partial month as a complete month).
Average Compensation	The monthly average of total pay received for the five consecutive years out of the ten latest years before retirement date which gives the highest average.
Integration Level	The monthly average of the Social Security Taxable Wage Bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains social security retirement age.
Optional Forms of Benefit Payments	The optional forms of benefit payments are: - Monthly annuity payable for life, a straight life annuity with Social Security adjustment option, or 5, 10, or 15 years certain and life - Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100. The optional form conversion basis is 7.5% interest and the mortality table in Revenue Ruling 95-6 for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period of the month that contains the annuity starting date.
