Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 1. Description of the Plan

The following description of the Motorists Mutual Incentive Savings Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, a defined contribution plan, was established for the purpose of providing a savings plan for the benefit of substantially all employees of Motorists Mutual Insurance Company (the Company) and its subsidiaries. Employees are immediately eligible to participate after their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each eligible employee (participant), as defined in the Plan, may elect to contribute, through payroll deduction, from 1% to 50% of their annual compensation. Eligible employees are automatically enrolled in the Plan with an elective pre-tax deferral rate of three percent of compensation, increasing each year by one percent until such elective deferral rate is six percent of compensation, unless the participant affirmatively elects out of the automatic deferral feature or elects a different deferral rate. The contributions of highly compensated employees, as defined by the Internal Revenue Service may be further limited. Participants may increase or decrease their contribution amount at any time. Participants may also make Roth deferral contributions. Participants may be eligible to contribute rollover amounts received as a lump-sum distribution from a qualified retirement plan of another employer if transferred to this Plan directly, or by the participant within 60 days of receipt of the distribution from the previous plan. Such amount shall have no effect on the limits for maximum benefits and contributions as defined by the Plan. Company matching contributions are made in an amount equal to 100% of the first 1% of employee contributions and 40% of the next 5% of employee contributions. Additional discretionary amounts may be contributed by the Company at the option of the Company's board of directors; however, no discretionary amounts were contributed in 2015 or 2014. All contributions are invested in the investment options at the direction of the participant. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and is charged with an allocation of administration expenses, if applicable. The allocation of the Company's contribution follows the participant's directed investment options. Plan earnings are allocated based upon the participant's shares in each investment account.

Vesting and forfeitures: Participants are immediately vested in their contributions, plus actual earnings thereon. Generally, participants are fully vested in Company matching contributions and additional discretionary amounts contributed by the plan, plus actual earnings thereon after two years of service. Participants who have attained normal retirement age or have terminated as a result of death or disability are immediately fully vested in Company matching contributions and additional discretionary amounts contributed by the Company, plus actual earnings thereon. The balance of forfeited nonvested accounts was not material at December 31, 2015 and 2014.

Investment options: Upon enrollment in the Plan, participants may elect to allocate contributions between the fund options available under the Plan in increments of 1%. Earnings on all funds, including appreciation and depreciation in the fair value of investments, are determined daily by using the quoted market value of shares in each investment account. Participants may transfer account contributions on a daily basis, and may transfer account balances in 1% increments on a daily basis. Through the self-directed brokerage account option, participants may invest in most listed stocks, options (if approved for options trading), corporate bonds, zero-coupon bonds, U.S. Treasury securities, mortgage securities, U.S. Government agency bonds, certificates of deposit, unit investment trusts, foreign securities, and other mutual funds (subject to the limitations of the Plan).

Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts once every twelve months with a maximum of two outstanding loans at any one time. The minimum loan is \$500 with the maximum loan not to exceed the lesser of \$50,000 or 50% of the vested account value. The loan amount will process as a reduction of the elected investment funds on a pro-rata basis. Loan terms may extend to a maximum of five years or up to fifteen years for the purchase of a primary residence. The loans have a fixed interest rate established by the Motorists Mutual Incentive Savings Plan Committee. The loan interest rate is determined at the beginning of each quarter. Principal and interest is paid ratably through payroll deduction.

Payment of benefits: Upon termination of service due to retirement, death or disability, participants may receive the vested value of their account in a lump sum or partial distribution. Regular installments over a period not to exceed fifteen years may also be elected. If service terminates for other reasons and the vested account balance exceeds \$1,000, a participant must consent to receive a lump sum or partial distribution. Benefit payments may be deferred until age 70-1/2 or retirement, if later.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions and Company matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Additional discretionary contributions approved by the Company's board of directors are recognized in the year of service.

Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Payments of benefits: Distributions are recognized when paid.

Administrative expenses: Administrative expenses are paid by the Company, except for participant fees related to distribution and loan withdrawals, which are paid by the Plan.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investment for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measure using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and II of this Update for the 2015 plan year, and amendments in Part I and II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2016 the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by State Street

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014 and for the years then ended, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments, at fair value:		
Registered investment companies	\$ 114,164,683	\$ 110,238,405
Self-directed brokerage accounts	2,683,856	2,696,359
Common/collective trust	13,791,005	14,501,144
	<u>\$ 130,639,544</u>	<u>\$ 127,435,908</u>
Notes from participants	<u>\$ 2,202,681</u>	<u>\$ 1,983,620</u>

State Street also certified to the completeness and accuracy of the net appreciation (depreciation) in fair value of investments of (\$559,400) and \$6,078,579, interest and dividend income of \$1,635,001 and \$1,825,797, and interest income on notes receivable from participants of \$88,964 and \$88,374 for the years ended December 31, 2015 and 2014, respectively.

Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 4. Fair Value Measurements

FASB guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Self-directed brokerage accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

Shares of common/collective trust: The common/collective trust is comprised of fully-benefit responsive investment contracts that is valued at the NAV of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net assets value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of Level 1, 2, or 3.
