## ARBOR REHABILITATION 401(k) RETIREMENT PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### 1. DESCRIPTION OF THE PLAN

The following description of the Arbor Rehabilitation 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

##### General

The Plan is a defined contribution retirement plan covering employees of Arbor Rehabilitation and Healthcare Services, Inc. (the Company). The Plan covers all employees of the Company who meet the minimum service requirements, with the exception of those employees covered by a collective bargaining agreement. Employees that have attained the age of 21 and have completed six months of continuous service are eligible to participate in the Plan in the first quarter after the six months of service have been met. Six months of service is a six consecutive month period during which an employee has at least 1,000 hours of service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

##### Contributions

A participant may contribute, through payroll reductions, pre-tax or Roth deferrals based on annual compensation, up to the maximum dollar amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan permits rollover contributions from other qualified retirement plans. Participants are able to direct contributions into a variety of investment options offered by the Plan. Prior to January 1, 2015 upon becoming eligible, participants were automatically enrolled to defer 2% of Plan compensation, unless the participant completed a contrary salary deferral election in accordance with procedures adopted by the Plan administrator. Effective January 1, 2015, the automatic enrollment is no longer part of the Plan provisions.

Effective January 1, 2015, the Company may make discretionary matching contributions as determined by the Plan Sponsor. Company discretionary matching contributions totaled \$15,085 for the year ended December 31, 2015. Prior to January 1, 2015, the Company contributed matching contributions equal to 25% of the first 2% of compensation that a participant contributed to the Plan. Company matching contributions totaled \$12,769 for the year ended December 31, 2014. Prior to January 1, 2015, discretionary Company contributions were able to be contributed to participants employed on the last day of the Plan year. No discretionary Company contributions were made for the year ended December 31, 2014. Total annual contributions made to the Plan on behalf of any participant are subject to limitations imposed under the Internal Revenue Code (IRC).

##### Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, an allocation of the Company's discretionary contributions, and any earnings thereon, and charged with an allocation of administrative expenses. Allocations of the Company's discretionary contributions are based on the participant's compensation. Allocations of the earnings and expenses are based on the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## ARBOR REHABILITATION 401(k) RETIREMENT PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### 1. DESCRIPTION OF THE PLAN (continued)

##### Vesting

Participants are immediately vested in their deferral contributions, rollover contributions, and the actual earnings thereon. If a participant dies, becomes disabled, or reaches normal retirement age while employed, they will become fully vested. Vesting in the Company's matching and discretionary contributions is based on years of continuous service according to the following schedule:

| <u>Years of Service</u> | <u>Vested Percentage</u> |
|-------------------------|--------------------------|
| 1 year but less than 2  | 0%                       |
| 2 years but less than 3 | 20%                      |
| 3 years but less than 4 | 40%                      |
| 4 years but less than 5 | 60%                      |
| 5 years but less than 6 | 80%                      |
| 6 years or more         | 100%                     |

##### Forfeitures

Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. Forfeitures are used to pay Plan expenses and then offset Company contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$2,980 and \$6,034, respectively. During the years ended December 31, 2015 and 2014, \$5,928 and \$2,937 of forfeitures were used to offset Company matching contributions, respectively.

##### Payment of Benefits

On termination of service due to death, disability, retirement, or separation of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, if the vested account balance is less than \$5,000, a lump-sum distribution will be made to the participant regardless of whether the participant elects to receive it. In the case of a severe financial hardship, the Company, in its sole discretion, may direct distribution of all or a portion of the participant's balance, subject to certain restrictions. In-service distributions are also allowed when a participant reaches normal retirement age and is 100% vested.

##### Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's total vested account balance. Note receivable terms range from one to five years, or longer for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's vested account and bear interest at prime plus 1% at issuance. Principal and interest are paid ratably through payroll deductions. Interest income of \$414 and \$187 for 2015 and 2014, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits.

## ARBOR REHABILITATION 401(k) RETIREMENT PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

##### Payment of Benefits

Benefits are recorded when paid.

##### Administrative Expenses

Administrative and other Plan expenses are paid by the Plan, or by the Company, at the option of the Company.

##### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

##### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held during the year.

##### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

##### Subsequent Events

The Company evaluated subsequent events through October 11, 2016, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

## ARBOR REHABILITATION 401(k) RETIREMENT PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### 3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2015 and 2014. The investments and investment activity have been certified as complete and accurate by Ascensus Trust Company FKA Frontier Trust Company, the custodian of the Plan, and have not been audited by the independent auditors.

|                                 | <u>2015</u>         | <u>2014</u>         |
|---------------------------------|---------------------|---------------------|
| Registered investment companies | \$ <u>1,660,997</u> | \$ <u>1,572,685</u> |
|                                 | \$ <u>1,660,997</u> | \$ <u>1,572,685</u> |

During 2015 and 2014, the Plan's investments (including gains and losses on investments purchased, sold, and held during the year) (depreciated) appreciated in value by \$(40,651) and \$77,308, respectively.

#### 4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under GAAP are described as follows:

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.                                                                                                                                                                                                                                                                                                                                                                     |
| Level 2 | Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement.                                                                                                                                                                                                                                                                                                                                                                                                                                 |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

### NOTES TO THE FINANCIAL STATEMENTS

#### 4. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Registered investment companies – Valued at quoted market prices.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

|                                 | <u>Level 1</u>      | <u>Total</u>        |
|---------------------------------|---------------------|---------------------|
| Registered investment companies | \$ 1,660,997        | \$ 1,660,997        |
| Total assets at fair value      | <u>\$ 1,660,997</u> | <u>\$ 1,660,997</u> |

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

|                                 | <u>Level 1</u>      | <u>Total</u>        |
|---------------------------------|---------------------|---------------------|
| Registered investment companies | \$ 1,572,685        | \$ 1,572,685        |
| Total assets at fair value      | <u>\$ 1,572,685</u> | <u>\$ 1,572,685</u> |

#### 5. TAX STATUS

The Plan is a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement. The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Additionally, prior to March 31, 2014, the Plan was operating under a favorable opinion letter dated March 31, 2008. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

#### 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

#### 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

#### 8. CHANGE IN ACCOUNTING PRINCIPLE

During the year ended December 31, 2015, Plan management elected to adopt the provisions of *ASU No. 2015-12 – Plan Accounting: Defined Contribution Plans (Topic 962)*, which reduces the complexity of Plan investment disclosures. Under the update, the Plan may present investments measured using fair value aggregated by general type, rather than present detailed categories under each general type. In addition, the Plan is no longer required to separately present those investments that represent 5% or more of Plan net assets. The updated disclosures have been applied as of and for the years ended December 31, 2015 and 2014 and have no effect on the changes in net assets as previously reported.
