REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Audit and Risk Management Committee
Xavier University Tax-Deferred Annuity Plan

We were engaged to audit the accompanying financial statements of Xavier University Tax-Deferred Annuity Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note E. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2015 and 2014, and for the year ended December 31, 2015, stating that the certified information provided to the Plan administrator is complete and accurate.

As described in Note B to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Disclaimer of opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2015, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Xavier University Tax-Deferred Annuity Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

1. General

The Plan is a defined contribution plan covering substantially all employees of Xavier University (the “University” or “Plan Administrator”). The Plan, in existence beginning January 1, 1974, as amended, is effective on January 1, 2009. The Audit and Risk Management Committee of the Board of Trustees of the University controls and manages the operation and administration of the Plan. Teachers Insurance and Annuity Association and College Retirement Equities Fund (“TIAA-CREF”) as agent for TIAA-CREF Trust Company FSB (“Trust Company”) in 2015, and JPMorgan Chase Bank, N.A. (“JPMC”) in 2014, serves as a custodian and recordkeeper of the Plan. Effective January 1, 2015, Trust Company assumed the role of custodian/trustee for the non-annuity assets, including mutual funds, traded and held in retirement plans recordkept by TIAA. Under prior arrangements, JPMC was custodian and trustee for these assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

2. Contributions

Participants may voluntarily contribute up to \$18,000 of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (“IRC”) limitations. Participants attaining at least age 50 during the Plan year are eligible to contribute additional “catch-up” contributions to the Plan. The Plan contains voluntary contribution components. Employees are eligible to begin contributions upon employment. The University does not make contributions to the Plan.

3. Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contributions and an allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The Plan benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

4. Investments

Participant accounts may be directed in any specified increments into the various investment options offered by the Plan. The Plan currently offers various mutual funds, a pooled separate account, variable annuities and a guaranteed annuity with TIAA-CREF as investment options for the participants.

5. Vesting

Participants are vested immediately in all contributions plus actual earnings thereon.

NOTE A – DESCRIPTION OF THE PLAN (continued)

6. Plan Loans

Participants may borrow directly through TIAA-CREF, subject to certain limitations. Plan loans are issued from the funds owned by TIAA-CREF and loan proceeds are not removed from a participant's account balance. When Plan loans are initiated, 110% of the loan amount is reserved, or held in collateral, from the participant's TIAA Traditional Annuity account to cover the outstanding loan amount for the period of time the loan is outstanding. The loans bear interest at rates commensurate with local prevailing rates at the time funds are borrowed as determined quarterly by the Plan administrator. Principal and interest are paid by the participants directly to TIAA-CREF. When TIAA-CREF receives the loan repayment, the amount is deposited back into the Plan.

At December 31, 2015 and 2014, participants had outstanding Plan loan balances due to TIAA-CREF of \$299,631 and \$343,914, respectively. During 2015, funds of \$16,313 were used to satisfy Plan loan defaults, which are recorded as benefits paid to participants in the accompanying statement of changes in net assets available for benefits.

7. Payment of Benefits

Upon termination of service due to severance of employment, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's account balance, or annual installments over a period elected by the participant not exceeding their life expectancy. Upon termination of service due to retirement or disability, a participant's account balance will be paid in the form of an annuity unless an optional form of benefit is selected. Optional forms of benefit include either a lump sum amount equal to the value of the participant's account, or annual installments over a period elected by the participant not exceeding the participant's life expectancy. If the participant's benefit does not exceed \$1,000, such benefit may be paid in the form of a lump sum as soon as administratively practical after the time of his or her termination.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements have been prepared under the accrual accounting method, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

In November 2007, the Department of Labor ("DOL") issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements. Prior to the amended regulations, the Plan was not viewed as a separate reporting entity, but was viewed as a collection of individual contracts where the participants could engage in transactions with limited or no involvement by the University. Accordingly the Plan has not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Consequently, the financial statements have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, the effect, if any, on the completeness and accuracy of the Plan's financial statements cannot be determined.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

1. Basis of Accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (“SRA”) and the Group Supplemental Retirement Annuities (“GSRA”), are considered fully benefit-responsive, and contract value approximates fair value for the years ended December 31, 2015 and 2014.

2. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

3. Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants’ account balances and the amounts reported in the financial statements.

4. Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

5. Plan Expenses

Administrative expenses of the Plan include direct fees paid to service providers and are paid by the Plan administrator as provided in the Plan document. Investment-related expenses are included in net depreciation of investments on the accompanying statement of changes in net assets available for benefits.

XAVIER UNIVERSITY TAX-DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

6. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

7. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued. No subsequent events were identified that require recognition or disclosure in the financial statements and footnotes.

8. New Accounting Standard

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2015-12, “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient” (“ASU 2015-12”) which simplifies certain aspects of employee benefit plan (“EBP”) accounting while satisfying the needs of users of financial statements, including plan participants and the Department of Labor. The guidance simplifies the measurement of fully benefit-responsive investment contracts and disclosures about plan investments, including eliminating the requirement to disaggregate investments by category of risk, and disclose individual investments representing 5% or more of total net assets as of year end. It also allows an EBP with a fiscal year end that does not coincide with the end of a calendar month to choose a simpler way of measuring its investments and investment-related accounts. Parts I and II of the guidance are to be applied retrospectively and Part III is to be applied prospectively. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Early adoption of any of the ASU’s three parts is permitted. The Plan Administrator is evaluating the provisions of ASU 2015-12 to determine the impact on its plan accounting and disclosures.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan accounts for financial instruments where the measurement objective specifically requires the use of fair value related to financial assets.

Fair value is an exit price, representing the amount that would be received in the sale of an asset in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based upon assumptions that market participants would use in pricing an asset. As a basis for considering such assumptions, a three-tier fair value hierarchy exists, which prioritizes the inputs used in measuring fair value. The following is a description of the valuation methodologies used for assets measured at fair value. The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management’s perceived risk of that investment.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

XAVIER UNIVERSITY TAX-DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS (continued)

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or similar assets or liabilities in an inactive market; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by the observable market. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Beginning in the fourth quarter of 2014 through the second quarter of 2015, the CREF annuity accounts and TIAA Real Estate accounts' values became available on NASDAQ. Therefore, at December 31, 2015, the CREF variable annuity accounts and TIAA Real Estate account are stated at the closing price as reported on NASDAQ. At December 31, 2014, the Plan recorded the CREF variable annuity accounts and TIAA Real Estate account at reported NAV as a practical expedient. An entity holding investments in certain funds that calculate net asset value per share or its equivalent for which the fair value is not readily determinable is permitted to measure the fair value of such investments on the basis of that net asset value per share or its equivalent, without adjustment. There have been no changes in the methodologies used to value mutual funds or the TIAA Traditional Annuity at December 31, 2015 and 2014.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds – Mutual funds are traded on a public exchange, whereby fair value is determined as the closing price on the applicable exchange (e.g., NYSE, NASDAQ) as of the reporting date.

CREF variable annuity accounts – The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies) are based on each account's daily NAV, which is available on NASDAQ. The accounts invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objective. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. Accumulation units in CREF accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange ("NYSE") is open for business. In an effort to reduce market timing, and excessive trading, shareholders are not permitted to make electronic transfers to the same account through a purchase or exchange for 90 calendar days, if a purchase, sale and repurchase within that account is made within a 60 day period, other than for the CREF money market account. There are no unfunded commitments from participants in the Plan who invest in these accounts.

XAVIER UNIVERSITY TAX-DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS (continued)

TIAA Real Estate account – The fair value of the Plan's interest in the TIAA Real Estate account (a pooled separate account) is based on the fund's daily NAV, which is available on NASDAQ. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests. There are no unfunded commitments from participants in the Plan who invest in this account, and redemptions are permitted on any day the NYSE is open for business, with no notice period. Redemptions are limited to one per calendar quarter.

TIAA Traditional Annuity – Investments in TIAA Traditional contracts are reported at contract value, which approximates fair value. As these investments are contract based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value of the TIAA Traditional equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. Contract value is deemed to approximate fair value for Group Retirement Annuities ("GRA") and Retirement Annuities ("RA") contracts based on observation of recent participant investments at contract value and by comparison of historical and current yields of highly-rated long-term corporate bonds to historical and current crediting interest rates of the contracts taking into consideration the liquidity restrictions applicable to the contracts. Contract value is deemed to approximate fair value for SRA and GSRA contracts based on observation of recent participant investments at contract value and recent unrestricted participant withdrawals at contract value. See also Note F.

The following table represents the valuation techniques used to measure the fair value of the Plan's Level 3 financial instruments, and the significant unobservable inputs and the ranges of values for those inputs. The Plan's Level 3 financial instruments had a fair value of \$15,276,576 and \$14,039,893 at December 31, 2015 and 2014, respectively.

Asset	Valuation technique(s)	Unobservable Inputs	Range
TIAA Traditional Annuity	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	SRA 3.00%-4.00%
			GSRA 3.00%-4.00%
			RA 3.25%-4.75%
			GRA 3.25%-4.75%

The discounted cash flow valuation technique utilizes an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates for each contract type. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period.

XAVIER UNIVERSITY TAX-DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS (continued)

In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, crediting rates) as compared to available market data (for example, Treasury yields) to substantiate the embedded risk premium.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2015 and 2014.

(a) Funds in these categories invest in a diversified portfolio of domestic and/or foreign stocks to achieve a long-term rate of return.

(b) Funds in this category invest in various types of debt securities to achieve a long-term rate of return while preserving capital.

(c) This fund invests in equities and fixed income securities to achieve a long-term rate of return while giving special consideration to certain social criteria.

(d) This fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This account primarily invests in commercial paper, bank obligations, and U.S. Government-issued securities that are classified as first-tier securities.

(e) This fund invests in real estate properties, other real estate-related investments, and securities. Underlying real estate holdings are valued principally using external appraisals. Underlying securities are generally priced using values obtained from independent pricing sources. Redemptions are permitted daily, but are limited to one per calendar quarter.

XAVIER UNIVERSITY TAX-DEFERRED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS (continued)

Annually, the University evaluates the classification of investments in the fair value hierarchy. Beginning in October 2014 through April 2015, the unit values for the CREF accounts and the TIAA Real Estate account are listed on NASDAQ. The Unit Values are updated each day that NASDAQ is open. Based on this change in the availability of public trading data, the Plan Administrator determined that the CREF accounts and the TIAA Real Estate account should be transferred from level 2 as reported at December 31, 2014, to level 1 at December 31, 2015 in the fair value hierarchy.

The following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable (Level 3) inputs:

TIAA Traditional Annuity:

Beginning balance – January 1, 2015	\$	14,039,893
Purchases		2,888,554
Interest income		475,555
Distributions		(2,100,311)
Settlements		(27,115)
Ending balance – December 31, 2015	\$	<u>15,276,576</u>

The valuation methods may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2015 and 2014, are as follows:

	2015	2014
TIAA Traditional (guaranteed contracts)	\$ 15,276,576	\$ 14,039,893
CREF Stock	10,416,332	10,082,849
CREF Growth	2,602,291	2,510,117
CREF Global Equities	2,607,746	2,561,705

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE D – INVESTMENTS (continued)

During the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Pooled separate account	\$	185,470
Variable annuity accounts		(4,042)
Mutual funds		<u>(785,010)</u>
Net depreciation of investments	\$	<u><u>(603,582)</u></u>

NOTE E – INFORMATION CERTIFIED BY TIAA-CREF

The Plan Administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF has certified on behalf of (1) TIAA-CREF, an insurance company and issuer of certain annuity contract investment assets of the Plan, and (2) as record keeper and agent for JPMC, the custodian of certain assets of the Plan through December 31, 2014, and Trust Company, the custodian of certain assets of the Plan beginning January 1, 2015, that the following information in the accompanying financial statements and supplemental schedule is complete and accurate:

- Participant-directed investments, at fair value, as of December 31, 2015 and 2014
- Net depreciation of investments for the year ended December 31, 2015
- Interest and dividends for the year ended December 31, 2015
- Investment information in the supplemental schedule as of December 31, 2015

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F – TIAA TRADITIONAL ANNUITY

The TIAA Traditional Annuity is a guaranteed fixed annuity contract that is fully and unconditionally guaranteed by Teachers Insurance and Annuity Association of America ("TIAA"), a non-profit legal reserve life insurance company. During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. When the accumulation in TIAA Traditional Annuity is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

NOTE F – TIAA TRADITIONAL ANNUITY (continued)

The TIAA Traditional Annuity is offered through a variety of contract types, including RA, GRA, SRA, and GSRA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating RA and GRA contracts, the crediting interest rate was 4.0% and 3.5% as of December 31, 2015 and 2014, respectively. For accumulating SRA and GSRA contracts, the crediting interest rate was 3.25% and 3% as of December 31, 2015 and 2014, respectively.

RA contracts do not allow lump-sum cash withdrawals and transfers must be spread over ten annual installments. All GRA contracts may be withdrawn in a single lump sum within 120 days of termination of employment, subject to a 2.50% surrender charge. All other withdrawals and transfers from GRA contracts must be spread over ten annual installments (five annual installments for withdrawals after termination of employment). The SRA and GSRA contracts provide for full participant-directed liquidity.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures); (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE G – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has fully benefit responsive investment contracts with TIAA-CREF, which include SRA and GSRA contract types. TIAA-CREF maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by TIAA-CREF. Since the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was 3.25% and 3.00% at December 31, 2015 and 2014, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00%. The fully benefit-responsive investment contract balance was \$14,135,430 and \$12,680,637 at December 31, 2015 and 2014, respectively, and is included in the TIAA Traditional Annuity balance.

NOTE H – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

All Plan investments are managed by TIAA-CREF. TIAA-CREF is a custodian and recordkeeper as defined by the Plan. Fees paid by the Plan for investment management services amounted to \$254,832 for the year ended December 31, 2015, and are included in net depreciation of investments on the accompanying statement of changes in net assets available for benefits. The Plan received a revenue credit of \$2,775 from TIAA-CREF during 2015, which is included in other income on the accompanying statement of changes in net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intention to do so, the University has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. Participants are 100% vested in their accounts, regardless of the Plan's status.

NOTE J – FEDERAL INCOME TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service ("IRS") in the draft Listing of Required Modifications issued April 4, 2009. The Plan Administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by U.S. federal, state or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes that the statute of limitations period for tax examinations remains open for the years ended December 31, 2012, 2013 and 2014.
