1. Description of Plan

The following description of the Gettel Automotive, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Gettel Automotive, Inc. and the adopting employers in the Gettel Automotive Group which include: Gettel Imports, Inc. Gettel Nissan, Inc., Gettel Enterprises, Inc., Gettel Ocala, Inc., Gettel Gainesville, Inc., JG 64, LLC, and Gettel Bradenton, Inc. (collectively, the "Company" or "Employer"). Employees who have at least six months of service and who are age eighteen or older are eligible to participate. The Principal Trust Company ("Principal") serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Following an amendment to the Plan on July 1, 2015, eligible employees are automatically enrolled into the plan the next quarterly date following six months of service, at a deferral rate of 4% of compensation.

Contributions

Each year, participants may contribute compensation, as defined in the plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participant salary deferrals, which are also subject to IRC limitations, may be traditional 401(k) (pretax) or Roth 401(k) (after-tax). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company matching contributions for 2015 and 2014 were 25% of salary deferrals up to 4% of participant compensation. Additional amounts may be contributed based on Plan provisions at the option of the Company's board of directors. All contributions to the Plan are participant directed.

Investment options

Participants are permitted to direct the plan administrators as to respective percentages of their account balances to be invested. They are also permitted to change those percentages; and to direct the plan administrators to transfer a percentage of their accounts invested in the various accounts in accordance with guidelines established by the Plan. These balances can come from elective deferral contributions, participant and rollover contributions, and other contributions.

The Plan is invested in a group annuity contract consisting of pooled separate accounts and mutual funds. The Plan also has a Stable Value Fund investment option which seeks to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments (see Note 4).

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the Employers' matching and discretionary contribution portion of the participants' accounts plus actual earnings thereon is based on years of continuous service. A participant is fully vested after five years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2015, outstanding loans bore interest rates ranging from 5.25% to 5.50%. Principal and interest are paid ratably through payroll deductions. Participant loans are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Participants are allowed certain in-service payments as defined in the plan document.

Forfeitures

At December 31, 2015 and 2014, forfeited nonvested account balances were $22,471 and $18,455, respectively. These amounts may be used to pay administrative expenses and to reduce Company matching contributions. During 2015, forfeitures of $29,891 were used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid for in part by the Plan through charges to the participants accounts and in part by the plan sponsor directly. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan for these services.

New accounting standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ('ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The ASU removes certain disclosures and the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value ("NAV") per share practical expedient provided by Accounting Standards Codification ("ASC") 820, Fair Value Measurement. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU should be applied retrospectively to all periods presented. Management has elected to adopt this guidance for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (*Topic* 960), *Defined Contribution Pension Plans* (*Topic* 962), *Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is now the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively to all periods presented. Management has elected to adopt Parts I and II for the year ended December 31, 2015.

The statement of net assets available for benefits as of December 31, 2014 has been adjusted to reflect retrospective application of the new accounting guidance. There was no effect to total net assets available for benefits as previously reported.

Subsequent events

Subsequent event were evaluated through October 10, 2016 which is the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP

establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2015 and 2014.The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds
Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Pooled separate accounts
The Plan invests in pooled separate accounts for which quoted prices are not available in active markets for identical instruments. The Plan utilizes the NAV of units, as determined by Principal, as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

Stable value collective trust fund
The Plan invests in a stable value collective trust fund for which quoted prices are not available in active markets for identical instruments. The Plan utilize the NAV per share provided by Principal as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the stable value collective trust fund, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value on a recurring basis as of December 31, 2015 and 2014.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual Funds	2,134,822	-	-	2,134,822
	$ 2,134,822	$ -	$ -	$ 2,134,822
Investments measured at NAV[(a)]				$ 5,925,549
Investments at fair value				$ 8,060,371

	Assets at Fair Value as of December 31, 2014 (As Adjusted)			
	Level 1	Level 2	Level 3	Total
Mutual Funds	1,647,299	-	-	1,647,299
	$ 1,647,299	$ -	$ -	$ 1,647,299
Investments measured at NAV[(a)]				$ 5,893,500
Investments at fair value				$ 7,540,799

[(a)] In accordance with *Topic 820,* certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2015 and 2014. The investments in the Plan are participant directed which may include certain restriction periods on trades; the redemption notice period is applicable only to the plan.

	Fair Value at December 31 2015	(As Adjusted) Fair Value at December 31 2014	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Stable value collective trust fund	263,516	253,520	None	Daily	12 Months
Pooled separate accounts	5,662,033	5,639,980	None	Daily	None

4. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2015 and 2014 and for the year ended December 31, 2015 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian.

	2015	2014
Investments	**$ 8,060,371**	$ 7,540,799
Net depreciation in fair value of investments	**$ (173,620)**	
Interest and dividends	**$ 153,553**	

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

6. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the Principal Life Insurance Company, the prototype plan provider, by letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by relevant taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Exempt Party-in-Interest Transactions

Certain Plan investments are shares in pooled separate accounts and a guaranteed investment contract managed by Principal, the Plan custodian, therefore, these transactions qualify as party-in-interest transactions. During the year ended December 31, 2015, fees paid by the Plan for investment management services were approximately $13,000 and are included in administrative expenses on the accompanying statement of changes in net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2015 and 2014 financial statements to Schedule H of Form 5500 as of December 31:
