HUSSMANN CORPORATION EMPLOYEE SAVINGS PLAN

Notes to Financial Statements

December 31, 2015

(See Independent Auditor's Report)

Note A - Description of the Plan

The following brief description of the Hussmann Corporation Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on April 1, 2012, as a defined contribution plan sponsored by Hussmann Corporation ("Company"). The Plan assets were transferred into this Plan from its former parent company plan on April 1, 2012. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

For deferral contributions and Company discretionary matching, employees are eligible on the first day of the month after his or her date of hire.

Contributions

Each year, participants may contribute up to 100% of annual compensation as defined in the Plan, subject to certain maximum limitations imposed by the Internal Revenue Code (the "IRC"). Participants who have attained age 50 by the end of the Plan year are eligible to make catch-up contributions, subject to the maximum limit imposed by the IRC. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective January 1, 2014, the Company matches 100% of participant contributions up to 4% of the participant's eligible compensation. Participants who have met the eligibility requirements are automatically enrolled in an elective deferral contribution of 2% of compensation.

Beginning January 1, 2014 and ending December 31, 2016, the employer may make a discretionary non-elective contribution allocated to those employees who are at least 50 years old with at least 15 years of continuous service under the Hussmann Corporation Retirement Plan as of December 31, 2013.

Note A - Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, transfers to the Plan, and allocations of (a) the Company's contributions and (b) Plan earnings (losses), and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions and the Company's contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The Plan allows participants to borrow funds from the Plan based on certain conditions. Noted terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years as determined by the Plan Administrator. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account. Upon termination of service, death, disability, or retirement, the participant may elect to receive a distribution for the value of the vested interest in their account in the form of a lump-sum distribution. The Plan allows for in-service and hardship distributions, subject to the Plan provisions.

Note B - Summary of Significant Accounting Policies

Note B - Summary of Significant Accounting Policies (Continued)

Accounting Standards Updates

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12 "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.*" This standard simplifies certain financial statement reporting and disclosure requirements for employee benefit plans. ASU 2015-12 is effective for the Company for the 2016 plan year, with early adoption permitted. Parts I and II require retrospective application, and Part III requires prospective application. The Company has chosen to adopt Part II early, effective for the 2015 plan year. Parts I and III are not applicable to this Plan.

The FASB also issued ASU 2015-07 "*Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*". This standard removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification ("ASC") 820, Fair Value Measurement. The Plan has early adopted this standard for the year ended December 31, 2015 and retrospectively for the year ended December 31, 2014.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisors and trustee.

HUSSMANN CORPORATION EMPLOYEE SAVINGS PLAN

Notes to Financial Statements - Continued

December 31, 2015

(See Independent Auditor's Report)

Note B - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of the investments includes the Plan's gains and losses on investments bought and sold as well as held during the years ending December 31, 2015 and 2014.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Loan balances are secured by participant accounts.

Administrative Expenses

The administrative expenses are paid primarily by the Plan. The Company may choose to pay certain expenses on behalf of the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participants account and are included in administrative expenses. Note C - Certification of Investment Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's rules and regulations for reporting and disclosure under ERISA. Accordingly, State Street Bank and Trust, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, and the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015; and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.

Note D - Fair Value Measurements

The Plan categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note D - Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Mutual Funds – Valued at the daily closing price as reported by the fund. The funds held by the Plan are open ended mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The funds held by the Plan are deemed to be actively traded and classified as Level 1.

Collective Trust Funds – Valued at the NAV of the units of the individual bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Brokerage Account – Common stock, mutual funds and trusts in the self directed brokerage accounts are at current value based on published market quotations from individual investments composing the brokerage accounts. Such assets are primarily classified as Level 1. Certificates of deposit are valued at amortized cost, which approximates fair value and are included in self-directed brokerage accounts as Level 2 measurement. Fair values of U.S. Treasury notes and bonds are determined based on recent bid prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 209,310,811	\$ -	\$ -	\$ 209,310,811

(a) In accordance with ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note F - Plan Tax Status

In the Plan's latest opinion letter dated March 31, 2014, the Internal Revenue Service stated that the Plan, as then designed, is in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G - Related Party Transactions

Certain Plan investments include units of collective trusts managed by State Street Bank and Trust. State Street Bank and Trust is the Trustee as defined by the Plan and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note I - Risks and Uncertainties

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J - Other Employer Receivables

Management has determined certain contribution errors occurred during the year ended December 31, 2012 into the 2014 year, related to payroll deductions of elective deferrals. The Plan Sponsor corrected the noted errors through the Employee Plans Compliance Resolution System as set forth in Revenue Procedure 2013-12 and has received approval of the correction from the IRS. The final approved corrected amount totaled \$425,524. This amount was recorded by the Plan Sponsor in other employer receivables and paid in August 2016. This receivable was estimated at \$589,000 in the prior year. The current year adjustment to the actual amount of \$163,476 has been recorded as other expense in the statement of changes in net assets available for benefits.
