Notes to Financial Statements December 31, 2015 and 2014

(1) Description of Plan

The following brief description of the Interbake Foods LLC Elizabeth Division Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document, including plan amendments, for more complete information.

General

The Plan is administered and sponsored by Interbake Foods LLC (the Company). The Plan is a noncontributory defined benefit pension plan covering hourly paid employees represented by the United Bakery, Confectionery, Cannery, Packing and Food Service Workers Union of New Jersey, Local No. 262.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan participates in the Weston Foods US, Inc. Master Trust Fund (the Master Trust).

The Plan is funded entirely from contributions by the Company.

The Plan has been periodically amended to increase the fixed monthly benefit rate. The monthly benefit rate in effect was increased to \$25 per month beginning December 1, 2006.

During 2005, the Company approved a plan to restructure its biscuit operations and close the Elizabeth biscuit facility effective November 22, 2006. As a result, there are no longer active employees at the Elizabeth facility or new participants in the Plan as of November 22, 2006. The Plan was frozen as of November 22, 2006, and all participants became fully vested as of that date.

On September 30, 2014, the Board of Directors of Weston Foods US, Inc., voted to terminate the Plan, effective December 31, 2014 (Plan Termination).

In connection with the Plan Termination, the Plan was amended on September 30, 2014 to provide for a single-sum benefit option beyond the current plan maximum of \$10,000 to all participants who were not yet in payment status as of December 1, 2015. This included surviving spouses of participants who had not commenced receiving their spousal benefits. The single-sum benefit payment option is equal to the present value of the participant's accrued benefit or in the case of the surviving spouse, the present value of the pre-retirement death benefit.

The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

- **Trustee:** The investment assets of the Plan are maintained by The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee). Among other duties, the Trustee is to safekeep and account for the trust funds and make payments to eligible participants in accordance with the Plan.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of the accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are in funds administered by the Trustee.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by investment advisers and the Trustee. See Notes 7 and 8 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Administrative expenses that are permitted as provided by the plan document are paid from the Master Trust assets. Certain administrative related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

(2) Summary of Significant Accounting Policies, Continued

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities That Calculate Net Asset Value (NAV) per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize, within the fair value hierarchy (Note 8), all investments for which fair value is measured using the NAV per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I and III are not applicable to the Plan. Part II is applicable to the Plan and the objective is to simplify, and make more effective, the investment disclosure requirements under topics 820, 960, 962 and 965 for employee benefit plans.

The amendments in these updates are effective for fiscal years beginning after December 15, 2016 and 2015, respectively. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan has elected to forego early adoption of the updates for the year ended December 31, 2015.

Subsequent Events

The Plan has evaluated subsequent events through September 26, 2016, the date the financial statements were available to be issued.

(3) Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts that are estimated to ensure all employees' benefits will be fully provided for by the time they retire. The Company made contributions of \$1,320,378 for 2015. There were no contributions in 2014. The Company's contributions for 2015 and 2014 exceeded the minimum funding requirements of ERISA as there were no minimum funding requirements.

(4) Plan Termination

As a result of the Plan Termination (Note 1), the net assets of the Plan will be allocated, as prescribed by the plan document and ERISA and its related regulations.

Certain benefits under the Plan are insured by the PBGC under the Plan Termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits as a result of the Plan Termination, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

As of July 31, 2016, the Plan's assets have been distributed to participants in full satisfaction of the Plan's obligations.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries, and (c) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

(5) Actuarial Present Value of Accumulated Plan Benefits, Continued

The present value of accumulated plan benefits was computed by Willis Towers Watson as of January 1, 2015 and 2014. The significant actuarial assumptions used in valuations are as follows as of January 1:

Discount rate	5.0%
Interest rate	5.0%
Average retirement age	65
Mortality	2015: RP-2014 Mortality Table with scale MP-2014 improvements
	2014: 2014 Uninsured Pensioner Fully Generational Mortality Table (UP94) Projected to 2020

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2015 and 2014 and incorporate the impact of the Plan Termination described in Note 4.

The actuarial present value of accumulated benefits is as follows as of January 1:

	2015	2014
Vested benefits:		
Participants currently receiving payments	\$ 24,533,059	\$ 25,560,335
Other participants	4,086,578	3,846,992
Actuarial present value of accumulated plan benefits at end of year	\$ 28,619,637	\$ 29,407,327

(6) Investments (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plan, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The fair value of investments of the Plan's net assets is as follows at December 31:

	2015	2014
Plan interest in the Master Trust	\$ 27,443,512 *	\$ 32,496,480 *

(7) Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(7) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Plan's interest in the Master Trust: See Note 8 for valuation methodology.

The methods described in Note 8 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Interest in the Master Trust (Unaudited)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and another Weston Foods US, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. The administration of the Plan is overseen by the Committee.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 60%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested in each plan.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Master Trust as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

(8) Interest in the Master Trust (Unaudited), Continued

Common collective trust: Valued at the NAV of units of a trust company collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

(9) Related Party Transactions and Party-In-Interest Transactions

During 2015 and 2014, administrative expenses of \$238,220 and \$179,459, respectively, include fees paid to the Trustee and other service providers, as well as the PBGC expenses. The Trustee is a party-in-interest to the Plan. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments.

The Plan does not consider employer contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(10) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 1, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

(11) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
