Blue Sky Therapy 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN

The following description of Blue Sky Therapy 401(k) Savings Plan (the Plan) provides only general information pertaining to the Plan. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of WSB Rehabilitation Services, Inc., dba "Blue Sky Therapy" who are age twenty-one or older. Effective July 1, 2010, The Plan Agreement was amended to add a service requirement that requires 250 hours of service within three months from the eligible employee's employment commencement date. If an employee does not complete the stated hours of service during the specified time period, the employee is subject to one year of service before they are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute, on a salary-deferral basis, amounts up to the maximum amount allowed by law. Participants may also elect to make a separate election to defer up to 100% of any bonus.

On July 1, 2010, the Plan agreement was amended to allow for matching contributions equal to a discretionary percentage, to be determined by the Employer, of the Participant's Elective Deferrals up to 6% of the participant's compensation. Matching contributions shall be determined each payroll period. The Company suspended their discretionary matching contribution effective October 1, 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Plan earnings and losses, and administrative expenses. Allocations of the Plan's earnings and losses are based on the proportion that each participant's account bears to the total of all participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their voluntary contributions plus actual earnings thereon. A participant becomes vested in employer matching contributions as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum of equal to the lesser of \$50,000 or 50% of the vested balance of their account. A participant may only have one outstanding loan at any time. The loans are secured by the balance in the participant's account and must bear interest at the prime rate plus 1%. Principal and interest must be paid through payroll deductions. Payment by check is only allowed for prepayment.

The period and terms of repayment of the loan is a maximum of five years unless the loan is for the purchase of a primary residence, for which it can be longer. During 2015, loans had interest rates ranging from 4.25% to 5.25% for the term of the loan with terms from 2 to 5 years.

Payment of Benefits

Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment or direct rollover to an IRA or other employee plan.

Benefit distributions of \$120,401 and \$185,074 were made for the plan years ended December 31, 2015 and 2014, respectively.

Forfeitures

If a participant is not vested upon termination, the nonvested portion of their account balance contributed by the employer and the earnings thereon are forfeited. Forfeited amounts are used to reduce employer matching contributions, if any, or are applied against administrative expenses. Forfeited amounts of \$1,872 and \$7,237 occurred during the years ended December 31, 2015 and 2014, respectively.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Adoption of New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"), which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted and has applied ASU 2015-07 retrospectively, as required.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient," ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts; contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan elected to early-adopt ASU 2015-12, and has applied the provisions retrospectively. Certain disclosures that are no longer required were removed, including historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits and the net appreciation or depreciation of fair value by type.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The separate accounts of insurance company represent contributions invested in pools of domestic and international common stocks, high-quality short-term debt securities, private market bonds and mortgages, and high-yield fixed-income securities which are slightly below investment grade, all of which are valued at fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on the schedule of assets (held at end of year).

Blue Sky Therapy 401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Certification

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014 and net change in investment income and expenses for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan. Participant loans are not certified by the Plan's trustee.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable and withdrawals from participants are charged directly to the participant's account and are included in administrative expenses. Additionally, monthly third party administration charges are charged directly to the participant's account and are also included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE C – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Fair values for Level 2 inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily includes fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts, pooled separate accounts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities, participant loans and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Separate accounts of insurance company: Net asset value (NAV) of each of the separate accounts is calculated in a manner consistent with U.S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or stocks. The fair value of the underlying mutual funds or stock is used to determine the NAV of the separate account, which is not publicly quoted. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying securities is based on quoted prices of similar assets and used to determine the NAV of the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with GAAP, investments measured at net asset value as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation to the amounts presented in the Statements of Net Assets Available for Benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

Blue Sky Therapy 401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE D – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE E – PARTY-IN-INTEREST

The Plan allows participants to borrow funds against their account balances. These transactions qualify as party-in-interest transactions. Plan investments are interests in pooled separate accounts managed by John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A) is the investment manager as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE F – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 13, 2016, which is the date the financial statements were available to be issued.
