1. Description of Plan

The following description of STI Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective August 1, 2015, the Plan was amended and restated and the name of the Plan was changed from Southeast Texas Industries, Inc. 401(k) Plan to STI Group 401(k) Plan.

General

The Plan is a defined contribution plan that, prior to August 1, 2015, covered all employees of STI Holding Company, Inc., dba The STI Group and its subsidiaries and affiliates (collectively, the "Company" or "Plan Sponsor") who are age 21 or older. Effective August 1, 2015, the Plan's eligibility requirements changed to cover employees of the Company who are age 19 or older and have completed 2 months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Employer matching contributions and additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. No employer contributions were made for the years ended December 31, 2015 and 2014.

Participants may elect to contribute up to 100% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching and profit sharing contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Effective August 1, 2015, participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants in June 2016 and the Plan Sponsor paid penalties of approximately $350 (2014 excess contributions were distributed prior to March 16, 2015).

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeited Accounts

Participant forfeitures of nonvested balances may be used to reduce future employer contributions and pay the expenses of the Plan. During 2015 and 2014, no forfeitures were used. At December 31, 2015 and 2014, unallocated forfeitures totaled $11,471 and $270, respectively.

Administrative Expenses
Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document. Loan administration fees are paid by the participant electing the loan.

2. Summary of Significant Accounting Policies

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Recent Accounting Pronouncements
In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, and Health and Welfare Benefit Plans – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* The purpose of this ASU is to simplify plan accounting.

- The amendments in Part I of this ASU designate contract value as the only required measurement for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this ASU will eliminate the requirements for plans to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value ("NAV") per share (or its equivalent) practical

expedient in *Fair Value Measurement: Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or its Equivalent)* and that investment is in a fund that files a United States Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this ASU reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The ASU may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted this ASU for the 2015 Plan year, and the amendments in Part I and Part II were retrospectively applied as of and for the year ended December 31, 2014. The impact of adopting these amendments is reflected in the financial statements.

In May 2015, FASB issued ASU No. 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or its Equivalent)*. The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this ASU are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan adopted this ASU for the 2015 Plan year.

Subsequent Events
The Plan has evaluated subsequent events through October 12, 2016, the date the financial statements were available to be issued.

3. Information Certified and Provided by American United Life Insurance Company and Capital Bank and Trust Company

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, American United Life Insurance Company ("AUL"), the current trustee of the Plan, and Capital Bank and Trust Company, the former trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2015 and 2014

- Investment income (loss) and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2015

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

FASB's Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

- Stable value fund – Primarily valued at NAV per share used as a practical expedient. This practical expedient would not be used if it is determined to be probable that the trust would sell the investment for a different amount than the reported NAV.

- Pooled separate accounts – Primarily valued at NAV as a practical expedient based on quoted market prices of underlying investments.

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	December 31, 2015			
	Total	Level 1	Level 2	Level 3
Investments measured at NAV*:				
Stable value fund	**$ 852,703**	**$ -**	**$ -**	**$ -**
Pooled separate accounts	**4,162,965**	**-**	**-**	**-**
	$ 5,015,668	**$ -**	**$ -**	**$ -**

	December 31, 2014			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 4,711,920	$ 4,711,920	$ -	$ -

* In accordance with ASC, *Fair Value Measurements and Disclosures*, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statement of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

	Fair Value at December 31, **2015**	2014	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value fund	**$ 852,703**	$ -	$ -	Immediate	None
Pooled separate accounts	**4,162,965**	-	-	Immediate	None
	$ 5,015,668	$ -	$ -		

5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by AUL. AUL is the trustee, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Plan Sponsor paid certain administrative expenses related to the Plan for the years ended December 31, 2015 and 2014.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan Sponsor contributions.

7. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Effective July 1, 1997, the Plan adopted a standardized form of a prototype plan. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

8. Risks and Uncertainties

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
