Note A – Description of the Plan

The following description of the Nidec Kinetek Corporation 401(k) Plan (f/k/a Kinetek Industries, Inc. 401(k) Plan) (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Nidec Kinetek Corporation (f/k/a Kinetek Industries, Inc.) and its subsidiaries ("Participating Employers"), which have elected to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The following is a list of Participating Employers (collectively the "Company"):

Nidec Kinetek Corporation (formerly known as Kinetek Industries, Inc.)
Merkle-Korff Industries, Inc.
Motion Control Engineering, Inc.
The Imperial Electric Company
Advanced Motors & Drives, Inc.
Valmark Industries, Inc.

On March 24, 2013, Kinetek Group, Inc. changed its name to Nidec Kinetek Corporation ("Nidec"). On March 31, 2014, Kinetek Industries, Inc. and Nidec merged and the Nidec name remained. On April 30, 2015, Advanced Motors & Drives, Inc. was merged into The Imperial Electric Company.

Effective December 31, 2015, the Plan was merged into the Nidec Motor Corporation Employee Savings Investment Plan.

Eligibility

Employees who are at least 21 years of age are eligible to become participants in the Plan the earlier of the first day of the Plan year or the first day of the fourth, seventh, or tenth month of the Plan year following six months of service.

Contributions

Participants may contribute a percentage of their pre-tax compensation, as defined by the Plan, up to the maximum allowed under the Internal Revenue Code ("IRC"). Participants are also permitted to make Roth after-tax contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Note A – Description of the Plan (Continued)

Contributions (Continued)

The Plan provides for a discretionary matching contribution as stated in the Plan Document or determined each year by each Participating Employer. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. For the years ended December 31, 2015 and 2014, discretionary matching contributions totaled $570,207 and 566,470 and profit sharing contributions totaled $160,692 and 132,183, for 2015 and 2014 respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, if any, and an allocation of (a) Company profit sharing contributions, if any, (b) the Plan's earnings, and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested balance within the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions and earnings is based on years of service. A participant is 100% vested after five years of credited service. Participants are also 100% vested upon retirement age 65, termination of employment due to death or becoming disabled.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $64,389 and $33,751, respectively. These accounts may be used to reduce future Company contributions or pay the Plan's administrative expenses. For the years ended December 31, 2015 and 2014, the Company contributions and Plan administrative expenses were paid from forfeited non-vested accounts of $54,028 and $36,166, respectively.

Notes Receivable from Participants

Participants may borrow an amount not less than $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their vested balance. The terms range from one to five years or up to ten years if used for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate of interest plus one percent at the time the note receivable is issued. At December 31, 2015, interest rates on the participant notes receivable range from 4.25% to 9.27%. Principal and interest are paid ratably through payroll deductions.

Note A – Description of the Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payment, or partial payments. If the vested account balance is $5,000 or less, the participant will receive a lump-sum payment. In-service withdrawals are permitted based on the terms of the Plan. Withdrawals are also allowed at any time for hardship reasons, as defined by the Plan.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Change in Accounting Policy

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12 "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient," which simplifies the required disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully-benefit responsive investment contracts, including common collective trust assets. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by investment type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type, however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. This ASU is effective for fiscal years beginning after December 15, 2015 (i.e. the 2016 Plan year). In accordance with the ASU, the Plan early adopted the standard as of December 31, 2015, and applied the provisions retrospectively.

Note B – Summary of Significant Accounting Policies (Continued)

Change in Accounting Policy (Continued)

In May 2015, the FASB issued ASU No. 2015-07 "*Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share.*" This standard removes the requirement to present investments, for which a practical expedient is used to measure fair value at net asset value, within the fair value hierarchy table. An entity would be required to include such investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value of investments shown on the statement of net assets available for benefits. The ASU is effective for fiscal years beginning after December 15, 2015 (i.e. the 2016 Plan year). In accordance with the ASU, the Plan early adopted the standard as of December 31, 2015, and applied the provisions retrospectively.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2016, the date the financial statements were available to be issued.

Note C – Certification of Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from State Street Bank and Trust Company (the "trustee") that all of the information provided by the trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of the trustee, investment income, and all information appearing in the accompanying statements and supplemental schedule are presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended and are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust – Valued at the NAV of units of a bank collective trust. The NAV, as provide by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Cash – Valued at the account balance.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014. There were no investments at December 31, 2015.

Investments at Fair Value
As of December 31, 2014

Description	Total	Level 1	Level 2	Level 3
Mutual funds	$ 41,633,227	$ 41,633,227	$ -	$ -
Cash (interest bearing)	40,874	40,874	-	-
Collective investment trust (a)	4,199,363	-	-	-
Total investments	$ 45,873,464	$ 41,674,101	$ -	$ -

(a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note E – Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2014.

December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Investment Trust	$ 4,199,363	$ -	Daily	Daily

Note F – Related Party Transactions

The Plan's investments are held by the trustee. The Plan's stable value collective trust fund is managed by Transamerica Retirement Solutions f/k/a Diversified Investment Advisors ("Transamerica"). These transactions, therefore, qualify as party-in-interest transactions. Transamerica also performs recordkeeping and administrative services. Expenses paid by the Plan to Transamerica were $139,359 and $14,837 for the years ended December 31, 2015 and 2014.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note H – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J – Nonexempt Transactions

It was noted that in 2014 there were unintentional delays by the Company in submitting employee contributions in the aggregate amount of $2,583 to the trustee. The Company reimbursed the Plan for lost earnings during 2015.

Note K – Reconciliation of Financial Statements to Form 5500
