1 Description of the Plan

The following description of the AMEC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, except for temporary and contracted employees of AMEC E&C Services, Inc. and affiliated employers (collectively, the Company or Plan Sponsor). The affiliated employers are AMEC Environment and Infrastructure, Inc. and AMEC Kamtech, Inc. (excluding craft workers in certain job classes).

Employees become eligible to participate immediately and there is no age or service requirement for participating. The Plan document was most recently amended and restated January 1, 2014 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 18, 2015, the AMEC Oil & Gas, Inc. Retirement Savings Plan merged into the Plan, resulting in a \$69,586,193 transfer of assets into the Plan. Any activity after December 18th is reflected in the statements of changes in net assets available for benefits for the year ended December 31, 2015. Further, effective December 31, 2015, The Foster Wheeler Inc. 401(k) Plan merged into the Plan, resulting in a \$381,510,695 transfer of assets into the AMEC 401(k) Plan. Both of these plans were part of the AMEC Foster Wheeler controlled group. These two plan mergers resulted in Transfers In to the Plan of \$451,096,888 during 2015, which consisted of notes receivable and participant accounts invested in common collective trust and mutual funds.

Contributions

Participants may contribute an amount not less than 1%, but not more than 30% of their compensation, as defined in the Plan agreement. Eligible employees who do not make an affirmative election to participate or not to participate, are automatically enrolled in the Plan at 3% of their compensation with 1% annual increases (up to 15%). Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers shares in various registered investment companies, common / collective trusts and a self-direct option, where participants can set up individual brokerage accounts and trade in mutual funds and common stock. Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings.

The Company will make a safe harbor matching contribution of 100% of basic 401(k) or Roth 401(k) contributions up to 3% of the participant's compensation, plus 50% of basic 401(k) or Roth 401(k) contributions in excess of 3% through 5% of compensation. The Company contributions are invested directly in investments as directed by the participant. Company matching contributions are recorded in the same period as participant contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of the Company's contributions and investment earnings, and charged with benefit payments and an allocation of investment losses and administrative expenses and expenses related to maintaining a self-directed brokerage account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in all participant and employer contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Participants may have no more than two loans outstanding at one time. The loans are secured by the balance in the participant's vested account and bear interest at rates that range from 4.25% to 10.25%, which are commensurate with local prevailing rates for similar loans. Principal and interest are paid ratably through monthly payroll deductions. The maximum term of the loans is five years, unless the loan is for the purpose of purchasing a principal residence, in which case the maximum loan term is fifteen years.

Benefit Payments

Upon termination of service, retirement, the attainment of age 59 ½, or death, a participant may receive a lump sum amount equal to the value of the vested portion of their account. If a terminated participant with a vested account balance in excess of \$1,000 but is less than \$5,000, does not make an affirmative distribution election, the distribution will be automatically rolled over to an Individual Retirement Account with The Vanguard Group. Additionally, if the amount of the terminated participant's vested account balance is \$1,000 or less and the participant does not make an affirmative distribution election, the participant will receive a lump sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeitures

Forfeitures result from participant balances from previously merged qualified plans, where the participant had not yet become fully vested. The forfeiture balances at December 31, 2015 and 2014 were \$445,568 and \$181,610, respectively. Forfeitures of \$145,187 were used to reduce employer contributions for the year ended December 31, 2015.

2 Summary of Significant Accounting Policies**Basis of Accounting**

The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussions of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan Sponsor, except for certain 401(k) participant-requested service expenses and expenses related to maintaining a self-directed brokerage account.

Subsequent Events

Plan management has evaluated all subsequent events through October 12, 2016, the date the financial statements were available for issuance.

New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* – a consensus of the FASB Emerging Issues Task Force, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy and related disclosures. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retroactively applied resulting in the removal of the Plan's investment for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that total investments in the fair value hierarchy can be reconciled to total investments measured at fair value on the statement of net assets available for benefits.

In July 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively for all financial statements presented. Early application is permitted. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Early application is permitted.

Part I clarified that indirect investments in fully benefit-responsive investment contracts (“FIBRICs”) (for example, the Plan’s investment in the Vanguard Retirement Savings Trust) are not in the scope of the FBRIC guidance and that such stable value funds are generally in an investment company that calculates net asset value (“NAV”) per share (or its equivalent) in a manner consistent with the measurement principles in ASC 946, *Financial Services- Investment Companies*. Management elected to early adopt Part I, and the amendments were retrospectively applied whereby, the amount related to this fund that was previously presented as contract value in the Plan’s financial statements is now reported on the statement of net assets available for benefits with investments at fair value under the new guidance. Total net assets available for benefits did not change, and the adjustment from fair value to contract value that was previously reported is eliminated.

Part III is not applicable to the Plan, but management has adopted Part II in addition to Part I described above. Accordingly, the amendments were retrospectively applied, resulting in the removal of certain fair value disclosures related to the Vanguard Retirement Savings Trust. The disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type and the investment strategy for the Plan’s investment measured at NAV have been removed, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

3 Fair Value Measurements

The guidance for fair value measurements establishes the authoritative definition for fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan’s estimates and assumptions which reflect those that market participants would use.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market funds: stated at cost, which approximates fair value.

Mutual funds: valued at the quoted price of shares held by the Plan at year end.

Self-directed brokerage accounts: the brokerage accounts are comprised of common stocks and mutual fund investments. Common stocks and mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trust funds: valued at the NAV of the units held by the Plan at year end, which is provided by the trustee and is determined based on the fair value of the underlying investments, which are based on the current market prices or quotations readily available on the day of valuation. The Vanguard Retirement Savings Trust Fund includes highly rated synthetic investment contracts, traditional investment contracts and cash investments. Investments in this investment can be redeemed immediately at the participant level and in 12 months at the Plan level, at the current NAV per unit based on the fair value of the underlying assets. All other trusts within the common and collective trust funds use an asset allocation strategy that is designed for investors planning to retire and leave the workforce in or within a few years of the target year. The common and collective trust's asset allocation will become more conservative over time. There are currently no redemption restrictions on these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments as of December 31, 2015 and 2014:

December 31, 2015	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

4 Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR2520 103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Total investment earnings and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Schedule of assets (held at end of year) as of December 31, 2015.

5 Related Party Transactions

Certain plan investments are shares of mutual funds, common collective trusts fund and a money market fund managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the Plan's trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA. Additionally, notes receivable from participants qualify as party-in-interest transactions. These transactions are not considered "prohibited transactions" under Section 408(b) of the Internal Revenue Code (IRC) and are not prohibited by ERISA.

6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, if any, at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participant accounts will be distributed in accordance with the Plan agreement.

7 Tax Status

Prior to January 1, 2014, the Plan Sponsor adopted a prototype standardized plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust were designed in accordance with applicable sections of the IRC. Effective January 1, 2014, the plan was restated to be a customized plan, for which an IRS determination letter has yet to be obtained. Although a determination letter has not been obtained for the customized plan, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, and for the year ended December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

8 Reconciliation of Form 5500 to the Financial Statements
