INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Western International 401(k) Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by ADP, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H Line 4i – Schedule of Assets (Held at End of Year) is for the year ended December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RE: Plan #001
EIN #75-2910500
Form 5500

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis of accounting. This is a comprehensive method of accounting which differs from the cash basis by employer and employee contributions receivable and recording investments at fair value.

Valuation of Investments

The Plan's investments are stated at fair value. Quoted market prices are used to value investments in mutual funds.

The exception to this valuation is the balance of participant loans. In order to comply with Accounting Standards Update 2010-25, participant loans are valued at their unpaid balance plus any accrued but unpaid interest.

Participant Loans

Loans to participants are available under the Plan. Generally, the loan may not be more than 50% of the participant's vested account or $50,000, reduced by the highest outstanding loan balance of loans during the one-year period ending on the day before the new loan is made. The minimum loan available is $1,000. Up to five loans may be outstanding at a time. The participant's vested account provides the security for the loan.

In general, the interest rate charged for a Plan loan will be the prime rate plus 1%. The prime rate is determined based upon the prime rate of interest that is published in the Wall Street Journal on the 14th day of each month.

As the loan is repaid, the principal and interest are credited to the participant's account. A loan to one participant does not affect the account of any other participant.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Adoption of Recent Pronouncements

The plan opted for early adoption of ASU 2015-12. (See Note 8) Early adoption of this standard required a restatement of 2014 financials in the amount of $1,403 relating to a reduction in investments reported at fair value, and a subsequent reduction in reported investment gain from registered investment companies. See Notes 5-7 for additional information relating to fair value measurement of investments.

NOTE 2 - PLAN DESCRIPTION

Risk

The Plan is subject to general market risks associated with general economic conditions.

Description of Plan

Effective January 1, 2000, WI Realty I L.P. (Western International) adopted a defined contribution plan for the benefit of the employees of the Company. The following description of the Western International 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. A corrective adoption agreement went into effect on January 1, 2009 to change the plan to a safe harbor 401(k) plan. An additional adoption agreement went into effect on December 1, 2015 which was an amendment and restatement to bring the plan into compliance with the Pension Protection Act of 2006 and other legal requirements. This amendment also included an election for discretionary employer profit sharing contributions to be made annually.

General

The Plan is a defined contribution plan meeting the requirements of Section 401(k) of the Internal Revenue Code covering all full time employees of the Company.
An employee will be eligible to enter the Plan as a participant upon reaching age 18 and completing (a) 1 Year of Service, or if earlier (b) 3 consecutive full calendar months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employees may elect to defer up to the annual limit of $18,000 for 2015 and $17,500 for 2014. The contribution limitation is determined by the IRS regulations and is adjusted annually for inflation. The employer makes a safe harbor match equal to 100% of employee's contribution up to 3% of their compensation plus 50% of employee's contribution between 3% and 5% of their compensation. The company made matching contributions for 2015 and 2014 of $431,999 and $434,481 respectively.

NOTE 2 – PLAN DESCRIPTION (CONTINUED)

Administrative Expenses

ERISA permits certain expenses directly related to operating the Plan to be paid from participant accounts. Accordingly, specific fees are charged directly to participant accounts in response to transactions the participant requests under the Plan.
The Plan paid administrative expenses of $23,592 in 2015, and $13,540 in 2014.

Breakdown of Fees Follows:	2015	2014
Distributions	$13,446	$3,850
Loan	$ 7,425	$7,125
Investment advice (Indiv. Participants)	$ 1,721	$1,465
Distribution/Withdrawal	$ 1,000	$1,100

Participant Accounts

Each participant's account is credited with the participant's elective deferral, employer matching for the elective deferral and an allocation of the Plan earnings, and charged with an allocation of certain administrative expenses. Plan earnings are allocated to individual participant accounts based on the value of each individual participant account to all accounts in the separate investment pool. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. A participant will at all times have a 100% vested interest in his or her Safe Harbor Matching Contribution Account and Non-Elective Contribution Account. Participants are also 100% investing in Employer Nonelective profit sharing contributions.

Forfeitures

Forfeitures represent non-vested profit sharing contributions remaining in participant accounts after employees are terminated or no longer meet eligibility requirements. Forfeitures are first used to pay Plan expenses. Any forfeitures left after paying Plan expenses are used to offset the employer's next contributions. The Plan Administrator will allocate forfeitures immediately following the Plan year in which the forfeiture occurs. The amount of forfeitures that occurred in 2015 & 2014 were $1,606 and $419 respectively. These forfeitures were used to reduce employer expenses in accordance with Plan documents.

Payment of Benefits

In general, benefits may be withdrawn upon reaching normal retirement age (age 65), or upon Plan termination. In addition, vested employer contributions may be withdrawn upon termination of employment before age 65, or becoming disabled. Employee 401(k) contributions may be withdrawn upon reaching age 59 ½, or upon incurring a financial hardship, as defined in the plan.

NOTE 2 – PLAN DESCRIPTION (CONTINUED)

Termination

The employer shall have the right at any time to terminate the Plan by delivering to the Trustee and Administrator written notice of such termination. Upon any full or

partial termination all amounts credited to the affected Participants' Accounts shall become 100% Vested and shall not thereafter be subject to forfeiture, and all unallocated amounts shall be allocated to the accounts of all Participants in accordance with the provisions hereof.

Upon the full termination of the Plan, the Employer shall direct the distribution of the assets to Participants in a manner which is consistent with and satisfies the provisions of the Plan. Distributions to a Participant shall be made in cash (or in property if permitted in the Adoption Agreement). Except as permitted by the Regulations, the termination of the Plan shall not result in the reduction of "Section 411(d)(6) protected benefits".

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a joint or survivor annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are generally paid out in lump-sum distributions. For any participants with vested balances, the distribution will begin within an administratively reasonable time after Termination of Employment, Retirement or Disability occurs.

NOTE 3 - FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on April 2, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan follows the provisions of uncertain tax positions as addressed in *FASB Accounting Standards Codification 740-10-65-1*. Management has determined that The Plan does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that The Plan's tax returns will not be challenged by the taxing authorities. Generally, The Plan's tax returns remain open for federal income tax examination for three years from the date of filing.

NOTE 4 - INFORMATION PROVIDED BY THE PLAN ADMINISTRATOR

The following information was provided and certified by State Street as of December 31, 2015 and December 31, 2014:

- Investments in the statements of net assets available for plan benefits as of December 31, 2015 and 2014.
- Net appreciation in fair value of investments, participant loan income, and investment gain/loss in the statements of changes in the net assets available for plan benefits for the year ended December 31, 2015 and 2014.
- Schedule of assets held for investment purposes.

NOTE 5 - FAIR VALUE MEASUREMENTS

To increase consistency and comparability in fair value measurements and related disclosures, the fair value hierarchy of FASB ASC 820-10 prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of a market participant that holds the asset or owes the liability.

NOTE 6 - BENEFIT RESPONSIVE GROUP ANNUITY CONTRACTS

The Invesco Stable Asset fund is a fully benefit responsive contract. This contract's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

Valuation:

These securities are valued according to the following policy from Invesco.

The Trust may invest in bank, insurance company and other financial institution investment contracts ("GICs"). The Trust holds synthetic guaranteed investment contracts ("synthetic GICs"). Synthetic GICs are portfolios of securities (debt securities or units of collective trusts) owned by the Trust with wrap contracts associated with the portfolios. The Trust's investment contracts are carried at contract value which is equal to principal balance plus accrued interest plus deposits and less withdrawals. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined-contribution plans. Investment contracts that do not meet the criteria for valuation at contract value will be valued at fair value as determined by the Trustee, and such value may be more or less than contract value. Investment contracts have elements of risk due to lack of a secondary market and resale restrictions resulting in the inability of the Trust to sell a contract. In addition, investment contracts may be subject to credit risk based on the ability of the wrapper providers to meet their obligations under the terms of the contract.

The Trust may also invest in traditional guaranteed investment contracts ("traditional GICs"). Traditional GICs are backed by the general account of the issuer. The Trust deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value (principal plus accrued interest). Traditional GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. The fair value of traditional GICs is determined using an income approach where the individual contract cash flows are discounted at the prevailing interpolated swap rate as of year-end.

Short-term securities are stated at amortized cost (which approximates market value) if maturity is 60 days or less at the time of purchase, or at market value if maturity is greater than 60 days.

Investments in units of affiliated collective trusts are valued at the respective net asset values as reported by such trusts

NOTE 6 - BENEFIT RESPONSIVE GROUP ANNUITY CONTRACT(CONTINUED)

Debt obligations (including convertible securities) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate (for unlisted equities), yield (for debt obligations), quality, type of issue, coupon rate (for debt obligations), maturity (for debt obligations), individual trading characteristics and other market data. Debt obligations are subject to interest rate and credit risks. In addition, all debt obligations involve some risk of default with respect to interest and/or principal payments.

The fair value of the separate account insurance contracts is based on the net asset value of an insurance company separate account on which the crediting rate is based. The underlying fixed income securities of the separate accounts are valued on the basis of valuation furnished by approved independent pricing services. These services determine valuations for normal institutional-size trading units of such securities using model or matrix pricing.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or became unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

The Trust may invest in securities that are subject to interest rate risk, meaning the risk that the prices will generally fall as interest rates rise and, conversely, the prices will generally rise as interest rates fall. Specific securities differ in their sensitivity to changes in interest rates depending on their individual characteristics.

Changes in interest rates may result in increased market volatility, which may affect the value and/or liquidity of certain of the Trust's investments.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity.

NOTE 6 - BENEFIT RESPONSIVE GROUP ANNUITY CONTRACT(CONTINUED)

Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

Nature of Investment Contracts: The Trust enters into wrapper agreements with wrap providers. A wrapper agreement is a derivative instrument that is deSigned to minimize the risk of investment losses and under most Circumstances maintain a constant net asset value per share. Under normal circumstances, the value of the wrapper agreements is expected to vary inversely with the market value of the Trust's assets covered ("covered assets") by the wrapper agreement.

Calculating the Interest Crediting Rate in Wrapper Contracts
The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying fixed income investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis according to each contract. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio:
CR =[(l+YTM) x (MV/CV)l/Dur -1) - F
Where: CR = Contract interest crediting rate
YTM = Yield to maturity of underlying investments
MV = Market value of underlying investments
CV = Contract value (principal plus accrued crediting rate interest)
Dur = Duration of the underlying investments
F = Wrapper contract fees

Projected Average Interest Crediting Rate (at the end of blended rate periods):
Average Portfolio Duration: 2.97 years
Average Portfolio Crediting Rate: 1.66%
Average Portfolio Yield: 1.87%

NOTE 6 - BENEFIT RESPONSIVE GROUP ANNUITY CONTRACT(CONTINUED)

Events That Limit the Ability of the Trust to Transact at Contract Value
Investment contracts are valued at contract value principally because unitholders are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a unit holder arising from retirement, termination of employment, disability or death. In the normal course, unitholder events are predictable (for unitholders as a group) such that the economic integrity of investment contracts is largely unaffected
by unitholder withdrawals.

Employer initiated events, if material, may affect the underlying economics of investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or
other events. The occurrence of one or more employer initiated events could limit the Trust's ability to transact at contract value with plan unitholders.

For example, retirement benefit payments which occur because an employer has offered a subsidized early retirement program will not
transact at contract value unless the scope of the program is not material or the investment contract includes a "contract value corridor". Whether an employer initiated event is probable is foremost within the knowledge of the employer, but in the normal course may be communicated to the investment manager of the Trust.

While the investment manager may take action to minimize or eliminate the impact of the employer initiated event, there is no assurance that the issuer will continue to transact at contract value once the corridor is used. In that case, the Trust would be unable to maintain the ability to transact at contract value. As of December 31,2014, Trust's management believes the occurrence of an event that would limit the ability of the Trust to transact at contract value with the unitholders in the Trust is not probable.

Issuer-Initiated Contract Termination
Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of its qualified status, material breaches of responsibilities that are not cured, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Invesco Stable Asset Fund

This asset's value has received the following adjustment to Fair Value for purposes of reporting on the Form 5500. The trust (Invesco Trust Company) recorded the asset at contract value for their relevant financials, but this amount is adjusted to fair market value for purposes of reporting on the Form 5500.

Market and Contract Value

Valuation for contract and market value are substantially the same for these investments. The sole difference is Invesco Stable Asset Fund is understated by $596 for 2015 and $1,403 for 2014 on these financials as compared to the amounts reported on the Form 5500. See Note 1 for additional information on restatement of 2014 financial statements due to early adoption of ASU 2015-12.

NOTE 8 - RECENT PRONOUNCEMENT

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The provisions of the ASU are effective with the Plan's year ending December 31, 2017. The ASU requires retrospective adoption to all periods presented. Earlier application is permitted. The adoption of this standard is not expected to have a material impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. The amendments are in 3 parts. Among other things: Part 1 amendments designate contract value as the only required measure for fully benefit-responsive investment contracts; Part II amendments eliminate the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Part III amendments provide a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for the Plan's year ending December 31, 2016. Early adoption is permitted. The adoption of Part I amendments did not have a material effect on the Plan's net assets available for benefits. Specified investment disclosures have been eliminated upon adoption of Part II. Part III is not applicable as the Plan's fiscal year coincides with month-end.

NOTE 9 - SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 11, 2016 which is the date the financial statements were available to be issued. As of October 11, 2016, there is no subsequent event to be disclosed.
