INDEPENDENT AUDITOR'S REPORT

Retirement Plan Trustees
The Salem Community Hospital Retirement Plan
Salem, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Salem Community Hospital Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Farmers Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Other Matter

The supplemental schedules of schedule H, Part IV, Item 4i-schedule of assets held for investment purposes and schedule H, Part IV, Item 4j-schedule of reportable transactions for the year ended December 31, 2015, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

THE SALEM COMMUNITY HOSPITAL RETIREMENT PLAN

December 31, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN

The following description of The Salem Community Hospital ("Company") Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined benefit pension plan providing retirement and death benefits to all permissible employees. The Plan sponsor is The Salem Community Hospital and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan includes all eligible full time employees of the Company as of January 1, 2014.

The Plan is administered by the Retirement Plan Trust Committee (Committee), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's board of directors.

Frozen Plan:

The Company has amended the Plan to incorporate a "soft freeze". Effective January 1, 2014 newly hired employees are no longer eligible for The Salem Community Hospital Retirement Plan. Participants already in the Plan continue to accrue benefits and benefits increase with the growth in participant's wages. After January 1, 2014 newly hired employees are eligible for the Salem Community Hospital 403(b) plan.

Funding Policy:

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2015, and 2014 the Company paid \$2,000,004. The Company's contributions for 2015 and 2014 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits:

Participants with five or more years of vesting service are eligible to receive monthly benefit payments beginning at normal retirement age of 65. Participants may elect to receive their benefits as a life annuity payable monthly from retirement or may elect to receive optional forms of payment of actuarial equivalent amounts. The Plan permits early retirement beginning at age 55.

Death Benefits:

Benefits are payable upon the death of (a) a nonretired participant who has completed five years of vesting service or (b) a terminated vested participant, prior to the commencement of benefits, provided that the participant had elected surviving spouse coverage.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events:

The Plan has evaluated subsequent events through October 12, 2016, the date the financial statements were available to be issued. The Plan was restated January 1, 2016. In addition, the Plan was amended October 12, 2016 to allow for purchasing annuities for certain Plan participants and surviving beneficiaries. A communication to all participants regarding the annuity purchase and a notice of other distribution options is planned for the immediate future.

RETIREMENT PLAN**

December 31, 2015 and 2014

NOTE C - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits. The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2015 and 2014 are presented in note G. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2015 and 2014. Had the valuations been performed as of December 31, there would be no material differences.

NOTE D - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).

4. All other vested benefits (that is, vested benefits not insured by the PBGC).

5. All nonvested benefits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

**THE SALEM COMMUNITY HOSPITAL
RETIREMENT PLAN**

December 31, 2015 and 2014

NOTE D - PLAN TRERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2015 that ceiling is \$5,011 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of the retirement of Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE E - INVESTMENTS

Investments that represent 5 percent or more of the Plan's net assets as of December 31, 2015 and 2014 are as follows:

	<u>2015</u>	<u>2014</u>
American Inflation Linked Bond Fund (450,093 and -0- units respectively)	4,167,858	-0-
Intermediate Bond Fund of America (-0- and 439,213 units respectively)	-0-	5,933,768

NOTE E - INVESTMENTS (CONTINUED)

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year appreciated (depreciated) in value by \$(5,944,830) and \$(1,299,281) respectively as follows:

	<u>2015</u>	<u>2014</u>
Corporate bonds	\$ (6,305)	\$ 257
Mutual funds	(2,707,755)	(1,151,747)
Common stocks	(3,129,267)	(148,450)
Limited Partnerships	<u>(101,503)</u>	<u>659</u>
NET APPRECIATION (DEPRECIATION) IN FAIR VALUE	<u>\$(5,944,830)</u>	<u>\$(1,299,281)</u>

NOTE F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

Common stocks: Valued at the closing price reported on the New York Stock Exchange.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued at the closing price reported in the active market in which the individual security is traded.

Corporate bonds: Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may be observable, such as credit and liquidity risks.

Limited partnerships: Valued at the closing price reported in the active market in which the individual security is traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Organization's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2015, and 2014.

NOTE H - TAX STATUS

The Plan obtained a determination letter dated March 27, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Continued qualification of the Plan under its present form will depend on its effect in operation. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Internal Revenue Service examined the December 31, 2011 Plan filing which resulted in no changes or issues. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

- **Funding** The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

Termination The rates at which participants are assumed to leave the Hospital by age and union status are shown below:

Representative Termination Rates (per 100 employees)

58	2
59	5
60	5
61	5
62	20
63	10
64	10
65 and older	100%

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65
- Deferred vested benefit The later of age 65 or termination of employment
- Retirement benefit Upon termination of employment

Form of payment

Union employees and former employees are assumed to elect the straight life form. 80% of non-union employees are assumed to elect a lump sum distribution at termination; the remaining 20% are assumed to elect the straight life annuity. The lump sum is assumed to be valued using the discount rate and unisex mortality under current regulations for 2015 distributions.

Percent married

For purposes of valuing the preretirement death benefit, 100% of eligible participants are assumed to have a beneficiary.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Plan Compensation/Salary

Non-Union Employees

Compensation assumed paid in the valuation year is the hourly rate of pay at the census date times the expected number of hours to be worked in the valuation year.

Compensation prior to the census date is the actual paid amount.

Union Employees

Accruals are frozen as of December 31, 2008; therefore, no plan compensation is applicable after that date.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2014 plan year, discounted using the effective interest rate for the 2014 plan year.

Benefits not valued

None

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan Name:	Salem Community Hospital Retirement Plan
EIN / PN:	34-1041385/ 001
Plan Sponsor:	Salem Community Hospital
Valuation Date	January 1, 2015

SCHEDULE SB ATTACHMENTS

Lump sum conversion rate As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Rates of increase in:

- **Compensation** Assumed compensation increases are based on plan sponsor expectations for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.

The resulting salary increase assumption is 3.00%, which is a composite rate that reflects both current conditions and future expectations.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). For ASC 960 purposes, the RP-2014 mortality tables projected generationally using scale MP-2014 with separate tables for annuitants and non-annuitants.
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population. Assumed termination rates differ by union status because of expected differences in union statuses.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Form of payment	The percentage of retiring and terminating participants assumed to take lump sums is based on expected experience.
Percent married	Because the plan allows for non-spouse beneficiaries, 100% is assumed.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

September 1, 1970; Amended and Restated effective January 1, 2010 and amended effective July 1, 2012 and January 1, 2014.

Coverage and Participation

Each non-union employee of the Hospital becomes a participant on the first day of the month following attainment of age 21 and completion of one year of employment in which the employee worked at least 1,000 hours. Employees hired after January 1, 2014 are not eligible to become participants in the plan.

Definitions

Vesting service

One year is credited for each year of employment after age 18 in which the employee worked at least 1,000 hours.

Credited Service

One year is credited for each year of participation in the Plan in which the employee worked at least 1,000 hours. Credited Service for Union participants was frozen as of December 31, 2008.

Normal retirement date (NRD)

The later of the covered employee's attainment of age 65, or the fifth anniversary of the date the covered employee commenced participation in the plan.

Annual pension benefit

For each year of Credited Service, employees accrue an annual benefit equal to 1.0% of annual compensation earned during such year, plus 0.6% of annual compensation above \$4,800 earned during such year. Effective January 1, 2009, Nurses receive no future accruals under this formula. Annual compensation is generally defined as W-2 pay excluding imputed income and severance amounts.

Benefits Paid Upon the Following Events

Normal retirement	The pension benefit determined as of NRD
Early retirement	The monthly pension benefit determined as of the early retirement date, with reductions for commencement prior to age 65 as shown in the table excerpt below.

Retirement Age	Early Retirement Factor	
	Union	Non Union
62	.744	.790
60	.619	.650
55	.402	.450

Postponed retirement	The monthly pension benefit determined as of the actual retirement date, recognizing pay and service after normal retirement age.
Deferred vested termination	The accrued monthly pension commencing at age 65 or commencing as early as age 55 on an actuarially reduced basis. Participants may also elect a lump sum payment if made within 180 days of termination.

SCHEDULE SB ATTACHMENTS

Preretirement death

Benefits are payable upon the death of (a) a nonretired participant who has completed 5 years of Vesting Service or (b) a terminated vested participant, prior to the commencement of benefits.

A benefit is payable to a beneficiary, equal to what would have been payable had the participant retired (or, in the case of a vested terminated participant, had he elected to have his benefit commence) immediately prior to death (or, if later, age 55 for surviving spouse beneficiaries) with a 50% Joint and Survivor option in effect.

Other Plan Provisions

Forms of payment

An employee may elect to receive his benefit on a straight-life or a reduced Joint and Survivor basis. Unless otherwise elected, any benefit payable under the Plan shall be paid:

- on an actuarially reduced 50% or 75% Joint and Survivor basis, or
- on a straight life basis otherwise.
- for non-union employees terminating after July 1, 2012, a lump sum option is available for six months after termination. The lump sum uses IRC Section 417(e) compliant rates and mortality with an August lookback month and annual stability period.

If the participant elects and the spouse consents, benefits are paid in another actuarially equivalent optional form offered by the plan. Actuarial Equivalence is based on:

- Participants under 55 – 417(e)
- Participants 55 and over – 6%, Revenue Ruling 2001-62
