NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. Plan Description

Staff-Line, Inc. (the “Sponsor”), is a professional employer organization (PEO) performing payroll functions on behalf of client employers. On January 1, 1997, the Sponsor established the Staff-Line, Inc. 401(k) Retirement Savings Plan (the “Plan”). The following description of the Plan provides only general information. Interested parties should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a multiple employer defined contribution plan covering employees of adopting client employers who have met the eligibility requirements as elected by each adopting client employer. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Annually, participants may contribute up to 100% of eligible compensation as defined by the Plan, subject to annual limitations established by the Internal Revenue Code. Participants who have attained age 50 by December 31, are eligible to make catch-up contributions. All contributions are directed by the participants into the investment options offered by the Plan.

Each adopting client employer, at its discretion and with the consent from the Sponsor, may make a matching contribution based on a specific matching formula, a safe harbor matching or non-elective contribution and/or a profit sharing contribution to the Plan.

Plan transfers

The Plan allows for new clients of the Sponsor to integrate the assets in their existing qualified retirement plan into the Plan. The Plan also allows terminated clients to transfer assets out of the Plan into another qualified retirement plan.

Participant accounts

Each participant’s account is credited with the participant’s contribution and allocations of the employer’s contribution, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are entitled to benefits that can be provided from the vested portion of the participant’s account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts plus earnings thereon is based on years of continuous service, as elected by each adopting employer. Adopting employers may elect the following vesting options:

- Adopting employer contributions are immediately 100% vested
- Adopting employer contributions are 100% vested after three years of continuous service
- Adopting employer contributions are 100% vested after six years of continuous service

1. Plan Description, continued

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear a reasonable interest rate. Interest rates are fixed over the term of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement or any other reason, a participant is entitled to receive the vested interest in his or her account in a lump-sum amount or a direct rollover into an individual retirement account. In-service withdrawals and hardship withdrawals are also permitted in the Plan.

Forfeited accounts

Forfeited nonvested accounts for the years ended December 31, 2015 and 2014 amounted to \$99,648 and \$91,691, respectively. These accounts will be utilized to reduce future employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements have been prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Fund administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the years.

2. Summary of Significant Accounting Policies, continued

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Unless otherwise provided by the Sponsor or adopting client employers, the assets of the Plan shall be used to pay all expenses of the administration of the Plan. Administrative expenses generally consist of professional fees, contract administrator fees and investment advisory and management fees. Investment-related expenses are included in net appreciation/(depreciation) of fair value of investments.

Adoption of new accounting pronouncements

In July 2015, the FASB issued ASU 2015-12, “*Plan Accounting – Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*”. The purpose of the new ASU is to reduce the cost and complexity in employee benefit plan accounting and improve areas of GAAP while maintaining or improving the usefulness of the information provided to the users of financial statements. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only measure for fully benefit-responsive investment contracts. Part I also clarifies that indirect investments in fully benefit-responsive investment contracts through investment companies are not in the scope of the fully benefit-responsive investment contracts and therefore should not be categorized as such. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation/(depreciation) in fair value by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general asset type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part II also removes the requirement to disclose the investment strategy for investments in funds that file Form 5500 as a Direct Filing Entity. Part III simplifies accounting for a plan with a fiscal year end that doesn’t coincide with a calendar month end.

2. Summary of Significant Accounting Policies, continued

Adoption of new accounting pronouncements, continued

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Part I of this ASU for each of the years presented. Such adoption is preferable as it simplifies reporting requirements, as described above. The adoption has no effect on the net assets available for benefits and changes in net assets available for benefits for each of the years presented. The Plan elected to early adopt Part II during the prior year and Part III does not apply to the Plan.

In May, 2015, the FASB issued ASU 2015-07, "*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per share (or its Equivalent)*". The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. The purpose of this new ASU is to eliminate the diversity in the way in which investments measured using net asset value per share as a practical expedient are classified in the fair value hierarchy.

This ASU is effective for fiscal years beginning after December 15, 2016 for all non-public entities, with early adoption permitted. The amendments are to be applied retrospectively. Management has elected to early adopt the amendments of this ASU. Such adoption is preferable, as it eliminates diversity in reporting as described above. The adoption has no effect on the net assets available for benefits and changes in net assets available for benefits as of and for the year ended December 31, 2014.

Reclassification

Certain amounts reported in 2014 have been reclassified to conform to the 2015 presentation. There was no effect on the net assets available for benefits or change in net assets available for benefits as previously reported.

3. Information Certified by Hand Benefits and Trust Company

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, Hand Benefits and Trust Company, has supplied the Plan's administrator with a certification as to the completeness and accuracy of all information regarding investment assets (other than the self directed brokerage accounts), notes receivable from participants, transactions, and income presented in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2015 and 2014 and the supplemental Schedule of Assets Held at End of Year as of December 31, 2015.

4. Fair Value Measurements

FASB ASC 820, “*Fair Value Measurements and Disclosures*”, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The following is a description of the valuation methodologies used for assets measured at fair value:

Self-directed brokerage accounts:

Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds:

Valued at the net asset value (“NAV”) of shares held by the Plan at year end.

Common collective trust:

Valued at the NAV of units held by the Plan at year end. The NAV per unit is calculated daily and is based on the value of the underlying investments held by the trust.

4. Fair Value Measurements, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Fair Value Measurements, continued

Fair Value of Investments in Entities that Calculate Net Asset Value

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively:

	<u>2015 Fair Value</u>	<u>2014 Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency and Notice Period</u>
Common Collective Trust – Reliance Trust Company Stable Value Fund	<u>\$4,245,138</u>	<u>\$4,491,904</u>	N/A	Daily

5. Party-In-Interest

A party-in-interest is defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. As described in Note 1, generally the Plan assets will be used to pay administrative expenses of the Plan. Therefore, payments to such service providers by the Plan qualify as party-in-interest.

Hand Benefits and Trust Company, a BPAS Company, serves as record-keeper and custodian for the Plan and therefore, these transactions and the Plan's payment of fees to the BPAS Company qualify as party-in-interest transactions.

The Plan makes loans to participants and therefore, these transactions qualify as party-in-interest.

6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Sponsor may determine.

STAFF-LINE, INC. 401(k) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS, continued
December 31, 2015 and 2014

7. Tax Status

The Internal Revenue Service has determined and informed the Sponsor by an advisory letter dated February 11, 1999, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code. The Plan was restated during 2007 to consolidate nine amendments to the Plan. Although the Plan has been amended since receiving the letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore, believe that the Plan is qualified and the related trust is tax exempt.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of deemed distributions of participant loans per the financial statements for the year ended December 31, 2015 to Form 5500:

Distributions of participant loans deemed uncollectible in 2015 for financial statement purposes	\$15,840
Adjust by deemed distributions of participant loans recorded in 2014 on Form 5500, the year of default	<u>(15,840)</u>
Deemed distributions of participant loans reported per 2015 Form 5500	<u>\$ -</u>

Notes receivable from participants deemed distributed are recorded on the Form 5500 if, as of the end of the Plan year, the participant is not continuing repayment under the note and a distributable event has not occurred while they are recorded for financial statement purposes when determined to no longer be collectible.

10. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, the date on which the financial statements were available to be issued.
