Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Sage 401(k) Retirement and Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established October 1, 1990 and most recently amended in April 2015. The Plan is available to employees age 20 years or older who have completed two months of service, excluding leased employees and employees covered by a collective bargaining agreement that provides retirement benefits under a program different from the Plan. The Plan entry dates are the first day of each month following the satisfaction of all eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Sage Hospitality Resources, LLC (the "Company") administers the Plan. Fidelity Management Trust Company ("Fidelity") serves as trustee, manages Plan assets, and maintains the Plan's records. Fidelity offers Plan participants a variety of investment options through various mutual funds, a common and collective trust, and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 90% of their annual eligible compensation, not to exceed $18,000, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Each payroll, the Company makes a discretionary matching contribution of 50% of elective deferrals up to 3% of eligible compensation. Designated groups of eligible participants may have their match reduced to 50% of elective deferrals up to 2% of eligible compensation based upon their participation in an additional Company-sponsored savings plan. Additionally, there is a supplemental contribution for certain collectively bargained employees whereby such employees who have completed 1,000 hours during the Plan year and are still employed on December 31 will receive a Company contribution of $0.25 per hour worked, up to a maximum of 40 work hours per week. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) or retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the vested balances in the participants' accounts and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator, and mature at various dates through January 2026. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payments of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a period of not more than the participant's assumed life expectancy at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested account balance as a lump-sum distribution. Accounts with balances less than $5,000 may be immediately distributed upon a distribution event. In addition, in-service hardship distributions may be made if certain criteria are met. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses or reduce employer contributions. The balance of this account at December 31, 2015 and 2014 was $122,778 and $249,676, respectively, and $305,023 of forfeitures were utilized during 2015 to offset employer contributions and fees.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Fidelity are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation. The reclassification has no impact on net assets available for benefit.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practicable expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks; under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt ASU No. 2015-07 and ASU No. 2015-12 (as applicable) for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available to be issued, noting no additional events that require recognition or disclosure.

Note 2 - Assets Certified by Fidelity

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2015 and 2014 and the income earned or losses incurred thereon for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value measured on a recurring basis as of December 31, 2015 and 2014.

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,573,014	$ -	$ -	$ 23,573,014
Money market fund	417,986	-	-	417,986
Total assets in fair value hierarchy	$ 23,991,000	$ -	$ -	23,991,000
Common and collective trust measured at NAV				1,302,072
Total				$ 25,293,072

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,992,407	$ -	$ -	$ 18,992,407
Money market fund	604,324	-	-	604,324
Total assets in fair value hierarchy	$ 19,596,731	$ -	$ -	19,596,731
Common and collective trust measured at NAV				1,301,966
Total				$ 20,898,697

Note 3 - Fair Value Accounting (continued)

Mutual funds and the money market fund are valued based upon the quoted market prices at the close of business on the reporting period date, as reported by Fidelity.

The common and collective trust investment is measured at fair value using the NAV practical expedient and has not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

There were no unfunded commitments and the units may be redeemed on a daily basis. There were no changes to the valuation techniques used during the year.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's determination letter, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, a money market fund, and a common and collective trust fund managed by Fidelity. Fidelity is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest, as do participant loans, all of which are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions, distributions, and payables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 as of December 31, 2015 and 2014 and for the year ended December 31, 2015 due to the accrual of excess contributions payable. Additionally, the common and collective trust was accounted for as a fully benefit-responsive investment contract ("FBRIC") in the prior year, which resulted in an adjustment from fair value to contract value of $23,110 within the Plan's financial statements. During 2015, the common and collective trust was determined not to be a FBRIC upon early adoption of ASU No. 2015-12, which resulted in gain/loss on investments differing from the Form 5500 by $23,110.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Sage 401(k) Retirement and Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established October 1, 1990 and most recently amended in April 2015. The Plan is available to employees age 20 years or older who have completed two months of service, excluding leased employees and employees covered by a collective bargaining agreement that provides retirement benefits under a program different from the Plan. The Plan entry dates are the first day of each month following the satisfaction of all eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Sage Hospitality Resources, LLC (the "Company") administers the Plan. Fidelity Management Trust Company ("Fidelity") serves as trustee, manages Plan assets, and maintains the Plan's records. Fidelity offers Plan participants a variety of investment options through various mutual funds, a common and collective trust, and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 90% of their annual eligible compensation, not to exceed $18,000, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Each payroll, the Company makes a discretionary matching contribution of 50% of elective deferrals up to 3% of eligible compensation. Designated groups of eligible participants may have their match reduced to 50% of elective deferrals up to 2% of eligible compensation based upon their participation in an additional Company-sponsored savings plan. Additionally, there is a supplemental contribution for certain collectively bargained employees whereby such employees who have completed 1,000 hours during the Plan year and are still employed on December 31 will receive a Company contribution of $0.25 per hour worked, up to a maximum of 40 work hours per week. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) or retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the vested balances in the participants' accounts and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator, and mature at various dates through January 2026. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payments of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a period of not more than the participant's assumed life expectancy at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested account balance as a lump-sum distribution. Accounts with balances less than $5,000 may be immediately distributed upon a distribution event. In addition, in-service hardship distributions may be made if certain criteria are met. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses or reduce employer contributions. The balance of this account at December 31, 2015 and 2014 was $122,778 and $249,676, respectively, and $305,023 of forfeitures were utilized during 2015 to offset employer contributions and fees.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Fidelity are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation. The reclassification has no impact on net assets available for benefit.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practicable expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks; under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt ASU No. 2015-07 and ASU No. 2015-12 (as applicable) for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available to be issued, noting no additional events that require recognition or disclosure.

Note 2 - Assets Certified by Fidelity

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2015 and 2014 and the income earned or losses incurred thereon for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value measured on a recurring basis as of December 31, 2015 and 2014.

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,573,014	$ -	$ -	$ 23,573,014
Money market fund	417,986	-	-	417,986
Total assets in fair value hierarchy	$ 23,991,000	$ -	$ -	23,991,000
Common and collective trust measured at NAV				1,302,072
Total				$ 25,293,072

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,992,407	$ -	$ -	$ 18,992,407
Money market fund	604,324	-	-	604,324
Total assets in fair value hierarchy	$ 19,596,731	$ -	$ -	19,596,731
Common and collective trust measured at NAV				1,301,966
Total				$ 20,898,697

Note 3 - Fair Value Accounting (continued)

Mutual funds and the money market fund are valued based upon the quoted market prices at the close of business on the reporting period date, as reported by Fidelity.

The common and collective trust investment is measured at fair value using the NAV practical expedient and has not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

There were no unfunded commitments and the units may be redeemed on a daily basis. There were no changes to the valuation techniques used during the year.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's determination letter, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, a money market fund, and a common and collective trust fund managed by Fidelity. Fidelity is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest, as do participant loans, all of which are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions, distributions, and payables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 as of December 31, 2015 and 2014 and for the year ended December 31, 2015 due to the accrual of excess contributions payable. Additionally, the common and collective trust was accounted for as a fully benefit-responsive investment contract ("FBRIC") in the prior year, which resulted in an adjustment from fair value to contract value of $23,110 within the Plan's financial statements. During 2015, the common and collective trust was determined not to be a FBRIC upon early adoption of ASU No. 2015-12, which resulted in gain/loss on investments differing from the Form 5500 by $23,110.
