EMPLOYEE STOCK OWNERSHIP PLAN

Report on the Financial Statements

We have audited the accompanying financial statements of ms consultants, inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits--modified cash basis as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Plan Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of ms consultants, inc. Employee Stock Ownership Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended in accordance with the modified cash basis of accounting described in Note B.

Basis of Accounting

We draw attention to Note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Emphasis of a Matter

As discussed in Note B to the financial statements, in 2015 the Plan retroactively adopted Financial Accounting Standards Board Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i- Schedule of assets (held at year end) referred to as "supplemental information.", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN

The following description of the ms consultants, inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established December 24, 2013 to provide retirement benefits to employees of ms consultants, inc. (the Company) (formerly known as Mosure & Syrakis Company). The Plan is a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provision of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by an ESOP Committee of three individuals.

On December 24, 2013, the Plan purchased 98,399 shares of the Company common stock from individual shareholders, representing 37% of the Company for \$6,986,329. The Plan used the proceeds of a loan from the Company (Note G) to make the purchase. The Plan holds the common shares in a trust established under the plan provisions. As the Company makes contributions to the Plan, an appropriate percentage of common shares are allocated to eligible employees accounts in accordance with applicable regulations under the IRC. The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2015 and 2014 and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

- a) The accounts of employees with vested rights in allocated stock (allocated)
- b) Stock not yet allocated to employees (unallocated)

Eligibility

Employees are generally eligible to participate in the Plan after one full year of service provided they worked at least 1,000 hours during the first 12 months following their hire date and have attained the age of 21. Employees who attain or maintain eligibility at any time during the plan year and are employed on the last day of the year will be eligible to receive a portion of the company contribution under the Plan provisions.

Contributions

Contributions are determined at the discretion of the Board of Directors of the Company; however, any company contribution for each plan year shall be in an amount sufficient to cover any loan obligations and any other plan liabilities of the Plan as due. For the plan years ended December 31, 2015 and 2014, company contributions were used to pay debt service costs of the plan. Participant contributions and rollover contributions are not permitted.

Participant Accounts

The Plan is a noncontributory defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with the allocation of shares of company common stock released by the trustee from the unallocated account, representing the fair value of share equivalent to the Company contribution received in the current year. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation; however, eligible participants who have achieved normal retirement age, have died, or have become totally or permanently disabled will receive an allocation regardless of whether the participant is employed on the last day of the plan year. Allocations are based on the participant's percentage of total eligible compensation and the value of the common stock.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN (continued)

Forfeitures

Forfeitures are allocated to each participant's account based on the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances of \$8,066 were allocated to remaining participants during 2015. Forfeitures of terminated nonvested account balances of \$6,402 were allocated to remaining participants during 2014.

Vesting

The balance credited to each participant's account shall become vested in accordance with the following schedule:

Years of Service	Vested Percentage of Employer Contributions
Less than 2 years	0%
Less than 3 years	20%
Less than 4 years	40%
Less than 5 years	60%
Less than 6 years	80%
6 or more years	100%

Under provision of the ESOP, participants were granted credit, for purposes of vesting, for specified years of service at the Company prior to the establishment of the ESOP. Any previously unvested portion shall become fully vested to a participant upon the attainment of age 65, or if earlier, and 5 years participation in the Plan, upon the termination of the participant by reason of death or disability.

Payment of Benefits

On terminations of service due to death, disability, retirement or other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum or installment payments not to exceed a five-year period, in accordance with the plan document. Distributions are made in the form of cash.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of their investment in company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant, subject to certain percentage limitations. Participants who elect to diversify can receive cash distributions or transfer the amount to an account maintained for the participant in any qualified defined contribution plan maintained by the employer that allows the participant to direct the investment of his or her account balance, or transfer to an eligible retirement plan as a direct rollover. Diversification is offered to each individual participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares of company common stock allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50%.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN (continued)

Put Options

Under federal income tax regulations, the Company stock that is held by the plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations, including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. Pursuant to this option, the participants shall have the right to sell the stock to the Company at any time during two option periods, at a price equal to the fair market value of the common stock as the most recent valuation date preceding the option period. The first put option shall be for at least 60 days beginning on the date of distribution of the common stock. The second put option shall be for a period of at least 60 days beginning after the new determination of the fair market value of the common stock for the following plan year (and after delivery of notice of value to the participant of beneficiary). The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

The Trustee shall vote the shares of common stock held in the trust fund in accordance with the Plan provisions. As to certain matters, as defined by the IRC, each participant in the Plan will be entitled to direct the trustee as to how to vote the shares allocated to his or her account only in those limited circumstances as referenced in the plan document.

ESOP Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time, subject to the provisions of ERISA. If the Plan terminates, participants will become 100% vested in their accounts.

Administrative Expense

As provided in the plan agreements, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the modified cash basis of accounting. The modified cash basis for presentation differs principally from accounting principles generally accepted in the United States of America in that there are no provisions for employer contributions receivable and no provision for any liabilities of the Plan. Contributions and earnings are recorded when received by the Plan and distributions and expenses are recorded when paid by the Plan.

Adopting of New Accounting Pronouncement

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient," ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part I and Part III are not applicable to the Plan. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. ASU 2015-12 was early adopted and the provisions have been applied retrospectively. Certain disclosures that are no longer required were removed, including historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits and the net appreciation or depreciation of fair value by type.

Investments Valuation and Income Recognition

The common stock of the Company is reported at fair value. Fair value is determined by an annual independent appraisal. See Note J for discussion of fair value investments.

Use of Estimates

The preparation of financial statements in conformity with the modified basis of accounting requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Payments of Benefits

Benefits payments to participants are recorded upon distribution. During 2015 and 2014, benefits paid to participants totaled \$0. As of December 31, 2015 and 2014, no participant had elected to withdraw from the plan that has not been paid.

NOTE C – ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist primarily of the Plan Sponsor Company common shares, are held by the Trustee of the Plan.

Company contributions are managed by the Trustee. The Trustee also administers the payments of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE D – INVESTMENTS

The Plan's investments, which consist exclusively of Company common stock, are held by the trustee of the Plan, and are presented in the following table:

	2015		2014	
	Allocated	Unallocated	Allocated	Unallocated
Common stock				
Number of shares	20,780	77,619	13,164	85,235
Cost	\$1,475,396	\$5,510,933	\$934,637	\$6,051,692
Estimated fair value	\$1,623,558	\$6,064,355	\$941,482	\$6,096,014

NOTE E – TAX STATUS

The Plan obtained its latest determination letter on December 4, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE F – CONTRIBUTIONS

The employer contributions for 2015 and 2014 were \$666,775 and \$682,238, respectively, and were used to repay debt obligations of the Plan.

NOTE G – NOTE PAYABLE

The Plan has a loan agreement with the Company. The proceeds of the loan were used to purchase Company common shares from individual shareholders. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. These payments resulted in 7,616 shares in 2015 and 7,793 shares in 2014 being released and allocated.

The agreement provides the loan and related interest be repaid in fifteen annual principal installments of \$465,755. The note bears a 3.32% interest rate. The Trustee uses Company contributions to repay the loan and related interest. The balance of the note payable at December 31, 2015 and 2014 was \$5,589,063 and \$6,054,818, respectively.

Principal maturities are as follows:

2016	\$ 465,755
2017	465,755
2018	465,755
2019	465,755
2020	465,755
Thereafter	3,260,288
Total	<u>\$ 5,589,063</u>

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in common stock of the Company. The common stock is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flow and/or other such techniques. Due to the level of risks associated with the common stock and to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE I – PARTY-IN-INTEREST

The Plan invests in Company common stock and has indebtedness to the Company. The Company provides certain administrative services to the Plan for which fees are not charged.

NOTE J – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Fair values for Level 2 inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily includes fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts, pooled separate accounts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE J – FAIR VALUE MEASUREMENTS (continued)

Common Stock of Privately Held Company: Valued at estimated fair value as determined at the end of the year by an independent appraisal selected by the Plan's Trustee. The independent appraiser's valuation is based on the financial performance of the Company and the financial markets as of the valuation date. Information used in the appraisal includes, but is not limited to, income and market valuation techniques (weighted), the Company's reviewed financial statements, financial performance and other internal financial and operating information of the Company. The appraiser prepares a preliminary report which the Company, along with the ESOP Trustee, reviews in detail, discusses and approves.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.
