Note 1 - Description of Plan

The following description of the Quality Select 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document and *Summary Plan Description,* which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Quality Pork Processors, Inc. (the "Company") for the benefit of its employees and the employees of the Company's affiliate, Albert Lea Select Foods, Inc., who have at least one year of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Kelly Wadding, an officer of the Company, became the sole Trustee of the Plan beginning January 31, 2014. Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (collectively referred to as "Great-West"), also became the recordkeeper and custodian of the Plan assets on January 31, 2014.

Plan restatement

On January 1, 2015, the Plan was restated with the adoption of the Volume Submitter profit Sharing Plan with CODA as submitted by CCH Incorporated doing business as FTWilliam.com.

Contributions

Each year, participating employees may contribute any whole percent between one percent (1%) and ninety percent (90%) of eligible pre-tax compensation to the Plan. Participants who will have attained age fifty before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans.

In accordance with the Company's union contract and terms of the Plan, the Company made matching contributions of a) 70% of the first $2,500 of deferrals made by certain employees of Quality Pork Processors, Inc. and b) 50% of the first $1,000 of deferrals, made by certain employees of Albert Lea Select Foods, Inc. during 2015. The Company can also make discretionary contributions. During the year ended December 31, 2015, the Company did not make any discretionary contributions. Contributions are subject to certain limits set by the IRS.

Participant Investment Options

Contributions are credited to the participants' accounts on the date the funds are transmitted to the custodian. Participants can direct the investment of contributions into various investment options and may change the allocation daily. The Plan currently offers a group annuity contract and twenty-eight mutual funds as investment options.

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and in the Company's matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on a graded vesting schedule as follows:

Years of Service	Nonforfeitable Percent
Less than 2	0%
At least 2, but less than 3	20%
At least 3, but less than 4	40%
At least 4, but less than 5	60%
At least 5, but less than 6	80%
6 or more	100%

Payment of Benefits

Distribution of a participant's vested account balance is available upon the participant's retirement, death, disability, termination of employment, attainment of age 59 1/2, or for a financial hardship meeting the requirements of the IRS regulations. Distributions are made in lump-sum payments, substantially equal installments, direct rollovers, or partial withdrawals. If a participant's vested account balance does not exceed $5,000 at the time the Participant becomes eligible for a distribution, the account balance shall be paid in a lump-sum distribution.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined at the time of issuance. Current outstanding loans bear rates of interest ranging from 4.25% to 7.00%. Loans are to be repaid within 5 years unless they are for the purchase of a primary residence. Principal and interest is paid ratably through regular payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are presented at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are recorded in the financial statements as notes receivable from participants at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding addition to distributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expense

The Company pays all expenses for administration of the Plan, including trustee, custodian, recordkeeping and audit fees. Fees related to the administration of notes receivable from participants and distribution fees are charged directly to and paid by the individual participants and are therefore not included in Plan administrative expenses. Investment related expenses are included in the net depreciation of fair value of investments.

Recently Adopted Accounting Pronouncements

In July 2015, FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investment by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Management has elected to adopt Parts I and II early. The Plan's early adoption of this guidance in 2015 was applied retrospectively and did not have a material impact on its financial statements.

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2016, which is the date the financial statements were available to be issued.

Note 3 – Investments

Unaudited Information Certified by the Plan Trustee

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2014 and 2015, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West, as custodian of the Plan assets.

Net Appreciation/Depreciation in Fair Value of Investments

During the year ended December 31, 2015, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by $ 707,375.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs to minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract: Valued based on actuarial formulas as defined under the terms of the contract using observable market data as inputs.

In general, the Plan adheres to the following policies when categorizing their fair value measurements within this fair value hierarchy:

Level 1 - Mutual funds
Level 2 - Group Annuity Contract
Level 3 – During 2014 and 2015, the Plan did not hold any Level 3 investments.

The Plan's policy is to disclose transfers between levels based on valuations at the end of the reporting period. There were no transfers between Levels 1, 2, or 3 during the year ended December 31, 2015. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2015:

	December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,676,534	$ -	$ -	$ 7,676,534
Group Annuity Contract	-	3,008,104		3,008,104
	$ 7,676,534	$ 3,008,104	$ -	$ 10,684,638

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,846,995	$ -	$ -	$ 7,846,995
Group Annuity Contract	-	3,439,775		3,439,775
	$ 7,846,995	$ 3,439,775	$ -	$ 11,286,770

Note 5 – Group Annuity Contract

The Plan entered into a group annuity contract during 2014 with Great-West Life & Annuity Insurance Company ("Great-West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a traditional general account product. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

As described in the basis of accounting disclosure, the group annuity contract is fully benefit responsive. Therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis to determine if they should be reset.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes it is unlikely that any such value event, which would limit the Plan's ability to transact at contract value with participants, would occur.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2015
Average yields:		
Based on actual earnings	1.24%	1.20%
Based on interest rate credited to participants	1.25%	1.20%

Note 6 – Related Party Transactions and Party-in-Interest Transactions

Parties-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Following are descriptions of related party and party-in-interest transactions for 2014 and 2015.

Note 6 – Related Party Transactions and Party-in-Interest Transactions (Continued)

During 2014, the Company changed its payroll processor to BenefitMall. In addition to payroll processing, BenefitMall provides the Plan with the calculation and deduction of elective employee deferrals.

Also during 2014, the Plan changed its Trustee to Kelly Wadding, an officer of the Company. In addition, the recordkeeper and custodian were changed to Great-West. Great-West holds the Plan's investment assets and executes investment transactions.

Plan investments at December 31, 2014 and 2015 include a Group Annuity Contract entered into with the Key Guaranteed Portfolio Fund. This fund is a general account product managed by Great-West.

Fees incurred by the Plan for investment management services are based on an annual percentage of the average daily value of assets and are included in net appreciation (depreciation) in fair value for the investment rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

All of these transactions are considered to be with parties-in-interest, but are exempt from the prohibited transaction rules under ERISA.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

Note 8 – Tax Status

During 2014, the Plan operated under an adoption agreement in connection with a non-standardized prototype plan document sponsored by ADP, Inc., and the prototype plan document was filed with the appropriate agency. The IRS had determined and informed ADP, Inc. by an opinion letter dated March 31, 2008, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the opinion letter, the Plan administrator believed that the Plan was designed and was being operated during 2014 in compliance with the applicable requirements of the IRC and, therefore, believed that the Plan was qualified, and the related trust was tax-exempt.

During 2015, the Plan adopted and operated under an adoption agreement in connection with a Volume Submitter Profit Sharing plan with CODA submitted by CCH Incorporated, Inc. dba FTWilliam.com. The IRS has issued an opinion letter dated March 31, 2014, that the Plan is acceptable with applicable sections of the Internal Revenue Code (IRC).

Note 8 – Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9 – Risk and Uncertainties

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10 - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Form 5500 as of December 31, 2014 and 2015:

Note 11 - Corrective Distributions

During the year ended December 31, 2015, corrective distributions of $14,761 were made to return 2014 excess contributions as required to satisfy relevant nondiscrimination provisions of the Plan. At December 31, 2015, an additional $16,878 has been accrued to refund 2015 excess contributions.

Note 12 – Delinquent Contributions

During 2015, the Company determined that there were several late deposits of employee deferrals and loan repayments made during 2014 totaling $116,463. The Company will calculate lost earnings and deposit the funds into the Plan as soon as reasonably possible.

Note 13 – Uncashed Checks

The Company has periodically mailed lump-sum distribution checks to cash out participant accounts with small balances. The checks are mailed to the last known address of the participant. In some cases, the Participant has moved, the check is returned and the Company does not have a new address for the Participant. As of December 31, 2014 and 2015, such returned checks totaled $11,780 and $11,948 respectively. The Company intends to make efforts to locate the missing participants. However, if it is unable to do so, the balances of the checks will be reclassified to forfeitures.
