INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Marders, The Landscape Store Inc. 401(k) Savings Plan

Report on Financial Statements

We were engaged to audit the accompanying financial statements of Marders, The Landscape Store Inc. 401(k) Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan (the "Custodian"), except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Custodian as of and for the year ended December 31, 2015, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2015 financial statements. Accordingly, we do not express an opinion on the 2015 financial statements referenced to in the first paragraph.

Other Matter - Supplemental Schedule

The supplemental schedule H, line 4i - assets (held at end of year) as of December 31, 2015, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter - 2014 Financial Statements

The financial statements of the Plan as of December 31, 2014, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Custodian. Their report, dated October 7, 2015, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements, other than that derived from the information certified by the Custodian, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2015 financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Marders, The Landscape Store Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective January 1, 1996, is a defined contribution plan covering all full-time employees of Marders, the Landscape Store (the "Sponsor") who attained the age of twenty-one and have completed 250 hours of service in a consecutive three-month period or 1,000 hours of service in one year of service. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined by the Plan, not to exceed limitations set forth by applicable law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year, the Sponsor will contribute to the Plan a Safe Harbor Matching Contribution equal to 3% of the eligible participant's compensation. The Sponsor may also, at its discretion, make a profit sharing and/or matching contribution to eligible participants' accounts. Profit sharing contributions equal an amount determined by the Sponsor for participants who have completed 1,000 hours of service. Matching contributions equal an amount equal to 50% of contributions, not to exceed $2,000. The Sponsor made matching contributions for the year ended December 31, 2015. The Sponsor did not make a profit sharing contribution for the year ended December 31, 2015.

Investment options

In addition to various investment options offered to eligible participants, participants may elect to invest in life insurance contracts. The life insurance contracts are owned by and payable to the Plan, subject to provisions, as defined. Any distribution of an insurance policy or the proceeds of an insurance policy purchased pursuant to requirements under the Plan document shall be subject to the distribution requirements of the Plan document. Contributions by or on behalf of a participant have been invested at the election of the participant into one of the investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and the Sponsor's matching contributions, as well as allocations of the Sponsor's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in employee contributions and employer contributions up to Safe Harbor limitations plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts in excess of Safe Harbor limitations based on a graded vesting schedule and years of service. Vesting in the Sponsor's contributions portion of their accounts is based on years of service as follows:

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting (continued)

Years of Service	Vesting Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
Five or more	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's accounts and bear interest at rates ranging from 4.25% to 6.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions over five years, except for loans used to acquire a principal residence of a participant; such loans must be repaid over a period not in excess of fifteen years. Unless the loan note provides otherwise, the principal amount of the loan and accrued interest shall become immediately due and payable upon termination of employment.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled to from the Plan.

Payments of benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59½. On termination of service, a participant will receive a lump sum equal to the 100% vested amount of the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $12,454 and $11,185, respectively. Forfeitures of employer matching contributions may be used to reduce the employer contributions for the succeeding Plan year. Forfeitures of employer profit sharing contributions may be reallocated among remaining participants in the succeeding Plan year. There were no forfeitures used to reduce employer contributions or used for reallocation of profit sharing contributions for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recently adopted accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updates ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate New Asset Value per Shar*e. The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. ASU 2015-07 also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*, which simplified the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciations of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks, furthermore, the disclosure of the information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015 with early adoption permitted. The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The adoption of ASU 2015-12 has resulted in the reclassification of $35,312 related to the adjustment from fair value to contract value for fully benefit-responsive common collective trust fund within its statement of net assets available for benefits as of December 31, 2014. Furthermore, the Plan has eliminated its historical disclosure of individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Life insurance contracts are stated at cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The investment in pooled separate account is valued at the net asset value (the "NAV") per unit, as determined by the trustee at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance of credit losses has been recorded as of December 31, 2015 and 2014.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation. These reclassification adjustments had no effect on the Plan's previously reported net increase in net assets available for benefits.

Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 11, 2016, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Voya Retirement Insurance and Annuity Company (the "Custodian") and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

	2015	2014
Investments:		
Pooled separate accounts	$ 4,022,982	$ 3,865,326
Guaranteed investment contract	1,811,811	1,513,435
Notes receivable from participants	-	217,175
	$ 5,834,793	$ 5,595,936

The Custodian also certified as to the completeness and accuracy of the following:

	2015
Net depreciation in fair value of investments	$ (28,548)
Interest on guaranteed investment contract	$ 18,200

4. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option pricing and excess earnings models).

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2015 and 2014.

Description	Total at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 282,769	$ -	$ -	$ 282,769	(b)
Investments measured at net asset value*	4,022,982				
Total investments at fair value	$ 4,305,751				

*Pooled separate accounts

Description	Total at December 31, 2014	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 277,500	$ -	$ -	$ 277,500	(b)
Investments measured at net asset value*	3,865,326				
Total investments at fair value	$ 4,142,826				

*Pooled separate accounts

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Insurance contracts: are stated at the cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Significant inputs to the Level 3 measurements include the number of years to estimate the policy and the discount rates utilized.

Pooled separate accounts: are valued at the dollar value of a share of the underlying assets, by dividing the market value of a fund's total assets minus expenses by the number of shares outstanding.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below includes a roll-forward for investments (including the change in fair value) classified by the Plan within Level 3 of the fair value hierarchy for the year ended December 31, 2015:

Balance, beginning of year	$	277,500
Increase in cash surrender value of policies		5,269
Distribution of policy proceeds		-
Balance, end of year	$	282,769

5. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2015 and 2014:

		Fair Value Estimated Using NAV per Share December 31, 2015			
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

The fair values of the investments have been estimated using the NAV of the investments:

(a) Funds in this category have a relative risk rating of "Moderate." Funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the fair value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility due to the types of companies they favor, such as those able to pay dividends.

(b) Funds in this category carry the highest relative risk rating of "Aggressive." Small cap, mid cap and "specialty" funds are in this category, employing investment styles of growth, value or "blend." These funds seek capital appreciation by investing primarily in stocks of small- and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

(c) Funds in this category can have a relative risk ratings of "Moderate" or "Aggressive." Funds with fewer holdings and a relatively narrow focus merit the risk level of "Aggressive." Overall, these funds invest primarily in stocks of larger U.S. companies, employing an investment style of growth or "blend." These funds seek long-term growth of capital. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

(d) Funds in this category have a relative risk rating of "Moderate." These funds seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds - generally in a 60/40 proportion. The investment style used here is called "domestic hybrid." Some funds have fixed asset allocations, while others allow managers discretion to allocate between equities and bonds depending on their view and return and risk.

5. NET ASSET VALUE PER SHARE (CONTINUED)

(e) Funds in this category run the spectrum of relative risk from "Conservative" to "Moderate" to "Aggressive." Risk is assessed in relative terms among fixed income instruments, not in relation to more volatile equities. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Aggressive fixed-income funds are those that may have significant investments in below-investment grade bonds ("junk bonds") or bonds of foreign issuers. The investment style for such funds would be high yield or international bond. Funds with a "Moderate" risk evaluation can invest in investment-grade corporate bonds, mortgages, government bonds, and, to a lesser degree, preferred stock and foreign or convertible bonds. Conservative funds are short-term bond funds focusing solely on Treasury Bills and other highly-rated, short term (e.g. 90 day) securities.

(f) Funds in this category carry the highest relative risk rating of "Aggressive." There are three main types of funds in this category. International funds have an investment style of Foreign Stock. These funds invest in stocks of companies outside of the United States. Global funds carry an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

(g) These funds are also known as "LifeStyle" or "LifeCycle" funds. They invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds, or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk-adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different constructs can be based on risk tolerance or length of time to investment goal.

(h) Investment options in this category will have a relative risk rating of "Conservative." Assets are invested in conservative investment options that seek – but not necessarily guarantee – to hold the principal value of an investment stable through all market conditions. These options may credit a stated rate of return or minimum periodic interest rate that may vary. Dividend rates and income levels fluctuate with market conditions and are not guaranteed. These investment options, including money market portfolios, are neither insured nor guaranteed by the U.S. government.

6. GUARANTEED INVESTMENT CONTRACT

The Plan maintains a guaranteed investment contract ("GIC") related investment option, the Voya Fixed Account. The contract underlying the investment option is considered to be fully benefit-responsive. Generally, the contract value of the Voya Fixed Account at December 31, 2015 and 2014, is equal to participant deposits, less participant withdrawals, plus credited interest. Interest credited is net of expenses. Contract value may be subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of market value adjustment.

6. GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the related GIC. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield based on actual earnings for the contract for the years ended December 31, 2015 and 2014, was 1.15% and 1.20%, respectively. The crediting interest rates to participants for the contract as of December 31, 2015 and 2014, was 1.15% and 1.20%, respectively. The Custodian makes this guarantee, and although the Custodian may credit a higher interest rate, as of December 31, 2015 and 2014, the credited rate is guaranteed not to fall below 1.05% and 1.15%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Sponsor.

Certain Plan investments are managed by the Custodian of the Plan; accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $9,468 for the year ended December 31, 2015.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. TAX STATUS

The Plan uses a prototype plan document sponsored by FTWilliam.com ("FTW"). FTW received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfied the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since FTW received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations by taxing authorities for years prior to 2012.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 6,757,987	$ 6,252,589
Fair value adjustment to guaranteed investments contract	-	(35,312)
Net assets available for benefits per Form 5500	$ 6,757,987	$ 6,217,277

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2015:

	2015
Net assets available for benefits per the financial statements	$ 505,398
Fair value adjustment to guaranteed investments contract	35,312
Net assets available for benefits per Form 5500	$ 540,710

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Marders, The Landscape Store Inc. 401(k) Savings Plan

Report on Financial Statements

We were engaged to audit the accompanying financial statements of Marders, The Landscape Store Inc. 401(k) Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan (the "Custodian"), except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Custodian as of and for the year ended December 31, 2015, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2015 financial statements. Accordingly, we do not express an opinion on the 2015 financial statements referenced to in the first paragraph.

Other Matter - Supplemental Schedule

The supplemental schedule H, line 4i - assets (held at end of year) as of December 31, 2015, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter - 2014 Financial Statements

The financial statements of the Plan as of December 31, 2014, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Custodian. Their report, dated October 7, 2015, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements, other than that derived from the information certified by the Custodian, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2015 financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Marders, The Landscape Store Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective January 1, 1996, is a defined contribution plan covering all full-time employees of Marders, the Landscape Store (the "Sponsor") who attained the age of twenty-one and have completed 250 hours of service in a consecutive three-month period or 1,000 hours of service in one year of service. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined by the Plan, not to exceed limitations set forth by applicable law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year, the Sponsor will contribute to the Plan a Safe Harbor Matching Contribution equal to 3% of the eligible participant's compensation. The Sponsor may also, at its discretion, make a profit sharing and/or matching contribution to eligible participants' accounts. Profit sharing contributions equal an amount determined by the Sponsor for participants who have completed 1,000 hours of service. Matching contributions equal an amount equal to 50% of contributions, not to exceed $2,000. The Sponsor made matching contributions for the year ended December 31, 2015. The Sponsor did not make a profit sharing contribution for the year ended December 31, 2015.

Investment options

In addition to various investment options offered to eligible participants, participants may elect to invest in life insurance contracts. The life insurance contracts are owned by and payable to the Plan, subject to provisions, as defined. Any distribution of an insurance policy or the proceeds of an insurance policy purchased pursuant to requirements under the Plan document shall be subject to the distribution requirements of the Plan document. Contributions by or on behalf of a participant have been invested at the election of the participant into one of the investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and the Sponsor's matching contributions, as well as allocations of the Sponsor's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in employee contributions and employer contributions up to Safe Harbor limitations plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts in excess of Safe Harbor limitations based on a graded vesting schedule and years of service. Vesting in the Sponsor's contributions portion of their accounts is based on years of service as follows:

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting (continued)

Years of Service	Vesting Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
Five or more	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's accounts and bear interest at rates ranging from 4.25% to 6.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions over five years, except for loans used to acquire a principal residence of a participant; such loans must be repaid over a period not in excess of fifteen years. Unless the loan note provides otherwise, the principal amount of the loan and accrued interest shall become immediately due and payable upon termination of employment.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled to from the Plan.

Payments of benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59½. On termination of service, a participant will receive a lump sum equal to the 100% vested amount of the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $12,454 and $11,185, respectively. Forfeitures of employer matching contributions may be used to reduce the employer contributions for the succeeding Plan year. Forfeitures of employer profit sharing contributions may be reallocated among remaining participants in the succeeding Plan year. There were no forfeitures used to reduce employer contributions or used for reallocation of profit sharing contributions for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recently adopted accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updates ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate New Asset Value per Shar*e. The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. ASU 2015-07 also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*, which simplified the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciations of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks, furthermore, the disclosure of the information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015 with early adoption permitted. The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The adoption of ASU 2015-12 has resulted in the reclassification of $35,312 related to the adjustment from fair value to contract value for fully benefit-responsive common collective trust fund within its statement of net assets available for benefits as of December 31, 2014. Furthermore, the Plan has eliminated its historical disclosure of individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Life insurance contracts are stated at cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The investment in pooled separate account is valued at the net asset value (the "NAV") per unit, as determined by the trustee at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance of credit losses has been recorded as of December 31, 2015 and 2014.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation. These reclassification adjustments had no effect on the Plan's previously reported net increase in net assets available for benefits.

Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 11, 2016, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Voya Retirement Insurance and Annuity Company (the "Custodian") and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

	2015	2014
Investments:		
Pooled separate accounts	$ 4,022,982	$ 3,865,326
Guaranteed investment contract	1,811,811	1,513,435
Notes receivable from participants	-	217,175
	$ 5,834,793	$ 5,595,936

The Custodian also certified as to the completeness and accuracy of the following:

	2015
Net depreciation in fair value of investments	$ (28,548)
Interest on guaranteed investment contract	$ 18,200

4. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option pricing and excess earnings models).

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2015 and 2014.

Description	Total at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 282,769	$ -	$ -	$ 282,769	(b)
Investments measured at net asset value*	4,022,982				
Total investments at fair value	$ 4,305,751				

*Pooled separate accounts

Description	Total at December 31, 2014	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 277,500	$ -	$ -	$ 277,500	(b)
Investments measured at net asset value*	3,865,326				
Total investments at fair value	$ 4,142,826				

*Pooled separate accounts

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Insurance contracts: are stated at the cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Significant inputs to the Level 3 measurements include the number of years to estimate the policy and the discount rates utilized.

Pooled separate accounts: are valued at the dollar value of a share of the underlying assets, by dividing the market value of a fund's total assets minus expenses by the number of shares outstanding.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below includes a roll-forward for investments (including the change in fair value) classified by the Plan within Level 3 of the fair value hierarchy for the year ended December 31, 2015:

Balance, beginning of year	$	277,500
Increase in cash surrender value of policies		5,269
Distribution of policy proceeds		-
Balance, end of year	$	282,769

5. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2015 and 2014:

		Fair Value Estimated Using NAV per Share December 31, 2015			
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

Total	$ 3,865,326	$ -			

The fair values of the investments have been estimated using the NAV of the investments:

(a) Funds in this category have a relative risk rating of "Moderate." Funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the fair value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility due to the types of companies they favor, such as those able to pay dividends.

(b) Funds in this category carry the highest relative risk rating of "Aggressive." Small cap, mid cap and "specialty" funds are in this category, employing investment styles of growth, value or "blend." These funds seek capital appreciation by investing primarily in stocks of small- and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

(c) Funds in this category can have a relative risk ratings of "Moderate" or "Aggressive." Funds with fewer holdings and a relatively narrow focus merit the risk level of "Aggressive." Overall, these funds invest primarily in stocks of larger U.S. companies, employing an investment style of growth or "blend." These funds seek long-term growth of capital. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

(d) Funds in this category have a relative risk rating of "Moderate." These funds seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds - generally in a 60/40 proportion. The investment style used here is called "domestic hybrid." Some funds have fixed asset allocations, while others allow managers discretion to allocate between equities and bonds depending on their view and return and risk.

5. NET ASSET VALUE PER SHARE (CONTINUED)

(e) Funds in this category run the spectrum of relative risk from "Conservative" to "Moderate" to "Aggressive." Risk is assessed in relative terms among fixed income instruments, not in relation to more volatile equities. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Aggressive fixed-income funds are those that may have significant investments in below-investment grade bonds ("junk bonds") or bonds of foreign issuers. The investment style for such funds would be high yield or international bond. Funds with a "Moderate" risk evaluation can invest in investment-grade corporate bonds, mortgages, government bonds, and, to a lesser degree, preferred stock and foreign or convertible bonds. Conservative funds are short-term bond funds focusing solely on Treasury Bills and other highly-rated, short term (e.g. 90 day) securities.

(f) Funds in this category carry the highest relative risk rating of "Aggressive." There are three main types of funds in this category. International funds have an investment style of Foreign Stock. These funds invest in stocks of companies outside of the United States. Global funds carry an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

(g) These funds are also known as "LifeStyle" or "LifeCycle" funds. They invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds, or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk-adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different constructs can be based on risk tolerance or length of time to investment goal.

(h) Investment options in this category will have a relative risk rating of "Conservative." Assets are invested in conservative investment options that seek – but not necessarily guarantee – to hold the principal value of an investment stable through all market conditions. These options may credit a stated rate of return or minimum periodic interest rate that may vary. Dividend rates and income levels fluctuate with market conditions and are not guaranteed. These investment options, including money market portfolios, are neither insured nor guaranteed by the U.S. government.

6. GUARANTEED INVESTMENT CONTRACT

The Plan maintains a guaranteed investment contract ("GIC") related investment option, the Voya Fixed Account. The contract underlying the investment option is considered to be fully benefit-responsive. Generally, the contract value of the Voya Fixed Account at December 31, 2015 and 2014, is equal to participant deposits, less participant withdrawals, plus credited interest. Interest credited is net of expenses. Contract value may be subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of market value adjustment.

6. GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the related GIC. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield based on actual earnings for the contract for the years ended December 31, 2015 and 2014, was 1.15% and 1.20%, respectively. The crediting interest rates to participants for the contract as of December 31, 2015 and 2014, was 1.15% and 1.20%, respectively. The Custodian makes this guarantee, and although the Custodian may credit a higher interest rate, as of December 31, 2015 and 2014, the credited rate is guaranteed not to fall below 1.05% and 1.15%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Sponsor.

Certain Plan investments are managed by the Custodian of the Plan; accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $9,468 for the year ended December 31, 2015.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. TAX STATUS

The Plan uses a prototype plan document sponsored by FTWilliam.com ("FTW"). FTW received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfied the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since FTW received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations by taxing authorities for years prior to 2012.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2015 and 2014:
