1. DESCRIPTION OF PLAN

The following description of the ENT & ALLERGY ASSOCIATES, LLP 401(k) PROFIT SHARING PLAN (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the agreement governing the Plan (the "Plan Document").

General

The Plan is a defined contribution plan covering substantially all full-time employees of ENT & Allergy Associates, LLP (the "Plan Sponsor" or the "Partnership") who have at least one year of service and 1,000 hours, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC").

Eligibility

Employees become eligible to participate in the Plan after completing one year of service and attaining the age of 21. An employee's entry date into the Plan will be on the first day of the Plan year quarter coinciding with or next following the date satisfaction of eligibility is met.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, and subject to Plan and IRC limits. Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participating employees are eligible to make catch-up contributions under the Plan provided the participating employees have attained or will attain the age of 50 before the close of the year. The amount of catch-up contributions allowed by the Internal Revenue Service ("IRS") was $5,500 for 2015 and 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

The Partnership is required to make a qualified non-elective contribution ("QNEC") of at least 3% of each eligible participant's pay for the full year. Contributions made under the QNEC are exempt from the Partnership's vesting schedule. The Partnership may also make a profit sharing contribution to eligible participants. Pursuant to the provisions of the Plan Document, the profit sharing contribution for all non-highly compensated employees was increased to 2% of compensation, as defined in the Plan Document. Due to the increase in the profit sharing contribution, the Partnership's matching contribution was suspended for the years ended December 31, 2015 and 2014. The matching contribution may be re-instated at any time at the discretion of the Partnership.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Plan Sponsor's contribution and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, as well as all QNEC contributions plus actual earnings thereon. Vesting in the Plan Sponsor's matching and profit sharing contributions is as follows:

Description	Vesting Percentage
Less than 3	0%
3 years and above	100%

Notes Receivable from Participants

Participants may borrow from the vested interest in their accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The funds required to satisfy a borrowing request are withdrawn on a pro-rata basis from various investment funds in the participant's account. The borrowings generally must be fully repaid within five years. Borrowings for a primary residence may be repaid within a reasonable time based on the discretion of the Plan's administrator.

The loans are secured by the vested balance in the participant's account and bear interest at a rate equal to prime plus 2%, set at inception of the loan and fixed for the duration. Interest on participant notes receivable range from 5.25% to 10.25% at December 31, 2015. Principal and interest repayments are credited directly to the borrower's respective account and are repaid via payroll deductions.

Participant Distributions

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures of the Plan Sponsor's discretionary contributions are used first to pay for the administrative expenses of the Plan and then to reduce employer contributions. At December 31, 2015 and 2014, unallocated forfeited accounts totaled $10,747 and $24,246, respectively. Employer contributions were reduced by $10,314 and $24,008 for the years ended December 31, 2015 and 2014, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

If a participant fails to make a payment when the loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for a discussion of fair value measurements.

The investments in pooled separate accounts and the stable value fund are valued at the net asset value (the "NAV") per unit, as determined by the custodian at year end. The NAV is used as the practical expedient to estimate fair value and is based on the fair value of the underlying investment held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Investment contracts held by a defined-contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to guaranteed interest account because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under the standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Payment of Benefits

Benefits are recorded when paid to Plan participants.

Recently Adopted Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate New Asset Value per Share* ("ASU 2015-07"). The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. The update also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan elected to early-adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. The Plan presents the investment disclosure required by ASU 2015-07 in the fair value hierarchy tables for 2015 and 2014 in Note 3. There were no other impacts on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the years then ended.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminated the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of the information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early adoption permitted.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recently Adopted Accounting Pronouncements (Continued)

The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The adoption of ASU 2015-12 has resulted in the reclassification of $82,415 related to the adjustment from fair value to contract value for fully benefit-responsive common collective trust fund within its statement of net assets available for benefits as of December 31, 2014. Furthermore, the Plan has eliminated its historical disclosure of individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 13, 2016, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2015 and 2014:

Description	Fair Value at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Investments in fair value hierarchy:

Investments measured at net asset value [1]	71,858,275				
Investments at fair value	$81,409,617				

[1] Includes pooled separate accounts and a stable value fund which are measured at NAV as a practical expedient and are not classified in the fair value hierarchy. The fair value amounts presented in this table are shown for the purpose of reconciling to the statements of net assets available for benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

6. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of pooled separate accounts, mutual funds and collective trust arrangements. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. TAX STATUS

The Plan uses a prototype plan document sponsored by Principal Insurance Company ("Principal"), which received an opinion letter from the IRS dated March 31, 2008, stating that the prototype document satisfied the applicable provisions of the IRC. Although the Plan has been amended since Principal received the opinion letter, the Plan Sponsor believes that the amended Plan is designated and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2012, and there are currently no audits in progress for any tax periods.

8. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, substantially all administrative expenses are paid directly by the Plan Sponsor.

The Plan's investment options include shares in pooled separate accounts and a collective trust fund managed by Principal. Accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan Sponsor for the investment management services amounted to $47,150 and $45,997 for the years ended December 31, 2015 and 2014, respectively.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their accounts.
