1. Description of the Plan:

The following description of Axio Group US Services Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan.

General: The Plan is a defined contribution plan covering all eligible employees of AXIO Group US Services, Inc (the "Plan Sponsor"), TechInsights USA, Inc., OAG Aviation Worldwide LLC, RISI, Inc. and Flightview, Inc. (collectively known as the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Amendments: Effective March 6, 2015, the Plan was amended to allow employees of Flightview, Inc. to participate in the Plan.

Eligibility: Employees become eligible for participation in the Plan on the date of hire. Eligible employees enrolled in the Plan are referred to as "Participants" in the Plan.

Contributions: The Plan provides for Participant pre-tax contributions. Participants may contribute up to 50% of their pre-tax compensation, as defined by the Plan, subject to the Internal Revenue Code (IRC) limitations. Rollover contributions from other qualified plans are allowed, with the approval of the Plan Administrator. The Plan includes a qualified Roth contribution program, whereby Participants may irrevocably elect to treat all or a portion of compensation that would otherwise be eligible to defer as pre-tax contributions as designated Roth contributions as defined in Section 401A(c)(1). The Plan also contains an automatic enrollment of 3% of pre-tax compensation for all new Participants, however, employee have the option to decline participation. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides that Participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution subject to IRC limitations.

The Plan Sponsor makes non-discretionary matching contributions equal to 50% of Participant contributions up to 6% of their eligible compensation. For the year ended December 31, 2015, the Plan Sponsor contributed an employer match in the aggregate amount of $409,561 to the Plan.

The Plan Sponsor may also make discretionary nonelective contributions to all participants employed on the last day of the year. During the year ended December 31, 2015, the Plan Sponsor did not make any discretionary nonelective contribution.

Participant Accounts: Each Participant's account is credited with the Participant's contributions and allocations of (a) the Plan Sponsor's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses, if any. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting: Participants are immediately vested 100% in their contributions plus actual earnings thereon. Participants are 100% vested in the Plan Sponsor contributions and the actual earnings thereon after completion of five years of credited service. Participant vesting in the Plan based upon years of service is as follows:

Years of Service from Date of Hire	Vested Percentage of Non-Discretionary Matching Contributions	Vested Percentage of Discretionary Nonelective Contributions
1	20%	20%
2	40%	40%
3	60%	60%
4	80%	80%
5	100%	100%

Participants are 100% vested upon the occurrence of death or permanent disability, as defined.

Notes Receivable from Participants: Participants may borrow from their Plan accounts in amounts attributable to the Participant's vested balance, for a maximum term of five years. If the loan is for the purchase of a principal residence, the term of the loan

1. Description of the Plan (Continued):

may be extended. A Participant may borrow the lesser of 50% of his or her eligible balance up to $50,000. The minimum loan amount is $1,000 and only one loan can be outstanding at any time. The loan balance is secured by the Participant's account and bears interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rate will remain fixed throughout the duration of the loan. All loans must be repaid in level payments through after-tax payroll deductions on the earliest of which such amount can reasonably be segregated from the Employer's general assets. The level repayment requirement may be waived for a period of one year; however, the loan must still be repaid in full on the maturity date. If the Participant is on military leave of absence, the repayment schedule may be waived for the entire length of the time missed on leave. The loan will accrue interest during this time, and upon return from a military leave of absence, the loan will be reamortized to the length of the loan by the length of the leave.

Benefits and Withdrawals: The vested benefits are paid to the Participants or their beneficiaries upon the Participants' retirement, death, disability or termination of employment with the Plan Sponsor. In the event of the above, the Participants or their beneficiaries will receive a lump sum distribution if the account has a value of less than $1,000. Terminated Participants' vested account balances greater than $1,000 and up to $5,000 may be automatically distributed to an Individual Retirement Account (IRA). Participants whose account balances exceed $5,000 may elect a lump sum distribution or may leave their vested balance in the Plan.

Hardship withdrawals are permitted by the Plan as defined in the IRC. Participants will be suspended from making contributions for six months after the hardship withdrawal. Participants may also withdraw their vested account balance upon attaining age 59 ½.

Forfeited Accounts: Forfeited amounts related to Plan Sponsor's matching and discretionary nonelective contributions are used to reduce future Plan Sponsor contributions and Plan expenses. During the year ended December 31, 2015, the Plan Sponsor used $1,591 to pay Plan's expenses. As of December 31, 2015 and 2014, the Plan had forfeitures available to offset future Plan Sponsor's matching and discretionary nonelective contributions and Plan expenses in the amounts of $1,307 and $1,750, respectively.

2. Significant Accounting Policies:

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Fidelity Managed Income Portfolio Class 1, which is a common collective trust. The statement of net assets available for plan benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a Participant ceases to make loan repayments and the Plan Administrator deems the Participant loan to be in default, the note receivable balance is reduced and a benefit payment is recorded.

2. Significant Accounting Policies (Continued):

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from Participants are charged directly to the Participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Use of Estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Recently Adopted Accounting Policies: In July 2015, the Financial Accounting Standards Board issued an Accounting Standards Update (ASU) related to plan accounting. Part I of the ASU eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retroactively. The Plan has early adopted Part II of this ASU as of December 31, 2015 and applied its provisions retrospectively to all periods presented.

3. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (Continued):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts: Valued at the fair value of the underlying investments using quoted market prices and other significant observable inputs plus the fair value of the wrapper contract determined using the discounted cash flow method.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual Funds	$ 19,733,912	$ 19,733,912	$ -	$ -
Collective Trusts	414,829	-	414,829	-
Total Investments	$ 20,148,741	$ 19,733,912	$ 414,829	$ -

	Assets at Fair Value as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual Funds	$ 21,196,528	$ 21,196,528	$ -	$ -
Collective Trusts	925,343	-	925,343	-
Total Investments	$ 22,121,871	$ 21,196,528	$ 925,343	$ -

4. Party-in-Interest Transactions:

Certain Plan investments are managed by Fidelity Management Trust Company, trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than direct payment, in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2015. During the year ended December 31, 2015, the Plan made a direct payment to the third-party administrator, Fidelity Management Trust Company, of $8,418 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

5. Tax Status:

The Plan has adopted the volume submitter profit sharing plan of Fidelity Management Research Company. The volume submitter profit sharing plan sponsor received a favorable opinion letter dated March 31, 2014 in which the Internal Revenue Service stated that the form of the volume submitter profit sharing plan was in compliance with the applicable requirements of the IRC. The volume submitter profit sharing plan has been amended since receiving the opinion letter; however, the Plan Administrator believes that the Plan and the related trust are currently being operated in compliance with the applicable provisions of the IRC, and that the related trust is therefore tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes it has no uncertain tax positions as of December 31, 2015 and 2014 and for the year ended December 31, 2015.

6. Plan Termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants would become 100% vested in the Plan Sponsor contributions.

7. Risks and Uncertainties:

The Participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect Participants' account balances and the amounts reported in the accompanying statement of net assets available for plan benefits.

8. Information Certified by the Trustee:

The Plan Administrator has elected the method of compliance, commonly referred to as the limited-scope audit exemption, permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by Fidelity Management Trust Company, the trustee of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedule. The trustee has certified as to the completeness and accuracy of the investments and notes receivable from participants held by the Plan and the adjustment from fair value to contract value for fully benefit-responsive investment contracts as of December 31, 2015 and 2014, and the investment income, the interest income on notes receivable from Participants and the investment-related transactions of the Plan for the year ended December 31, 2015, and the information contained in the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2015.

9. Corrective Contributions:

Subsequent to the year ended December 31, 2015, the Plan Sponsor, through the availability of additional information, identified certain operational error related to the Plan Sponsor non-discretionary matching contribution for certain participants. The operational error is estimated to result in potentially unfunded Plan Sponsor contributions. The Plan Sponsor is in the process of determining the effects of operational error for each related participant, and estimates the maximum amount of missed Plan Sponsor corrective contribution to be approximately $35,000. In order to avoid disqualification of the Plan by the IRS, the Plan intends to utilize the Employee Plans Compliance Resolution System (EPCRS) of the IRS. The Plan Sponsor has determined that the error qualified for correction under the self correction provisions of the EPCRS. The amount due to participants, including lost earnings, will be contributed to the Plan upon a final determination of the effects of the operational error as a Plan Sponsor corrective contribution.

10. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:

We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. 1. Description of the Plan:

The following description of Axio Group US Services Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan.

General: The Plan is a defined contribution plan covering all eligible employees of AXIO Group US Services, Inc (the "Plan Sponsor"), TechInsights USA, Inc., OAG Aviation Worldwide LLC, RISI, Inc. and Flightview, Inc. (collectively known as the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Amendments: Effective March 6, 2015, the Plan was amended to allow employees of Flightview, Inc. to participate in the Plan.

Eligibility: Employees become eligible for participation in the Plan on the date of hire. Eligible employees enrolled in the Plan are referred to as "Participants" in the Plan.

Contributions: The Plan provides for Participant pre-tax contributions. Participants may contribute up to 50% of their pre-tax compensation, as defined by the Plan, subject to the Internal Revenue Code (IRC) limitations. Rollover contributions from other qualified plans are allowed, with the approval of the Plan Administrator. The Plan includes a qualified Roth contribution program, whereby Participants may irrevocably elect to treat all or a portion of compensation that would otherwise be eligible to defer as pre-tax contributions as designated Roth contributions as defined in Section 401A(c)(1). The Plan also contains an automatic enrollment of 3% of pre-tax compensation for all new Participants, however, employee have the option to decline participation. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides that Participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution subject to IRC limitations.

The Plan Sponsor makes non-discretionary matching contributions equal to 50% of Participant contributions up to 6% of their eligible compensation. For the year ended December 31, 2015, the Plan Sponsor contributed an employer match in the aggregate amount of $409,561 to the Plan.

The Plan Sponsor may also make discretionary nonelective contributions to all participants employed on the last day of the year. During the year ended December 31, 2015, the Plan Sponsor did not make any discretionary nonelective contribution.

Participant Accounts: Each Participant's account is credited with the Participant's contributions and allocations of (a) the Plan Sponsor's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses, if any. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting: Participants are immediately vested 100% in their contributions plus actual earnings thereon. Participants are 100% vested in the Plan Sponsor contributions and the actual earnings thereon after completion of five years of credited service. Participant vesting in the Plan based upon years of service is as follows:

Years of Service from Date of Hire	Vested Percentage of Non-Discretionary Matching Contributions	Vested Percentage of Discretionary Nonelective Contributions
1	20%	20%
2	40%	40%
3	60%	60%
4	80%	80%
5	100%	100%

Participants are 100% vested upon the occurrence of death or permanent disability, as defined.

Notes Receivable from Participants: Participants may borrow from their Plan accounts in amounts attributable to the Participant's vested balance, for a maximum term of five years. If the loan is for the purchase of a principal residence, the term of the loan

1. Description of the Plan (Continued):

may be extended. A Participant may borrow the lesser of 50% of his or her eligible balance up to $50,000. The minimum loan amount is $1,000 and only one loan can be outstanding at any time. The loan balance is secured by the Participant's account and bears interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rate will remain fixed throughout the duration of the loan. All loans must be repaid in level payments through after-tax payroll deductions on the earliest of which such amount can reasonably be segregated from the Employer's general assets. The level repayment requirement may be waived for a period of one year; however, the loan must still be repaid in full on the maturity date. If the Participant is on military leave of absence, the repayment schedule may be waived for the entire length of the time missed on leave. The loan will accrue interest during this time, and upon return from a military leave of absence, the loan will be reamortized to the length of the loan by the length of the leave.

Benefits and Withdrawals: The vested benefits are paid to the Participants or their beneficiaries upon the Participants' retirement, death, disability or termination of employment with the Plan Sponsor. In the event of the above, the Participants or their beneficiaries will receive a lump sum distribution if the account has a value of less than $1,000. Terminated Participants' vested account balances greater than $1,000 and up to $5,000 may be automatically distributed to an Individual Retirement Account (IRA). Participants whose account balances exceed $5,000 may elect a lump sum distribution or may leave their vested balance in the Plan.

Hardship withdrawals are permitted by the Plan as defined in the IRC. Participants will be suspended from making contributions for six months after the hardship withdrawal. Participants may also withdraw their vested account balance upon attaining age 59 ½.

Forfeited Accounts: Forfeited amounts related to Plan Sponsor's matching and discretionary nonelective contributions are used to reduce future Plan Sponsor contributions and Plan expenses. During the year ended December 31, 2015, the Plan Sponsor used $1,591 to pay Plan's expenses. As of December 31, 2015 and 2014, the Plan had forfeitures available to offset future Plan Sponsor's matching and discretionary nonelective contributions and Plan expenses in the amounts of $1,307 and $1,750, respectively.

2. Significant Accounting Policies:

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Fidelity Managed Income Portfolio Class 1, which is a common collective trust. The statement of net assets available for plan benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a Participant ceases to make loan repayments and the Plan Administrator deems the Participant loan to be in default, the note receivable balance is reduced and a benefit payment is recorded.

2. Significant Accounting Policies (Continued):

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from Participants are charged directly to the Participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Use of Estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Recently Adopted Accounting Policies: In July 2015, the Financial Accounting Standards Board issued an Accounting Standards Update (ASU) related to plan accounting. Part I of the ASU eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retroactively. The Plan has early adopted Part II of this ASU as of December 31, 2015 and applied its provisions retrospectively to all periods presented.

3. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (Continued):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts: Valued at the fair value of the underlying investments using quoted market prices and other significant observable inputs plus the fair value of the wrapper contract determined using the discounted cash flow method.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual Funds	$ 19,733,912	$ 19,733,912	$ -	$ -
Collective Trusts	414,829	-	414,829	-
Total Investments	$ 20,148,741	$ 19,733,912	$ 414,829	$ -

	Assets at Fair Value as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual Funds	$ 21,196,528	$ 21,196,528	$ -	$ -
Collective Trusts	925,343	-	925,343	-
Total Investments	$ 22,121,871	$ 21,196,528	$ 925,343	$ -

4. Party-in-Interest Transactions:

Certain Plan investments are managed by Fidelity Management Trust Company, trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than direct payment, in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2015. During the year ended December 31, 2015, the Plan made a direct payment to the third-party administrator, Fidelity Management Trust Company, of $8,418 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

5. Tax Status:

The Plan has adopted the volume submitter profit sharing plan of Fidelity Management Research Company. The volume submitter profit sharing plan sponsor received a favorable opinion letter dated March 31, 2014 in which the Internal Revenue Service stated that the form of the volume submitter profit sharing plan was in compliance with the applicable requirements of the IRC. The volume submitter profit sharing plan has been amended since receiving the opinion letter; however, the Plan Administrator believes that the Plan and the related trust are currently being operated in compliance with the applicable provisions of the IRC, and that the related trust is therefore tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes it has no uncertain tax positions as of December 31, 2015 and 2014 and for the year ended December 31, 2015.

6. Plan Termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants would become 100% vested in the Plan Sponsor contributions.

7. Risks and Uncertainties:

The Participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect Participants' account balances and the amounts reported in the accompanying statement of net assets available for plan benefits.

8. Information Certified by the Trustee:

The Plan Administrator has elected the method of compliance, commonly referred to as the limited-scope audit exemption, permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by Fidelity Management Trust Company, the trustee of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedule. The trustee has certified as to the completeness and accuracy of the investments and notes receivable from participants held by the Plan and the adjustment from fair value to contract value for fully benefit-responsive investment contracts as of December 31, 2015 and 2014, and the investment income, the interest income on notes receivable from Participants and the investment-related transactions of the Plan for the year ended December 31, 2015, and the information contained in the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2015.

9. Corrective Contributions:

Subsequent to the year ended December 31, 2015, the Plan Sponsor, through the availability of additional information, identified certain operational error related to the Plan Sponsor non-discretionary matching contribution for certain participants. The operational error is estimated to result in potentially unfunded Plan Sponsor contributions. The Plan Sponsor is in the process of determining the effects of operational error for each related participant, and estimates the maximum amount of missed Plan Sponsor corrective contribution to be approximately $35,000. In order to avoid disqualification of the Plan by the IRS, the Plan intends to utilize the Employee Plans Compliance Resolution System (EPCRS) of the IRS. The Plan Sponsor has determined that the error qualified for correction under the self correction provisions of the EPCRS. The amount due to participants, including lost earnings, will be contributed to the Plan upon a final determination of the effects of the operational error as a Plan Sponsor corrective contribution.

10. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:
