CORPORATION RETIREMENT PLAN**

Notes to Financial Statements

December 18, 2015 and December 31, 2014

(1) Description of the Plan

The following description of Health Dialog Services Corporation Retirement Plan (the Plan) is provided for general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution plan sponsored by Health Dialog Services Corporation (the Company) and was established effective January 1, 1997 and is subject to applicable provisions of the Internal Revenue Code (the Code). The Plan covers all eligible employees of the Company and its subsidiaries who choose to participate in the Plan. An employee is eligible to participate in the Plan on the first day of each month following their date of hire provided that the employee has reached the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Plan Merger

On March 31, 2014, Rite Aid Corporation (Rite Aid) acquired all issued and outstanding shares of common stock of the Company. Effective January 1, 2015, all eligible participants of the Plan make tax deferred contributions into the Rite Aid sponsored defined-contribution plan, a safe harbor plan with Aon Hewitt serving as trustee and custodian of the Plan.

The Board of Directors of Health Dialog Services Corporation voted to merge the Plan with Rite Aid Corporation 401(K) Plan (Rite Aid Plan). As of January 1, 2015, all Plan participants were enrolled in the Rite Aid Plan. Effective December 18, 2015, the Plan merged into the Rite Aid Plan. Plan investments of \$32,738,049 and notes receivable from participants of \$325,149 were transferred to the Rite Aid Plan. The trustee certified the value of the investments and notes receivable as of December 16, 2015. On December 16, 2015, the investments and notes receivable were transferred to the Rite Aid Master Retirement Savings Trust and posted to participant accounts in the Rite Aid 401(k) Plan on December 18, 2015.

(c) Contributions and Vesting

Effective December 31, 2014, participants became 100% vested in their account balances and effective January 1, 2015, the Plan was closed and no new contributions were made with respect to Plan years beginning after December 31, 2014.

Prior to January 1, 2015, participants may make tax deferred contributions up to an annual maximum of the lesser of 60% of their eligible compensation, as defined, or the Internal Revenue Service limit of \$17,500 for 2014. ERISA regulations also allowed participants over the age of 50 to contribute an additional catch-up amount of \$5,500 for 2014, allowing a total maximum contribution of \$23,000 for 2014. The Plan was amended on July 21, 2006 to offer participants the ability to make Roth deferral contributions and Roth direct rollovers into the Plan. Prior to 2015, contributions were recognized each pay period and participants were vested immediately in their contributions plus actual earnings thereon. For 2014, the Company elected to make matching contributions in an amount equal to 50%

**HEALTH DIALOG SERVICES
CORPORATION RETIREMENT PLAN**

Notes to Financial Statements

of the first 6% of a participant's compensation contributed to the Plan. Prior to 2015, participants vested in the employer matching contribution and earnings thereon at a rate of 33⅓% per year for a period of three years. Participants automatically become 100% vested in their account balances when they attain age 65. Effective December 31, 2014, participants became 100% vested in their account balances.

At December 31, 2014, forfeited nonvested accounts totaled \$18,420. There were no forfeited nonvested accounts at December 18, 2015. These accounts were used to reduce future employer contributions. Also in 2014, employer contributions were reduced by \$63,469 from forfeited nonvested accounts.

(d) Participant Accounts

Prior to January 1, 2015, each participant's account was credited with the participant's contribution and an allocation of plan earnings plus the Company's matching contribution and earnings thereon and charged with administrative expenses, as applicable. Beginning January 1, 2015, and continuing until participants' accounts were transferred to the Rite Aid Plan, each participant's account was allocated with earnings. Participants were provided with the option to allocate their contributions into any of the 31 different options in 2014, through Fidelity Management Trust Company, a party-in-interest.

(e) Distribution of Benefits

Amounts were distributed to participants only (i) upon termination of employment, (ii) upon attaining the age of 59½, or (iii) upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship" (as defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code of standards established by the Secretary of the Treasury or his delegate).

If employment was terminated because of death, disability, retirement, or any other reason, a participant (or in the event of death, a designated beneficiary) could receive the vested accrued benefit credited to his or her account in a lump-sum or installment distributions.

(f) Notes Receivable from Participants

In accordance with the Plan's provisions, employees could borrow against their individual account balances. Participants could borrow a minimum of \$1,000 up to a maximum of the lesser of 50% of their vested account balance or \$50,000 reduced by their highest outstanding note receivable during the prior 12-month period. Only one note could be outstanding at any given time. Notes receivable from participants were collateralized by the participant's account. Notes receivable from participants are to be repaid in level payments through payroll deductions on at least a quarterly basis over a five-year period, or over a ten-year period if it is for the purchase of a principal residence. Notes receivable from participants shall bear interest at a rate determined by the plan administrator. The interest rate was between 4.25% and 8.25% for the period from January 1, 2015 through December 18, 2015 and the year ended December 31, 2014. When participants accounts were transferred to the Rite Aid Plan, the participants' corresponding loan obligations transferred to the Rite Aid Plan.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) *Investment Valuation and Income Recognition*

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) *Notes Receivable from Participants*

Notes receivable from participants are carried at their outstanding balance plus unpaid accrued interest. No allowance for credit issues have been recorded as of December 18, 2015 and December 31, 2014.

(d) *Payment of Benefits*

Benefits are recorded when paid.

(e) *Administrative Expenses*

Administrative expenses are generally paid by the Company.

(f) *Use of Estimates*

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits, changes therein, and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(g) *Risk and Uncertainties*

The Plan provides for various investment options in any combination of mutual funds. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across a variety of participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments.

(h) Subsequent Events

The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

(3) Information Certified by Trustee

All information certified by Trustee disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 16, 2015 and December 31, 2014, and net appreciation or depreciation in fair value of investments, and interest and dividend income for the period from January 1, 2015 through December 16, 2015 and the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investments and notes receivable from participants held at December 18, 2015 and December 31, 2014, and net appreciation or depreciation in fair value of investments, and interest and dividend income for the period from January 1, 2015 through December 18, 2015 and the year ended December 31, 2014.

Investments that represent 5% or more of the fair value of the Plan's net assets available for benefits are as follows:

Description	2015	2014
Fidelity Contrafund	\$ —	7,633,469
Fidelity Diversified International Fund	—	3,215,039

Fidelity Puritan Fund	—	3,662,947
MSIF Mid Cap Growth I	—	3,203,046
Pimco Total Return	—	2,846,063

During the period from January 1, 2015 through December 18, 2015 and the year ended December 31, 2014, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated/appreciated in fair value as determined by quoted market prices as follows:

(4) Plan Termination

The Company has the right under the Plan to discontinue, terminate, amend, or modify the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

(5) Plan Tax Status

The Plan is based on a prototype plan. The Internal Revenue Service informed the prototype plan sponsor, in an opinion letter dated March 31, 2008, that the form of the prototype plan is acceptable under the requirements of the Internal Revenue Code. As provided in Revenue Procedure 2005-16, an employer that adopts a prototype plan may rely on a favorable opinion letter with respect to the qualification of its plan under Section 401(a). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed and was operated in compliance with applicable requirements of the Code and is qualified and the related trust is tax-exempt. Therefore, no provision for federal income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or derecognize an asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 18, 2015 and December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or derecognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risk, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts report in the statement of net assets available for benefits.

(7) Party-in-Interest Transactions

Plan assets include investments that are managed by affiliates of Fidelity Management Trust Company (the trustee and custodian of the Plan) and notes receivable from participants and, therefore, these transactions qualify as party-in-interest transactions.

(8) Reconciliation of Financial Statements to Form 5500

The Plan prepares its Form 5500 on a cash basis of accounting. The following is a reconciliation of net assets available for benefits as presented on the statements of net assets available for benefits in the financial statements to Form 5500 as of December 18, 2015 and December 31, 2014:

	2015	2014
Net assets available for benefits per the financial statements	\$ —	45,046,059
Participant contributions receivable	—	—
Employer contributions receivable	—	—
Net assets available for benefits per Form 5500	\$ —	45,046,059

The following is a reconciliation of the net increase or decrease as presented in the statements of changes in net assets available for benefits in the financial statements to Form 5500 for the period from January 1, 2015 through December 18, 2015 and the year ended December 31, 2014:

	2015	2014

Change in employer contributions receivable	—	5,451
Net decrease per Form 5500	\$ (45,046,059)	(4,629,368)

(9) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Subtopic 820-10, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC Subtopic 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at quoted market prices of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation and investment strategies of the Plan's financial instruments under the fair value hierarchy levels as of December 31, 2014:

Fair value measurements at December 31, 2014
