TIPP DISTRIBUTORS INC., DBA NOVAMEX 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

1. DESCRIPTION OF THE PLAN

The following description of the Tipp Distributors Inc., dba Novamex 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan covering employees of Tipp Distributors Inc., dba Novamex (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

All employees are eligible for enrollment immediately upon hire with Safe Harbor employer matching contributions at up to 4% of compensation.

Participant Accounts-Each participant's account is credited with both the participant's contribution and the employer's matching contribution as well as an allocation of the Plan's earnings and administrative expenses. Allocations of earnings are based on the participants' account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from that participant's vested account.

Contributions–Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan subject to certain Internal Revenue Service limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common stocks, bonds, and government securities.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 4% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant. Contributions are subject to certain statutory limitations.

Vesting—Participants are immediately vested in their contributions plus actual earnings upon enrollment.

Payment of Benefits–On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a period not more than the assumed life expectancy of the participant, or a partial withdrawal from the participant's rollover account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans–Subject to limitations, a participant may borrow from the vested portion of his or her elective account. A participant's loan balance is limited to 50% of the vested interest in the Plan. The minimum amount of any loan is $1,000. The Plan made loans with interest rates at 4.25% during the 2015 plan year.

Forfeitures–Forfeitures of the employer's contributions and earnings thereon resulting from participants leaving the Company are retained in a forfeiture account. Forfeitures are allocated to all participants eligible to share in the matching allocations in proportion to each participant's compensation for the year. There were no forfeitures for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting–The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants–Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition–Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates in the Preparation of Financial Statements–The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Payment of Benefits–Benefit payments to participants are recorded upon distribution.

Administrative Expenses–Administrative expenses of the Plan are paid by the Plan or the Plan's sponsor as provided in the Plan document.

Subsequent Events–Subsequent events were evaluated through October 7, 2016, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by State Street, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

Interest in State Street General Accounts	$	8,475,371
Statement of Changes in Net Assets Available for Benefits:		
Interest and dividend income	$	397,973

Supplemental Schedule: All investment balances and information included in the schedule.
Note 4: All investment balances and investment information in the note.

4. INVESTMENTS

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2015 are as follows:

T. Rowe Price Retirement 2025 Fund	$	703,665
Alger Capital Appreciation Institutional Fund	$	561,478
T. Rowe Price Retirement 2030 Fund	$	1,805,960
JP Morgan U.S. Equity Fund	$	520,664
T. Rowe Price Retirement 2020 Fund	$	1,284,277
T. Rowe Price Retirement 2040 Fund	$	595,160
T. Rowe Price Retirement 2035 Fund	$	1,153,480

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $328,001 during the year ended December 31, 2015.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at .

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Corporate bonds and U.S. government securities*:* Valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds:				
Stable value funds	$ 69,924	$ -	$ -	$ 69,924

Inflation-protected bonds	716	-	-	716
Other supplemental funds	20,380	-	-	20,380
Total assets at fair value	$ 8,475,371	$ -	$ -	$ 8,475,371

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 16, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, interests not previously vested will become immediately, completely vested and nonforfeitable.

Effective January 2015, the Company switched plan providers from ADP Total Source (a professional employer organization) to ADP Workforce Now, a third party human resources provider. All remaining assets of the plan were transferred on January 2, 2015.

8. RELATED PARTY TRANSACTIONS

Certain Plan investments are invested in accounts held and managed by State Street. State Street is the Plan's trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Administrative expenses not paid by the plan are paid by the plan sponsor.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
