MILLER OF DENTON, LTD
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - DESCRIPTION OF PLAN

The following description of the Miller of Denton, Ltd 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Miller of Denton, Ltd and MOD-GEN, Inc. (the Company) who have been employed for at least six consecutive months. The Plan is subject to the provisions of ERISA.

Contributions – Each year, participants may contribute up to $18,000 of pretax annual compensation, as defined in the Plan and per the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of an additional $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contribution into various investment options provided by the Plan.

The Company contributes 100% of the first 3% of the participant's salary deferral plus 50% of the salary deferral between 3% and 5% of compensation as a safe harbor matching contribution. The Company also has the option of contributing additional amounts at its discretion. For 2015 and 2014, the Company made employer contributions totaling $209,276 and $211,947, respectively, to the Plan. All Company contributions are invested at the direction of the participant.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and safe harbor matching contributions plus actual earnings thereon. Vesting in the optional Company contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Participant loans were permitted prior to January 1, 1997. The Plan was amended and participant loans are no longer permitted.

Payment of Benefits - Distributions from the Plan may be made when a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes disabled, or otherwise terminates employment with the Company. On termination of service, participants may elect when to receive a lump-sum amount equal to the value of the participant's vested interest. Distributions will be made as soon as practical following the first valuation date following the date of termination. If the participant's account balance is $5,000 or less at termination, there is a mandatory cash-out policy.

Note 2 - SUMMARY OF ACCOUNTING POLICIES

Forfeitures - The Plan provides that forfeitures, if any, are to be determined on the last day of the Plan year, and any amounts forfeited will be used to reduce the amount of discretionary matching contributions from the Company. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $693 and $13,932, respectively.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. *Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits - Benefit payments are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2016, the date that the financial statements were available to be issued.

Note 3 - TAX STATUS

As a non-standardized mass-submitter prototype 401(k) plan, the Company intends that the Plan and trust qualify under the appropriate sections of the Internal Revenue Code (IRC). The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4 - INVESTMENTS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by the trust company and was not subjected to any auditing procedures performed by the independent public accountants:

- Total investments as shown in the accompanying statements of net assets available for benefits of $10,031,137 as of December 31, 2015.
- Net investment loss as shown in the accompanying statement of changes in net assets available for benefits of $109,939 for the year ended December 31, 2015.
- All investment-related information in the accompanying supplemental Schedule H, line 4i - - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The following presents investments that are more than $508,217 for 2015 and $505,881 for 2014, representing 5% or more of the Plan's beginning net assets.

	2015	2014
Wells Fargo Advantage Dow Jones Target 2020, 223,496 shares and 208,011 shares, respectively	$ 3,231,753	$ 3,163,846

Wells Fargo Advantage Dow Jones Target 2040, 47,341 shares and 62,197 shares, respectively	850,722	1,196,050

T Rowe Price Equity Inc – Adv, 18,404 and 15,963 shares, respectively	522,683	522,621

During 2015, the Plan's investments (including gains and losses on any investments bought and sold, as well as held during the year) depreciated in value by $158,297 as follows:

Common/Collective Trusts	$ 3,040
Mutual Funds	(204,160)
Total	$ (201,120)

Note 5 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 - FAIR VALUE MEASUREMENTS (CONT'D.)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields current available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - FAIR VALUE MEASUREMENTS (CONT'D.)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2015 and 2014:

	Fair Value Measurement at December 31, 2015			
	Level 1	Level 2	Level 3	Total

Note 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid $39,466 in fees during the year ended December 31, 2015.

Note 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - PLAN TERMINATION

Although it has not formally expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contribution portion of their account.

Note 9 - PROHIBITED TRANSACTIONS

During 2015, the Company failed to remit to the Plan's trustee certain employee contributions totaling approximately $14,819 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the company will make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delay.

MILLER OF DENTON, LTD
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - DESCRIPTION OF PLAN

The following description of the Miller of Denton, Ltd 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Miller of Denton, Ltd and MOD-GEN, Inc. (the Company) who have been employed for at least six consecutive months. The Plan is subject to the provisions of ERISA.

Contributions – Each year, participants may contribute up to $18,000 of pretax annual compensation, as defined in the Plan and per the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of an additional $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contribution into various investment options provided by the Plan.

The Company contributes 100% of the first 3% of the participant's salary deferral plus 50% of the salary deferral between 3% and 5% of compensation as a safe harbor matching contribution. The Company also has the option of contributing additional amounts at its discretion. For 2015 and 2014, the Company made employer contributions totaling $209,276 and $211,947, respectively, to the Plan. All Company contributions are invested at the direction of the participant.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and safe harbor matching contributions plus actual earnings thereon. Vesting in the optional Company contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Participant loans were permitted prior to January 1, 1997. The Plan was amended and participant loans are no longer permitted.

Payment of Benefits - Distributions from the Plan may be made when a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes disabled, or otherwise terminates employment with the Company. On termination of service, participants may elect when to receive a lump-sum amount equal to the value of the participant's vested interest. Distributions will be made as soon as practical following the first valuation date following the date of termination. If the participant's account balance is $5,000 or less at termination, there is a mandatory cash-out policy.

Note 2 - SUMMARY OF ACCOUNTING POLICIES

Forfeitures - The Plan provides that forfeitures, if any, are to be determined on the last day of the Plan year, and any amounts forfeited will be used to reduce the amount of discretionary matching contributions from the Company. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $693 and $13,932, respectively.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. *Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits - Benefit payments are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2016, the date that the financial statements were available to be issued.

Note 3 - TAX STATUS

As a non-standardized mass-submitter prototype 401(k) plan, the Company intends that the Plan and trust qualify under the appropriate sections of the Internal Revenue Code (IRC). The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4 - INVESTMENTS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by the trust company and was not subjected to any auditing procedures performed by the independent public accountants:

Note 5 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 - FAIR VALUE MEASUREMENTS (CONT'D.)

Level 2 - Inputs to the valuation methodology include:

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields current available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid $39,466 in fees during the year ended December 31, 2015.

Note 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - PLAN TERMINATION

Although it has not formally expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contribution portion of their account.

Note 9 - PROHIBITED TRANSACTIONS

During 2015, the Company failed to remit to the Plan's trustee certain employee contributions totaling approximately $14,819 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the company will make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delay.

MILLER OF DENTON, LTD
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - DESCRIPTION OF PLAN

The following description of the Miller of Denton, Ltd 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Miller of Denton, Ltd and MOD-GEN, Inc. (the Company) who have been employed for at least six consecutive months. The Plan is subject to the provisions of ERISA.

Contributions – Each year, participants may contribute up to $18,000 of pretax annual compensation, as defined in the Plan and per the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of an additional $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contribution into various investment options provided by the Plan.

The Company contributes 100% of the first 3% of the participant's salary deferral plus 50% of the salary deferral between 3% and 5% of compensation as a safe harbor matching contribution. The Company also has the option of contributing additional amounts at its discretion. For 2015 and 2014, the Company made employer contributions totaling $209,276 and $211,947, respectively, to the Plan. All Company contributions are invested at the direction of the participant.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and safe harbor matching contributions plus actual earnings thereon. Vesting in the optional Company contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Participant loans were permitted prior to January 1, 1997. The Plan was amended and participant loans are no longer permitted.

Payment of Benefits - Distributions from the Plan may be made when a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes disabled, or otherwise terminates employment with the Company. On termination of service, participants may elect when to receive a lump-sum amount equal to the value of the participant's vested interest. Distributions will be made as soon as practical following the first valuation date following the date of termination. If the participant's account balance is $5,000 or less at termination, there is a mandatory cash-out policy.

Note 2 - SUMMARY OF ACCOUNTING POLICIES

Forfeitures - The Plan provides that forfeitures, if any, are to be determined on the last day of the Plan year, and any amounts forfeited will be used to reduce the amount of discretionary matching contributions from the Company. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $693 and $13,932, respectively.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. *Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits - Benefit payments are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2016, the date that the financial statements were available to be issued.

Note 3 - TAX STATUS

As a non-standardized mass-submitter prototype 401(k) plan, the Company intends that the Plan and trust qualify under the appropriate sections of the Internal Revenue Code (IRC). The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4 - INVESTMENTS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by the trust company and was not subjected to any auditing procedures performed by the independent public accountants:

- Total investments as shown in the accompanying statements of net assets available for benefits of $10,031,137 as of December 31, 2015.
- Net investment loss as shown in the accompanying statement of changes in net assets available for benefits of $109,939 for the year ended December 31, 2015.
- All investment-related information in the accompanying supplemental Schedule H, line 4i - - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The following presents investments that are more than $508,217 for 2015 and $505,881 for 2014, representing 5% or more of the Plan's beginning net assets.

	2015	2014

During 2015, the Plan's investments (including gains and losses on any investments bought and sold, as well as held during the year) depreciated in value by $158,297 as follows:

Common/Collective Trusts	$ 3,040
Mutual Funds	(204,160)
Total	$ (201,120)

Note 5 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 - FAIR VALUE MEASUREMENTS (CONT'D.)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields current available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - FAIR VALUE MEASUREMENTS (CONT'D.)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2015 and 2014:

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid $39,466 in fees during the year ended December 31, 2015.

Note 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - PLAN TERMINATION

Although it has not formally expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contribution portion of their account.

Note 9 - PROHIBITED TRANSACTIONS

During 2015, the Company failed to remit to the Plan's trustee certain employee contributions totaling approximately $14,819 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the company will make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delay.
