Notes to Financial Statements

1. Description of the Plan

The following brief description of the L.D. Kichler Company Plant 401(k) Retirement Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and covers substantially all union employees of The L.D. Kichler Company (the Company) who have completed 12 months of continuous service, and are age 21 or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute up to the lesser of 100% of their pretax annual compensation as defined in the Plan or the legal limitation for the applicable year. Effective January 1, 2013, participants may also elect to make Roth 401(k) contributions. In addition, participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes a matching contribution on behalf of each participant equal to 100% of the first 1% of compensation, as defined, that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. These amounts may be funded by forfeitures. There were no discretionary profit sharing contributions made during 2015 and 2014.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the Plan's earnings, net of administrative expenses. Allocations of earnings are based on participant account balances. Optional amounts contributed to the Plan by the Company are allocated to participant accounts based on compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions are invested at the election of the employees in funds maintained by the Plan's trustee. Employees may elect to have contributions allocated between funds.

Notes Receivable from Participants

Participants may borrow from their accounts in amounts ranging from a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one month to five years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The loans bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator and range from 4.25% to 5.25%. Principal and interest is paid ratably through weekly payroll deductions.

L.D. Kichler Company Plant 401(k) Retirement Plan and Trust

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The Company's contributions are vested at a rate of 20% per year of service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of his or her account, or installment payments as defined in the Plan. Any participant with \$1,000 or less in his account will automatically receive a lump sum distribution.

Trustee

The trustee of the Plan is Reliance Trust Company.

Plan Administration

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In 2015 and 2014, certain administrative expenses related to trustee and recordkeeping services were paid by the Plan and a portion of the expenses were absorbed by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to defined contribution plans, and in accordance with the Plan agreement. A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Valuation of Investments

The Plan's investments are stated at quoted prices from an active market which represents net asset value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year end. The common collective trusts are valued at fair value, which has been determined by the market value of its underlying investments. See Note 4 for discussion of fair value measurements.

New Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all

L.D. Kichler Company Plant 401(k) Retirement Plan and Trust

Notes to Financial Statements

investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2015 Plan year, and it was retrospectively applied to the 2014 Plan year. Prior year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the Emerging Issues Task Force. The amendments in this update (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defines Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan adopted this update for the 2015 Plan year, and it was retrospectively applied to the 2014 Plan year. Prior year disclosures have been revised to reflect the retrospective/prospective application of this update. The impact of adopting this update is reflected in Note 4.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported increases and decreases of net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements

Subsequent Events

The Company has evaluated subsequent events through October 13, 2016, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through the date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Certified Information

All investment and notes receivable from participants information disclosed in the accompanying financial statements held at December 31, 2015 and 2014, and the net (depreciation) appreciation in fair value of investments and interest and dividends for the years then ended were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust, the trustee of the Plan. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The ASC Topic on Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

L.D. Kichler Company Plant 401(k) Retirement Plan and Trust

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Mutual funds: Valued at quoted prices from an active market which represents the net asset value (NAV) of shares held by the Plan at year-end.

Common collective trust: Valued at NAV estimated by the issuer, which has been determined by the market value of its underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>December 31, 2015</i>	Total	Level 1	Level 2	Level 3
Mutual Funds	\$1,007,426	\$ 1,007,426	\$ -	\$ -
Total investments at fair value hierarchy	1,007,426	1,007,426	-	-
Investments measured at NAV*	182,754			
Total investments measured at fair value	\$1,190,180	\$ 1,007,426	\$ -	\$ -

<i>December 31, 2014</i>	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 975,145	\$ 975,145	\$ -	\$ -
Total investments at fair value hierarchy	975,145	975,145		
Investments measured at NAV*	205,418			
Total investments measured at fair value	\$ 1,180,563	\$ 975,145	\$ -	\$ -

L.D. Kichler Company Plant 401(k) Retirement Plan and Trust

Notes to Financial Statements

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliations of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. Federal Income Tax Status

The Plan uses a prototype plan document sponsored by The Hartford Retirement Services, LLC (The Hartford). The Hartford obtained a blanket opinion letter from the Internal Revenue Service (IRS) dated January 30, 2006, which states that the prototype document satisfies the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS and has since been amended. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for Federal income tax has been made in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Party-in-Interest Transaction

Transactions that qualify as parties-in-interest consist of purchases and sales of JP Morgan funds managed by an affiliate of the Plan's trustee and notes receivable from participants.

During the years ended December 31, 2015 and 2014, administrative fees of \$4,629 and \$0, respectively, were paid by the Plan to the trustee and record-keepers. These fees qualify as party-in-interest.
