1. Plan Description

The following description of Scotto Steakhouse 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 2015, is a defined contribution plan covering eligible employees of Scotto LLC, Melville Steakhouse LLC, Jericho Restaurant LLC, and Smithtown Steakhouse LLC (the "Company"). All employees who have attained the age of twenty one with one year of service and completing 1,000 hours of service, are eligible to participate in the Plan. An employee entry date into the Plan is the first day of the month following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participant Salary Deferral Contributions

Participants in the Plan may contribute a discretionary amount of their annual compensation and bonus provided that the participant's contribution does not exceed the maximum dollar amount determined by the Internal Revenue Service ("IRS") each year, which is $18,000 for the year ended December 31, 2015. Employees over the age of 50 can elect to contribute an additional $6,000, each year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Discretionary Matching Contributions

Participants are eligible to receive a discretionary matching contribution based on a discretionary percentage. During the year ended December 31, 2015, the Company made no matching contributions.

Employer Nonelective Contributions

The Company may decide to make a nonelective contribution to the Plan, although the Company is not required to do so. The nonelective contribution will be allocated to all employees eligible to participate in the Plan. The employee's share of the nonelective contribution is in proportion to there eligible earnings compared to the eligible earnings of the other employees who will also share in the contribution. The nonelective contribution, if made, will be allocated as of the end of each plan year based on eligible earnings within the computation period. No nonelective contributions were made for the year ended December 31, 2015.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's discretionary matching and nonelective contributions plus actual earnings thereon based on the following schedule:

Years of Service	Vesting Requirement
Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Accounts
Individual participant accounts are credited with applicable participant contributions, an allocation of the Company's contributions, and investment earnings or losses, and are charged with an allocation of administrative expenses. Allocations are based upon participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is equal to the vested portion of the participant's account.

Forfeitures
A participant who terminates employment and is less than 100% vested forfeits the non-vested portion of his account. Forfeitures attributable to employer matching and nonelective contributions are used to reduce administrative expenses of the Plan with any remaining amounts to be used to reduce the employer match. For the year ended December 31, 2015 there were no forfeitures.

Investment Options
Participants may direct contributions to any of the investment options offered by the Plan. Participants may change their investment options on a daily basis.

Distributions
Distributions from the Plan are permitted under the following circumstances: (i) attainment of age 59 ½, (ii) termination of employment, (iii) death or permanent disability, and (iv) a proven hardship. Distributions from a participant's account are made in the form of a lump-sum payment or an ad-hoc payment. If a participant's account balance does not exceed $5,000, the distributions can only be made in the form of a lump-sum payment and may be distributed to a terminated participant without consent.

Notes Receivable from Participants
In general, the plan administrator may permit participants to borrow from their fund accounts a minimum of $500 not to exceed the lesser of either (i) $50,000 or (ii) 50% of the vested amount of the participant's account attributable to salary deferrals and rollovers from other plans. Participants are allowed one outstanding loan at a time.

Loans are secured by the balance in the participant's account and bear interest at the prevailing prime rate plus 2% on the origination date of the loan (rate at December 31, 2015 was 5.25%). A loan shall be repaid over a period of up to five years unless the loan is for the purchase of a primary residence, which can be repaid over a period of thirty years. Loans are repaid through payroll deductions. At December 31, 2015 there were no participant loans.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements have been prepared using the accrual basis of accounting.

Common/Collective Trust
Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2015, the fair value of the investment contract approximates contract value.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Dividends are recorded on the ex-dividend date. Interest is included in income when earned, based on the terms of the investments and the periods during which the investments are owned. Purchases and sales of securities are recorded on a trade-date basis.

The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net change in the fair value of its investments which consists of realized gains or losses, and unrealized appreciation or depreciation on those investments.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of the Plan income and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. Investment related expenses are included in net depreciation of fair value of investments.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee's, have certified that the following data included in the accompanying financial statements is complete and accurate.

	December 31, 2015
Common/collective trust	$ 1,890
Shares of registered investment companies	37,151
	$ 39,041

	Year Ended December 31, 2015
Net depreciation in fair value of investments	$ (2,340)
Dividend and interest income	$ 1,499

During the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the period) depreciated in fair value by $2,340.

Investments that represent 5% or more of fair value of the Plan's net assets at December 31, 2015 that have been certified by the trustee, are as follows:

T. Rowe Price Retirement 2020 - R	$ 20,850
T. Rowe Price Retirement 2030 - R	3,407
T. Rowe Price Retirement 2025 - R	6,530

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("ASC") No. 820, *Fair Value Measurements and Disclosures* ("ASC 820"), provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Shares of common/collective trusts are valued at the net fair value of the underlying assets as determined by quoted market prices for similar assets or liabilities in active markets.

- Shares of registered investment companies are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price.

There have been no changes in the methodologies used at December 31, 2015. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Common/collective trust	$ -	$ 1,890	$ -	$ 1,890
Shares of registered investment companies				
Equity funds				
Growth & income	36,757	-	-	36,757
Growth	394	-	-	394
		-		
	37,151	-	-	37,151
Total assets at fair value	$ 37,151	$ 1,890	$ -	$ 39,041

5. Common/Collective Trust Funds

The Plan invested in fully benefit-responsive investment contracts with State Street Bank and Trust Company. The trustee maintains the contributions in a collective trust account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by the trustee. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no adjustments from fair value to contract value at December 31, 2015 on the Statement of Net Assets Available for Benefits as fair value approximates contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2015, was $1,890. The average yield earned by the Fixed Account was 3.00% during the year ended December 31, 2015. The crediting interest rate is based on an agreed-upon formula with the issuer.

Certain events limit the Plan's ability to transact at contract value with the trustee. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

6. Related Party Transactions

The Company administers the Plan from its office. Certain Plan investments are managed by State Street Bank and Trust Company. State Street Bank and Trust Company is a trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments.

7. Tax Status

The Plan is a prototype non-standardized profit sharing plan sponsored by DATAIR Employee Benefit Systems, Inc., which has received an opinion letter from the Internal Revenue Service dated March 31, 2008, which indicated that the prototype plan document was in accordance with applicable sections of the Internal Revenue Service.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that it is no longer subject to income tax examinations for years prior to 2012.

8. Risk and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

10. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued.
