CARECENTRIX, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

Note 1 Description of Plan

The following description of CareCentrix, Inc. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Effective May 15, 2015, the name of the Plan changed from CareCentrix Retirement Savings Plan to CareCentrix, Inc. Retirement Savings Plan. In addition, the Plan changed trustees and adopted the Fidelity Basic Plan Document, which has received a favorable opinion letter, as disclosed in Note 4.

General

The Plan is a defined contribution plan established to provide certain employees of CareCentrix, Inc. (the “Company”) with retirement benefits in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code (“IRC”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

All employees of the Company, as defined, except for leased employees, those employees under a collective bargaining agreement, nonresident aliens, part-time employees, temporary employees, and non-common law employees, are eligible to participate in the Plan as soon as administratively possible following their date of hire.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 90% of their eligible annual pre-tax compensation, limited to the maximum amounts allowed under the provisions of the IRC (\$18,000 in 2015). Further, participants who are 50 years of age or older as of December 31, 2015, may contribute an additional “catch up” contribution (\$6,000 in 2015). The Plan currently offers various mutual funds and a common collective trust as investment options for participants.

Employer contributions

The Company may make matching contributions on behalf of each participant enrolled in the Plan. For the Plan year ended December 31, 2015, the matching contribution was equal to 50% of every dollar contributed on the first 6% of a participant’s eligible compensation. For the plan year ended December 31, 2015, the Company made matching contributions in the amount of \$1,188,184. The Company may also make a discretionary contribution. There was no discretionary contribution for the year ended December 31, 2015.

Participants’ accounts

Each participant’s account is credited with its respective contribution and its allocation of (a) employer contributions and (b) Plan earnings or losses.

Note 1 **Description of Plan (continued)**

Vesting

Participants' voluntary contributions, rollover contributions, and earnings thereon vest immediately. Participants vest in employer contributions ratably over 5 years, as defined, beginning with the first year of service. In the event of death, disability, or attainment of age 65, participants' accounts become fully vested.

Payment of benefits

Upon termination of employment, retirement, death, or disability, the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum, in accordance with Internal Revenue Service ("IRS") regulations and Plan provisions. Participants may take withdrawals of their after-tax contributions and/or rollover contributions and earnings thereon at any time. Further, withdrawals of pre-tax contributions before leaving the Company are available after attaining the age of 59 ½ or for special "hardship" reasons (as defined). Such withdrawals will only be permitted after the participant has withdrawn all amounts in his or her account attributable to after-tax contributions. Distributions to participants are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Participants may borrow up to 50% of their vested account balance up to a maximum of \$50,000. Participant loans are subject to the approval of the plan administrator and the interest rate is set periodically to be in line with current market rates for similar types of loans. Loan terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, then the term may be extended. Loans are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Forfeitures

The Plan provides that forfeitures, the unvested portion of employer contributions for terminated participants, may serve to reduce future Company contributions or plan expenses. As of December 31, 2015 and 2014, the balance in the forfeiture account was \$133,476 and \$279,524, respectively.

Note 2 **Summary of significant accounting policies**

The following is a summary of significant accounting policies followed by the Plan.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

Note 2 **Summary of significant accounting policies (continued)**

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value at December 31, 2014). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the trustee. See Note 9 for discussions of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the plan year or at the time of purchase during the plan year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fair value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 9).

Refundable contributions due to participants

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 and 2014 contributions to the applicable participants prior to March 15th of the following year.

Administrative expenses

Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

Subsequent events

The Company has evaluated subsequent events through October 14, 2016, which is the date the financial statements were available to be issued.

Change in accounting policy

In May 2015, the Financial Accounting Standards Board ("FASB"), issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value ("NAV") practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Management elected to early adopt the provisions of ASU 2015-07 and ASU 2015-12, Parts I and II. Management has determined that ASU 2015-12, Part III is not applicable to the Plan. Accordingly, the amendment was retrospectively applied resulting in the reclassification of certain comparative amounts to conform to the 2015 financial statement presentation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

Note 3 **Information certified by the Plan's trustee (unaudited)**

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company ("Fidelity"), the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year):

	<u>2015</u>
Mutual Funds	\$ 15,419,293
Common Collective Trust	292,063
Notes Receivable from Participants	627,842

The trustee also certified to the completeness and accuracy of \$1,447,600 of net depreciation in fair value of investments and \$711,311 of interest and dividend income related to the aforementioned investments and notes receivable from participants for the year ended December 31, 2015.

Note 4 **Tax status**

The Plan operates under a prototype plan which has received a favorable opinion letter from the IRS dated March 31, 2014, indicating that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The FASB has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 **Related party transactions**

Certain Plan investments are shares of mutual funds and a common collective trust managed by Fidelity. Fidelity is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

CARECENTRIX, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

Note 6 **Plan termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event that the Plan and the related trust terminate, all accounts will be valued as of the termination date, participants will become 100% vested in their accounts and the account balances will be distributed in full to participants.

Note 7 **Fully benefit-responsive investment contracts**

At December 31, 2014 the Plan held an investment contract that meets the fully benefit-responsive investment contract criteria and is therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. During the year ended December 31, 2015, the investment contract was liquidated and participant funds were transferred to various investments offered by Fidelity.

Note 8 **Risks and uncertainties**

The Plan provides for various investment options in accounts which invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9 **Fair value measurements**

Accounting standards require that financial and non-financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

CARECENTRIX, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

Note 9 **Fair value measurements (continued)**

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CARECENTRIX, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

Note 9 Fair value measurements (continued)

Common collective trust: Value is based on the underlying unit value of the assets held. The assets of the underlying fund are invested primarily in certain investment contracts, asset-backed securities, corporate bonds, and other securities. The fair value of the contracts is determined using the market approach based on market prices of similar contracts. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business matter.

Guaranteed interest account (at December 31, 2014): Valued by the former custodian based on a Market Value Adjustment ("MVA") as defined in the related contract. The MVA formula is based on the standard formula which approximates the change in market value of a bond given a change in the rate environment. The duration estimate used in the calculation is generally 2.5 or 3.0 years.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets which are measured at fair value at December 31, 2015.
