Wilmington College Defined Contribution Retirement Plan

We were engaged to audit the accompanying financial statements of the Wilmington College Defined Contribution Retirement Plan (the "Plan") which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information in Note C, which was certified by Teachers Insurance and Annuity Association - College Retirement Equities Fund ("TIAA-CREF"), as issuer of Plan investments, except for comparing such information with the related information included in the 2015 financial statements. We have been informed by the Plan administrator that TIAA-CREF holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from TIAA-CREF as of and for the year ended December 31, 2015, that the information provided to the Plan administrator by TIAA-CREF is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2015 financial statements.

Wilmington College Defined Contribution Retirement Plan
Notes to Financial Statements
December 31, 2015 and 2014

Note A - Description of Plan

The following description of the Wilmington College Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan covering all eligible employees of Wilmington College (the "College"). Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the College. Students who are employed by the College are generally excluded from participation in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
2. Contributions: Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Upon obtaining 3 years of service, the employee is required to make mandatory employee contributions in the amount of 5% of eligible compensation. Participants may elect to contribute more than the mandatory 5% of eligible compensation. Each year mandatory employee contributions are made the College will make a matching contribution equal to 7% of eligible wages. Such matching contributions totaled \$525,376 during 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and an allocation of the College's contribution(s) and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their own contributions and College contributions plus earnings thereon.
5. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.
6. Payment of Benefits: Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments not exceeding the participant's life expectancy. In-service and hardship withdrawals are also allowed as defined in the Plan agreement.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.
2. New Accounting Pronouncements: In May 2015, the FASB issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC 820. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with retrospective application of Parts II to all periods presented.

Plan management has elected to early adopt ASU 2015-07 and ASU 2015-12 as of December 31, 2015, as it believes it will simplify Plan accounting and its presentation in the financial statements. As such, the presentation of the financial statements and notes herein have been changed to reflect such adoption.

3. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
4. Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

5. Payments of Benefits: Benefits are recorded when paid.
6. Administrative Expenses: Administrative expenses of the Plan are paid by the College or Plan participants, as defined in the Plan agreement.

Notes to Financial Statements (Continued)
December 31, 2015 and 2014

Note B - Summary of Significant Accounting Policies (Continued)

7. Investment Management Fees and Operating Expenses: Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.
8. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditors' Report which represents the date the financial statements were available to be issued.

Note C - Certified Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF has certified to the completeness and accuracy of all investments information reflected on the accompanying Statement of Net Assets Available for Benefits as of December 31, 2015, the Schedule of Assets (Held at End of Year) at December 31, 2015, and the related investment income information reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

Note D - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. Other than as disclosed in Note B, there have been no changes in the methodologies used at December 31, 2015 and 2014.

Fixed annuity contract: Valued at fair value, which equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any.

Notes to Financial Statements (Continued)
December 31, 2015 and 2014

Note D - Fair Value Measurements (Continued)

Variable annuity contracts: All accounts, except the money market account, are valued at net asset value ("NAV") based on the value of the underlying assets held through subaccounts of a separate account of an insurance company. The underlying assets consist primarily of mutual funds, equity securities, fixed income instruments and short-term investments, which are valued based on market quotations or prices obtained from independent pricing sources that may include various pricing methods to value the investments, including matrix pricing. The money market account is valued at amortized cost, which approximates fair value. The investments are redeemable at NAV, however, it is possible that the redemptions rights may be restricted or eliminated in the future. The funds allow for daily redemptions at the stated NAV. There are no unfunded commitments

The variable annuity contracts consist of the following categories:

- Bond Market: Seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital.
- Equity Index: Seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index.
- Global Equities: Seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stock.
- Growth: Seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- Inflation-Linked Bond: Seeks a long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds-fixed income securities whose returns are designed to track a specified inflation index over the life of the bond.
- Money Market: Seeks high current income consistent with maintaining liquidity and preserving capital.
- Social Choice: Seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria.
- Stock: Seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.

Pooled separate account: Valued at the NAV of units held by the Plan at year end. The account is primarily invested in real estate properties that are valued based on third-party appraisals. Due to the nature of the investment, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the pooled separate account and, consequently, the fair value of the Plan's investments. The fund allows for daily redemptions at the stated NAV. There are no unfunded commitments.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2015:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Note D - Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Guaranteed Interest Accounts
Balance, Beginning of Year	\$ 12,687,062

Realized gains	170,047

Purchases	1,279,506
Sales	(1,422,434)
Balance, End of Year	<u>\$ 13,082,107</u>

Gains and losses (realized and unrealized) included in changes in net assets for the year ended December 31, 2015 are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Fixed annuity contract	\$ 13,082,107	Discounted Cash Flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.25%-5.10%

Note E - Investment Contract with Insurance Company

The Plan has fixed annuity contracts with TIAA-CREF. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Wilmington College Defined Contribution Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2015 and 2014

Note E - Investment Contract with Insurance Company (Continued)

For fixed annuity contracts that are not fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed annuity contract. These contracts are included in the financial statements at fair value, as reported to the Plan by TIAA-CREF. The fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents fixed annuity contract values adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the fixed annuity contracts, plus interest at the contractually guaranteed rate, less funds used to pay Plan benefits and TIAA-CREF's administrative expenses.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1% to 3% over the life of the respective contracts. Such interest rates are reviewed on an annual basis for resetting. The fixed annuity contracts do not permit the insurance company to terminate the agreement prior to 30 days written notice.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note F - Related Party Transactions

Certain administrative services are provided by the College at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the College.

Certain Plan investments are shares of mutual funds and a collective trust fund managed by TIAA-CREF. TIAA-CREF is the record keeper of the Plan and, therefore, these transactions qualify as party-in-interest. The Plan paid fees to TIAA-CREF totaling \$144 during the Plan year ended December 31, 2015.

Note G - Income Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b).

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H - Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Wilmington College Defined Contribution Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2015 and 2014

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.
