Plan Description

The following description of the Quality Products, Inc. 401(k) Savings and Protection Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering full-time employees of Quality Products, Inc., "the Employer", who are age 21 or older and have completed six months of service. Certain employees are not covered under the plan document and are therefore are ineligible. Entry into the Plan shall occur on the first day of the quarter subsequent to the fulfillment of the Plan's service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute 100% of pretax or after-tax annual compensation as defined by the Plan, not to exceed the maximum dollar limitation set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan. The Employer may make discretionary matching contributions, which are determined on an annual basis by the Sponsor's management. During 2015 and 2014, the Employer elected to match 100% of employee's contributions up to 3% of compensation. The Employer may also make additional profit sharing contributions at the discretion of the Plan sponsor. There were no profit sharing distributions made to the Plan during 2015 and 2014. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Employer's matching contribution as well as the discretionary profit sharing contribution portion of their accounts, plus actual earnings, is based on continuous years of service according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance. Loan terms range from one to five years, or a longer reasonable period of time if used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the plan recordkeeper through review of interest rates charged for similar types of loans by other lenders. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or termination of employment, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or rollover into a qualified retirement plan. In service distributions may be taken by those participants who are still employed at retirement age or who have reached age 59 1/2.

Forfeitures

At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$35,540 and \$32,161, respectively. Forfeitures are used to reduce future employer contributions or pay Plan expenses. During 2015 and 2014, no forfeitures were used to reduce employer contributions or to pay Plan expenses as permitted by the plan document.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement, under Topic 820 – Disclosure for Investment of Certain Entities that calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share as the practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which that practical expedient is not applied, will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Plan has elected to early adopt ASU 2015-07.

In July 2015, the FASB issued ASU 2015-12, *Amendments to Plan Accounting*, under Topics 960, 962 and 965 (ASU 2015-12). Part I of ASU 2015-12 clarifies that contract value is the only required measurement for fully benefit responsive investment contracts (FBRICs) and clarifies that indirect investments in FBRICs through investment companies should no longer be reflected as FBRICs and therefore, should be reported at fair value. The amendments in Part II of ASU 2015-12 require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes to the financial statements. Part II also eliminates the requirement to disclose the net appreciation (depreciation) in fair value of investments by general type and the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 are not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted and should be applied retrospectively. The Plan has elected early adoption of ASU 2015-12, which had no impact on the statements of net assets available for benefits or statements of changes in net assets available for benefits.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid, interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Fair Value Measurements (continued)

Common

Collective Trust: Valued at the net asset value (NAV) provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

December 31, 2015:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual Funds in the fair value hierarchy	\$ 4,951,971	\$ -	\$ -	\$ 4,951,971

Fair Value Measurements (continued)

December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds in the fair value hierarchy	\$ 4,650,133	\$ -	\$ -	\$ 4,650,133

Total assets at fair value	<u>\$ 4,650,133</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,978,773</u>

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits

Party-in-Interest Transactions

MG Trust Company, LLC, is the custodian and Employee Fiduciary is the recordkeeper of the Plan and therefore fees paid to these parties qualify as parties-in-interest. Additionally, Everhart Financial Group provides investment advice and consulting to the Plan and thus are considered a party-in-interest. Fees paid by the Plan to the above parties for administrative expenses during the years ended December 31, 2015 and 2014, amounted to \$24,256 and \$25,780, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, the participants' accounts will become fully vested.

Tax Status

The Employer adopted a Volume Submitter 401(k) Profit Sharing Plan with CODA which received a favorable opinion letter dated March 31, 2014 from the IRS. The opinion letter stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Tax Status (continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2015 statement of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.
