MEI HOTELS INCORPORATED 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

1. DESCRIPTION OF PLAN

The following description of the MEI Hotels Incorporated 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is sponsored and administered by MEI Hotels Incorporated (the Company) and is governed by the Plan Agreement. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is a defined contribution plan covering generally all full-time employees of the Company. Participants are eligible to participate in the 401(k) and matching contribution portions of the Plan on the first of the month following the completion of three months of service.

Contributions

Participants can elect to make voluntary contributions of pretax annual compensation, as defined in the Plan, up to 100% or the maximum permitted by law. The Company makes matching contributions to the Plan equal to 50% of the participant's contributions not to exceed 3% of the participant's compensation. Participants direct the investment of their contributions into various investment options offered by the Plan and may contribute up to the annual maximum amount pursuant to the applicable section of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year were eligible to contribute additional catch-up contributions. The Company may make discretionary profit sharing contributions.

The Plan adopted Automatic Enrollment Contributions. Under this provision, each eligible employee entering the Plan, unless affirmatively elected otherwise, will have pretax contributions of 3% (Automatic Enrollment Rate) withheld from their compensation.

Participant accounts

Each participant account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their employee pre-tax withholding account. A participant's interest in the Company's matching contributions, along with any earnings on those contributions, are vested by utilizing a six year graded scale, starting at 20% after two years of service and increasing by 20% for every year until 100% vested.

1. DESCRIPTION OF PLAN (Continued)

Payment of benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum or in installments. The Plan complies with applicable sections of the Internal Revenue Code regarding mandatory cash-out distributions.

Forfeited accounts

Forfeitures of non-vested Company contributions are used to reduce employer contributions. Forfeitures amounted to \$3,380 for the year ended December 31, 2015 and \$1,441 was used to reduce employer contributions. The forfeiture balance at December 31, 2015 was \$2,951.

Plan termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to the rules of ERISA. In the event of termination of the Plan, participants will become 100% vested in their accounts.

Notes receivable from participants

Participants may borrow from their account a minimum of \$1,000 and up to a maximum of \$50,000 or 50% of their vested balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at varying rates, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. Loan terms range from one to five years.

Investment options

Upon enrollment in the Plan, a participant may direct employee contributions in one percent increments in any of the available investment options. Participants may change their investment options daily.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Basis of accounting (continued)

As described by Financial Accounting Standards Board (FASB) accounting codification guidance, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for the portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FASB codification guidance, statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

The Plan's shares of registered investment companies are valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end. Investments in money market accounts are stated at fair value, which have been determined based upon the unit value of the trust as reported to the Plan by the trustee. The insurance company group annuity contract, issued by Nationwide Life Insurance Company (Nationwide) is stated at contract value, which approximates fair value. The contract invests in the general assets of Nationwide. Nationwide considers this contract to be benefit-responsive, however, the adjustment to fair value, if any, has been determined to be immaterial.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses

The Plan provides that administrative expenses of the Plan, except fees related to participant loans, are to be paid by the Plan or by the Company, at the option of the Company.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

3. INVESTMENT CONTRACTS

The Plan invests in a short-term investment fund (STIF) contract managed by Nationwide. The fully benefit-responsive contract is valued at contract value which represents contributions plus earnings less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risks of the contract issuer or otherwise. The average yield and crediting interest rates were 0.0% for 2015 and 2014. Interest rates are reviewed on a quarterly basis for resetting.

4. TAX STATUS

The Plan adopted a standardized form of a prototype plan sponsored by Nationwide Life Insurance Co. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan has adopted guidance, as required by the Income Taxes Topic of the FASB Accounting Standards Codification regarding accounting for uncertainty in income taxes. This guidance clarifies the accounting and recognition for income tax positions taken or expected to be taken in the Plan's income tax returns. As of December 31, 2015, the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan records related interest expenses and penalties, if any, as a tax expense, consistent with this guidance. The Plan's open audit periods are for the tax years ended December 31, 2012 through December 31, 2015. In evaluating the Plan's tax position, future taxable income, the reversal of temporary differences, provisions and accruals, tax law interpretation, and tax planning strategies are considered.

6. FAIR VALUE MEASUREMENTS

FASB codification guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB guidance are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds – valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed investment contract – valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different instruments could result in a different fair value measurement at the reporting date.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies and a money market fund managed by Nationwide Life Insurance Co. and/or its affiliates. Nationwide Life Insurance Co. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. SALE OF PARTICIPATING ENTITY

During 2015, the company sold one of its participating properties, the Miramar Lodging LLC. The Company sent out to each employee of the entity a Distribution Election Form for termination of employment. The plan specifies that terminated participants with a balance under \$1,000 will receive a distribution and participants with a balance between \$1,000 and \$5,000 will have their balance rolled over into an IRA if a distribution is not requested.
