Note 1. Plan Description

The following brief description of the Illinois Transport, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Illinois Transport, Inc. and Mark-It Express, Inc. (together the Company) who are age twenty-one or older and have completed 6 months of service. Employees can enter the Plan on the first day of each Plan year and on the date 6 months thereafter coinciding with or immediately following meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). The Company provides for a safe harbor matching contribution of 100 percent of eligible deferrals of the first 3 percent of participant's deferred compensation plus 50 percent of the next 2 percent of participant's deferred compensation. The Company may make an additional safe harbor matching contribution equal to a percentage as determined by the Company's Board of Directors, up to 6 percent of compensation. Additionally, the Plan permits for the Company to make discretionary matching contributions and an annual discretionary profit sharing contribution in an amount to be determined at Plan year-end by the Board of Directors. For the year ended December 31, 2015, the Company made no additional matching or profit sharing contributions to the Plan. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, as well as allocations of the Company's profit sharing contributions, if any, and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately vested in their contributions, Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary match and profit sharing contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service. Participants who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans (4.25 percent (prime rate plus 1 percent) at December 31, 2015). Principal and interest is paid ratably through payroll deductions.

Payments of benefits: On termination of service due to death, disability, or retirement or other reasons, a participant may elect to receive a lump-sum equal to the value of the participant's vested interest in his or her account.

Note 1. Plan Description (Continued)

Forfeited accounts: Forfeited non-vested accounts can be used to pay for Plan expenses or be applied to reduce Company matching contributions. At December 31, 2015 and 2014, the balance in forfeited non-vested accounts was $94 and $82, respectively. No funds were used to offset the Company contribution or pay for plan expenses.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Accounting policies: The Plan follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (the FASB) to ensure consistent reporting of financial condition and results of operations.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Administrative expenses: Investment advisory and portfolio management expenses of the Plan are paid by the Plan as provided in the plan documents. Investment related expenses are included in net appreciation in fair value of investments. Except for distribution fees associates with notes receivable from participants, all administrative expenses of maintaining the Plan are paid by the Company, without reimbursement.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2016, the date the financial statements were available to be issued.

Note 3. Investments Certified or Provided by First Mercantile Trust Company

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certification from First Mercantile Trust Company, the custodian as of December 31, 2015 and 2014 and the year ended December 31, 2015, that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2015	2014
Investments, at fair value	$ 1,648,952	$ 1,349,255
Notes receivable from participants	33,902	50,220
Net appreciation in fair value of investments	698	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common/collective trust funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table summarizes investments measured at fair value based on NAV per shares as of December 31, 2015 and 2014:

Investment	Fair Value 2015	Fair Value 2014	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust funds	$ 1,648,952	$ 1,349,255	-	Daily	None

Note 5. Related-Party Transactions

Certain Plan investments are common/collective trust funds managed by First Mercantile Trust Company. First Mercantile Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to First Mercantile Trust Company for custodian and administrative services amounted to $325 for the year ended December 31, 2015.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter prototype plan sponsored by Datair Employee Benefits Systems, Inc., which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
