NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015**

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Crystal Clear Building Services, Inc. Profit Sharing Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Crystal Clear Building Services, Inc. (the Company) that are employed at the end of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Trustees. The Trustees have overall responsibility for the operation and administration of the Plan. The Trustees determine the appropriateness of the Plan's investments, monitor investment performance and report to the Company.

Contributions

Each year, the Company may make discretionary profit sharing contributions to the Plan. Allocations of the Company's discretionary profit sharing contributions are based on employee groups as defined by the Plan and on participants' compensation for the Plan year. For any plan year that the Plan is determined to be top-heavy, the Company contributes to each participant in the Plan a guaranteed minimum contribution of 5% of participants' compensation. The guaranteed minimum contribution can be reduced by the Company's contribution to the participants' account in the Cash Balance plan maintained by the Company. Contributions are subject to certain IRS limitations. The Company contributed \$181,782 during 2015 to the Plan.

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with allocations of the Company's contributions, and plan earnings or losses as defined by the Plan. Plan earnings are allocated based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in their separate accounts based on years of continuous service in which the participant worked at least 1,000 hours. A participant is 100% vested after three years of credited service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive the value of the vested interest in his or her account in either a lump-sum, or in monthly installment payments. On termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Non-Vested Accounts

Forfeited non-vested accounts are used to reduce future employer contributions or pay administrative expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments

Investments are reported at fair value as reported by Lincoln Financial Group, the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Income Taxes

The Plan recognizes and disclose uncertain tax positions in accordance with GAAP. As of and for the years ended December 31, 2015, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to Income tax examinations for years prior to 2012.

Subsequent Events

Management has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Lincoln Financial Group has certified the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2015, and for the year ended December 31, 2015.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs are to be used when available. Observable inputs are those that market participants would use in pricing the asset based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumption about the inputs market participants would use in pricing the asset developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets as of the reporting date.

Level 2 – Valuations are based on inputs other than quoted prices Included in Level 1 that are observable, either directly or indirectly.

Level 3 – Valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

DECEMBER 31, 2015**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used at December 31, 2015 and 2014.

Pooled Separate Accounts

Investments in pooled separate accounts are valued at the NAV of units of the pooled separate accounts. The NAV as provided by the trustee of the accounts, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's assets measured at fair value.

	<u>Fair Value</u>	<u>Unadjusted Quoted Prices for Identical Assets (Level 1)</u>	<u>Other Significant Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined by a letter dated March 31, 2014, that the Plan as designed was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has not been amended since receiving the opinion letter. Annually, information tax returns are prepared and filed with the Department of Labor.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management services. Certain Plan investments are managed by Lincoln Financial Group. Lincoln Financial Group is the custodian as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
