1. Description of Plan

The following description of the Killion Industries, Inc. and Killion Energy, Inc. 401(k) Plan (the "Plan") provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on April 1, 1985 as a defined contribution plan. Effective July 1, 2013, the Plan was amended to allow the employees of Killion Energy, Inc., a related party of the Plan sponsor, to enroll in the Plan and the Plan changed its name to the Killion Industries, Inc. and Killion Energy, Inc. 401(k) Plan. The Plan was formerly named the Killion Industries, Inc. Savings Plan prior to July 1, 2013. The Plan covers all employees of Killion Industries, Inc. and Killion Energy, Inc., Inc. (the "Company" or "Plan Sponsor") who have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective May 2015, Killion Energy, Inc. was purchased by GCL Solar, LLC. As a result, Plan assets held by Killion Energy employees are to be transferred to the GCI Solar 401(k) Plan. As of the report date, Plan participants who became employees of GCI Solar, LLC still had balances in the Plan.

Contributions

Each year, participants may contribute pre-tax compensation, as defined in the Plan, subject to the annual limitation established by the Internal Revenue Service ("IRS"), as defined in the Plan ($18,000 in 2015). Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants age fifty years or over can make catch-up contributions in addition to the above, up to the maximum amount allowed by the IRS ($6,000 in 2015). During the years ended December 31, 2015 and 2014, the Company contributed 50% and 25%, respectively, of the first 10% of compensation that a participant contributed to the Plan. The Company also has the option to make a discretionary annual contribution. There were no discretionary contributions to the Plan for the years ended December 31, 2015 and 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan. The Plan used $352 of forfeitures to pay administrative expenses during the year ended December 31, 2015. The Plan used $244 of forfeitures to reduce employer contributions during the year ended December 31, 2015. The amount of forfeitures available to pay future administrative expenses or employer matching contributions is $1,080 and $204 at December 31, 2015 and 2014, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

The Plan does not permit participant loans.

Payment of Benefits

Participants are eligible to receive a lump-sum distribution of benefits upon termination of employment, death, disability, retirement or Plan termination. Distributions may also be made for hardship withdrawals, which are authorized by the Plan administrator and conform to the "deemed hardship" standards set forth in Treasury Regulation Section 1.401(k)(d)(2). Such hardship distributions are subject to certain limitations.

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings or losses thereon is based on years of continuous service as follows: 25% vested after one year of service; 50% vested after two years; 75% after three years and 100% after four years of service.

Investment Options

As of December 31, 2015 and 2014, Massachusetts Mutual Life Insurance Company ("Mass Mutual" or "Trustee") under a trust agreement holds the assets of the Plan, including all contributions and earnings thereon. Upon enrollment in the Plan, participants may direct contributions to a variety of investment options.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and changes therein and the disclosure of contingent assets and liabilities. Actual results could materially differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements date. See Note 6 for discussion of fair value measurements.
Mass Mutual Core Bond Portfolio is included in the financial statements at contract value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses (see Note 4).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation

(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2015 and 2014, there were no benefit amounts that participants had elected to withdraw which had not been paid.

Administrative Expenses

The Company sponsors the Plan. Personnel within the Company perform various administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as Plan expenses. Most administrative expenses of the Plan, including record keeping, consulting, investment, legal, and audit fees, are paid by the Company.

Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market fluctuation and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance is effective for fiscal years beginning after December 31, 2015, and requires retrospective presentation. Early adoption of ASU 2015-07 is permitted. Plan management has elected to adopt ASU 2015-07 as of December 31, 2015. The adoption of ASU 2015-07 has no impact on the Plan.

In July 2015, the FASB issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit- responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to

disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III is to be applied prospectively. The Plan adopted this ASU for the 2015 plan year, and the amendments in Part I and II were retrospectively applied to the 2014 plan year. Part III is not applicable to the Plan. The impact of adopting this ASU is reflected in Notes 4 and 6.

Other accounting standards that have been issued or proposed by the FASB or other standard setting bodies are not expected to have a material impact on the Plan's net assets available for benefits, or changes in net assets available for benefits.

3. Party-In Interest

Certain Plan investments are mutual funds and a fully benefit-responsive investment contract managed by Mass Mutual. Mass Mutual is the trustee and recordkeeper of the Plan and, therefore, these transactions qualify as party-in interest transactions as defined by ERISA. Any transactions involving these investments are on the open market at fair value or contract value, as outlined in Note 2. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in interest transactions under ERISA.

4. Fully Benefit-Responsive Investment Contract

Mass Mutual Core Bond Portfolio

As of December 31, 2015 and 2014, the Plan invests in the Mass Mutual Core Bond Portfolio, which is a fully benefit-responsive investment contract. These investments are presented at contract value in the statement of net assets available for benefits. A fully benefit-responsive investment contract is a contract between an insurance company, a bank, a financial institution, or any financially responsible entity and a plan that provides for a stated return on principal invested over a specified period and that permits withdrawals at contract value for benefit payments or transfers to other investment options offered to the participant by the Plan.

Certain events limit the Plan's ability to transact at contract value with the Trustee. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spinoffs of a subsidiary), which would cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes the occurrence of such events, which would also limit the Plan's ability to transact at contract value with Plan participants, is not probable.

5. Income Tax Status

The Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under accounting principles generally accepted in the United States of America are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.
Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total

7. Information Certified by the Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mass Mutual, as the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

(a) Investments, as shown in the Statements of Net Assets Available for Benefits;

(b) Interest income, dividends, and net appreciation (depreciation) in fair value of guaranteed investment contracts and mutual funds, as shown in the Statements of Changes in Net Assets Available for Benefits;

(c) Investment information disclosed in Note 6; and

(d) All information included in the Schedule H, Line 4i - Schedule of Assets (Held at End of year) as of December 31, 2015, as shown in the supplemental schedule.

The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500:

Net assets available for Plan benefits per Form 5500	$ **7,494,657**	$ 7,459,713

The following is a reconciliation of changes in net assets available for Plan benefits per the financial statements to the Form 5500:

Net increase in assets available for benefits per the financial statements	$ 83,983
Less:	
2014 accrual for corrective distributions payable	(15,662)
2015 accrual for contributions receivable	(87,033)
Add:	
2014 accrual for contributions receivable	53,656
Net decrease in assets available for benefits per form 5500	$ 34,944

9. Nonexempt Transactions

As reported in Schedule H, Line 4a - Schedule of Delinquent Participant Contributions, certain participant contributions of Killion Energy, Inc. were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the 2015 and 2014 Plan years. Late remittances amounted to $6,411 and $30,230 for the years ended December 31, 2015 and 2014, respectively. The Company is in the process of calculating the amount of lost earnings on these remittances and will be making the appropriate corrections consistent with the DOL's Voluntary Fiduciary Corrective Program ("VFCP"), Prohibited Transaction Exemption 2002-51 ("PTE 2002-51"), as amended, and Employee Plans Compliance Resolution System. The Company will deposit the lost earnings on the late remittances to the Plan, file the required Form 5330, *Return of Excise Taxes Related to Employee Benefit Plans* with the IRS, and pay the appropriate excise taxes.

10. Corrective Distributions Payable

The Internal Revenue Code and the Plan limit the amount certain highly compensated individuals may contribute, based on amounts contributed by lower compensated individuals. The Plan failed to pass certain non-discrimination tests related to these limitations for the year ended December 31, 2014. The accompanying statements of net assets available for benefits include $15,662 as of December 31, 2014, in corrective distributions payable related to certain Plan participants.

11. Subsequent Events

The date to which events occurring after December 31, 2015, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosures is October 13, 2016 which is the date on which the financial statements were available to be issued.
