Independent Auditor's Report

To the 401(k) Plan Committee and Participants
Impact Confections 401(k) Plan
Janesville, Wisconsin

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Impact Confections 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matter
As discussed in Note 2 to the financial statements, in 2015, the entity adopted new accounting guidance related to disclosures for investments that calculate net asset value per share or its equivalent. Prior year disclosures have been revised to reflect the retrospective application of adopting this change in accounting. Our disclaimer of opinion is not modified with respect to this matter.

Other Matter
The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and, Schedule H - Part IV, Line 4i - Schedule of Assets (Held at Year End) as of December 31, 2015, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of Impact Confections 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Impact Confections, Inc. (the Company or the Plan Sponsor), are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (the IRC). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees become eligible for participation at the age of eighteen and upon completing 30 days of service, as defined by the Plan.

Vesting: Participant contributions plus actual earnings thereon are immediately fully vested and nonforfeitable. Employer contributions vest to participants based upon years of service. Participants are vested in employer contributions based upon the following schedule:

Years of Service	Vesting Percentage
Any service less than 1 year	None
1 year, but less than 2	25%
2 years, but less than 3	50%
3 years, but less than 4	75%
4 years or more	100%

Contributions: Each year, participants may elect to contribute up to 50 percent of pretax compensation subject to certain maximum limitations imposed by the IRC ($18,000 for 2015). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of 50 before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($6,000 for 2015). Participants may also contribute amounts representing distributions from other qualified plans.

The Plan requires matching contributions equal to a percentage of the participant's deferral contributions, as determined by the Company. In 2015, the Company made a matching contribution equal to 50 percent of the participant's deferral contributions, up to 4 percent of the employees' pretax compensation.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Investment options: Participants must direct their contributions to selected investments as made available and determined by the Plan Sponsor. Participants may change their investment options any time throughout the year via internet or direct phone access to the trustee.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or receive annual installments; however, withdrawals of funds from his or her account must begin upon attaining age 70½ . For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Note 1. Description of the Plan (Continued)

Participants with account balances less than $5,000 but greater than or equal to $1,000 will automatically have their balance rolled into an individual retirement account unless they otherwise instruct the Plan Administrator and take a lump-sum distribution or have their balance rolled into another retirement plan of their choice.

Forfeitures: Any accumulated benefits forfeited during a plan year due to participant withdrawal prior to full vesting may be applied first to pay administrative expenses, second to reduce employer contributions and lastly any remaining forfeitures will be reallocated to other participants. Forfeitures of $2,167 were used to pay administrative expenses during the year ended December 31, 2015. At December 31, 2015 and 2014, forfeited non-vested account balances totaled $0.

Notes receivable from participants: Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50 percent of their vested account balance. Participants are limited to two loans outstanding at any given time. Terms on the notes range from 1 – 5 years or up to 30 years if used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate that is commensurate with the rates offered by commercial lending institutions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan’s management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Pooled separate accounts are primarily invested in stocks and mutual funds, which are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain asset management fees are paid by the Plan and allocated to participants' accounts on a quarterly basis.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of net assets. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 5.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment’s strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan’s fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Summary of Significant Accounting Policies (Continued)

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted the amendments in Part II of this Update for the 2015 plan year and this amendment was retrospectively applied to December 31, 2014. Prior year presentation of the statement of changes in net assets available for benefits and disclosures in Notes 4 and 5 have been revised to reflect the retrospective application of this Update. The impact of adopting this amendment is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition or disclosure through October 11, 2016, the date on which the financial statements were available to be issued.

Note 3. Guaranteed Interest Accounts

The Plan entered into guaranteed interest account contracts with the trustee, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), under which the Plan deposits a portion of its annual contributions. Principal maintains the contributions in an unallocated fund to which it adds interest at a fixed rate according to when the contributions were deposited. The rates are guaranteed annually but are subject to change. When changed, the new rate applies to funds deposited from the date of the change. These contracts are non-benefit responsive and are included in the financial statements at fair value. As of December 31, 2015 and 2014, the contract value of the guaranteed interest accounts approximated fair value, therefore no adjustment was required. These contracts pay contract value for a benefit event such as termination, death, disability or retirement. However, this value is subject to a surrender charge when funds are withdrawn prior to maturity for a non-benefit event.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Contract interest rates on guaranteed interest accounts ranged from 0.10 percent to 1.30 percent and from 0.04 percent to 1.63 percent for the years ended December 31, 2015 and 2014, respectively.

Certain events limit the Plan's ability to transact at contract value with the issuers. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion or equity was provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA of 1974. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Note 4. Information Certified and Provided by Principal

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Principal and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that information provided to the Plan Administrator by Principal related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments, at fair value:		
Pooled separate accounts	$ 3,148,811	$ 3,095,158
Guaranteed interest accounts	39,755	38,983
	$ 3,188,566	$ 3,134,141
Notes receivable from participants	$ 179,690	$ 175,311

Principal also certified to the completeness and accuracy of the following investment income information (including investments bought, sold, and held during the year) for the year ended December 31, 2015:

	Interest and Dividends	Net Appreciation in Fair Value of Investments
Pooled separate accounts	$ -	$ (33,985)
Guaranteed interest accounts	1,512	-
	$ 1,512	$ (33,985)

Principal also certified to the completeness and accuracy of interest income on notes receivable from participants of $8,700 for the year ended December 31, 2015.

Note 5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the guidance establishes a fair value hierarchy for valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Accordingly, the fair value of these assets is established using Level 3 inputs.

Pooled separate accounts: Pooled separate accounts (other than Principal U.S. Property) invest in stocks and mutual funds and are primarily valued at the net asset value (NAV) per share based on quoted market values of the underlying investments. The Principal U.S. Property Separate Account invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. The NAV is used as a practical expedient to determine fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	2015			
Description	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ -	$ 39,755	$ 39,755
Investments measured at NAV (a)				3,148,811
Investments at fair value				$ 3,188,566

	2014			
Description	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ -	$ 38,983	$ 38,983
Investments measured at NAV (a)				3,095,158
Investments at fair value				$ 3,134,141

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 5. Fair Value Measurements (Continued)

During the year ended December 31, 2015, the Plan did not make any transfers between Levels 1, 2 or 3.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2015 and 2014:

Investment	Fair Value 2015	Fair Value 2014	Unrestricted Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:					
Balanced/asset allocation (a)	$ 924,462	$ 813,728	None	Daily	None
Fixed income (b)	570,993	565,626	None	Daily	None
International equity (c)	161,022	177,042	None	Daily	None
Large U.S. equity (d)	463,898	526,732	None	Daily	None
Short-term fixed income (e)	472,030	369,697	None	Daily	None
Small/Mid U.S. equity (f)	556,420	640,723	None	Daily	None
Other (g)	-	1,610	None	Daily	None
	$ 3,148,825	$ 3,095,158			

(a) This asset class is generally composed of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) This asset class is generally composed of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(c) This asset class is composed of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the U.S. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) This asset class is generally composed of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(e) This asset class is generally comprised of short-term fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

Note 5. Fair Value Measurements (Continued)

(f) This asset class is generally composed of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(g) Appropriate investments in other styles or asset classes offered through vehicles such as mutual funds, exchange-traded funds (ETFs), commingled trusts, and insurance company separate accounts may be considered for diversification purposes, depending on the specific needs of the Plan and its participants.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Guaranteed Interest Accounts
Balance, beginning of year	$ 38,983
Interest earned	1,512
Purchases	29,008
Issuances and settlements	(29,748)
Balance, end of year	$ 39,755

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

	2015				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed interest accounts	$ 39,755	Market Value Adjustment	Guaranteed Interest Rates	0.10% - 1.30%	0.16%
			Current Rate on December 31, 2015	1.10%	1.10%

Note 5. Fair Value Measurements (Continued)

	2014				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed interest accounts	$ 38,983	Market Value Adjustment	Guaranteed Interest Rates	0.04% - 1.63%	0.85%
			Current Rate on December 31, 2014	0.72%	0.72%

In estimating fair value of the investments in Level 3, the Plan's 401(k) Plan Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 6. Party-In-Interest Transactions

Parties-in-interest are defined by the Department of Labor as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. As such, transactions conducted by Principal qualify as party-in-interest transactions.

Note 7. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their entire account balances and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 8. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter dated March 31, 2014 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Management evaluated the Plan's tax positions in accordance with FASB guidance on accounting for uncertainty in income taxes and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets available for plan benefits per the financial statements	$ 3,340,719	$ 3,276,646
Shares of registered investment companies	13	-
Employer contributions receivable	5	-
Plus current year excess contributions payable	33,326	32,806
Notes receivable from participants	(179,690)	(175,311)
Participant loans	179,690	175,311
Adjustment from contract value to fair value for guaranteed interest accounts	(283)	(59)
Net assets available for plan benefits per the Form 5500	$ 3,373,780	$ 3,309,393

The following is a reconciliation of the net increase in plan assets as reported on the statement of changes in net assets per the financial statements to the Form 5500 for the year ended December 31, 2015:

Net increase in plan assets per the financial statements	$ 64,073
Fair value of shares of registered investment companies	1,104
Interest and dividends	(1,642)
Interest on notes receivable to participants	296
Participant contributions	2,872
Current year excess contributions payable	33,326
Prior year excess contributions payable	(32,806)
Employer contributions	258
Benefit payments	353
Other distributions	(3,476)
Service charges	29
Net increase in plan assets available for plan benefits per the Form 5500	$ 64,387

Note 10. Prohibited Transaction

During 2015, the Plan Sponsor inadvertently failed to deposit approximately $7,526 of participant contributions within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will file the Form 5330 and pay applicable excise tax in 2016. The excise tax payments will be made from the Plan Sponsor's assets and not from assets of the Plan.
