NORTH OHIO HEART CENTER, INC. 401(k) SAVINGS PLAN AND TRUST

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description

The following description of North Ohio Heart Center, Inc. 401(k) Savings Plan and Trust ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Nature of operations

The Plan is a defined contribution plan covering all full-time employees of North Ohio Heart Center, Inc. and North Ohio Research, Ltd. who have met age and service requirements, as defined in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

An eligible employee may elect to participate in a salary deferral agreement with the Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Matching Company contributions are made at the discretion of the Board of Directors of the Company each year. The Company contributes 25% of the first 6% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Board of Directors of the Company, and are invested in a portfolio of investments, as directed by the Company. Contributions are subject to certain limitations.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of the Plan's earnings, and is charged with withdrawals and an allocation of the Plan's losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and payment of benefits

The employee benefit in the participant deferral account shall be 100% vested at all times. Upon death, disability, or normal retirement, the Company's contribution balance becomes fully vested. Upon termination of employment for reasons other than death, disability, or retirement, the Company's contribution balance become 100% vested after six years of credited service, as defined by the Plan agreement.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to maximum equal to the lesser of \$50,000, or 50% of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest at rate. The Plan administrator determines the rate of interest at the time the loan is made, presently prime plus 1%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Forfeited accounts

At December 31, 2015 and 2014, the forfeited non-vested account totaled \$1,947 and \$1,431, respectively. This account may be first used to pay plan expenses, and then reduce employer contributions.

Note 1 - Plan Description (Continued)

Forfeited accounts (continued)

During 2015, the amount used to pay plan expenses was \$6,148. The Plan also used approximately \$16,000 out of the forfeitures account to restore a participant's account balance during the year ended December 31, 2015 as a result of excess forfeitures being deducted from a distribution in the prior year.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accounting records of the Plan are maintained on the accrual basis.

Use of estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances, the amounts reported in the statements of assets available for benefits, and the statement of changes in net assets available for benefits.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Operating expenses

All expenses of maintaining the Plan are paid by the Plan.

Note 5 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 15, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the determination letter, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Note 5 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 7 - Fair Value Measurement

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data, by correlation or other means.

Note 7 - Fair Value Measurement (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs, and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common / collective trusts (CCT): Valued at the net asset value of shares held by the Plan at year-end for the underlying securities held in all of the trust's commingled accounts. While NAV for a CCT is quoted in a market that is not active; classification in the fair value hierarchy is based on the observability of the investments held in the CCT. Accordingly, the Plan has classified the CCT based on the lowest level input that is significant to NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total

Note 8 - Related Party Transactions

Reliance Trust Company is the trustee as defined by the Plan and, therefore, transactions with this party qualify as party-in-interest transactions.

In addition, the Plan has a reimbursement agreement with MassMutual Retirement Services, LLC (MM), which is the custodian of the Plan. MM receives revenue from mutual fund and collective trust fund service providers for services MM provides to the funds. This revenue is used to offset certain amounts owed to MM for its services provided to the Plan. MM pays the Plan a reimbursement on a quarterly basis based on the Plan's average daily assets held in the fund for the quarter multiplied by 0.00625%. These funds are placed in the Plan's ERISA spending account and may be used to pay direct and necessary Plan expenses. At December 31, 2015 and 2014, this account had a balance of \$18,924 and \$11,662, respectively. During the year ended December 31, 2015, the Plan used \$1,410 to pay administrative expenses.

Note 9 - Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 12, 2016.
