Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements

December 31, 2015

1. Description of Plan

The following description of the Schneider Electric Televent USA 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, formed March 4, 2003, is designed as a defined contribution plan under Section 401(a) of the Internal Revenue Code (the Code) with a cash or deferred arrangement under Section 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan was established to provide certain employees of Telvent USA, LLC (the Company) a formal plan to save for retirement.

Effective January 7, 2014, the Telvent Miner & Miner, Inc. 401(k) Plan merged into the Plan.

Effective December 31, 2014, the Schneider Electric Telvent DTN 401(k) Plan merged into the Plan.

Eligibility and Vesting

All Telvent USA and Telvent DTN employees who have attained the age of 18 years are eligible to participate in the Plan immediately upon employment. Effective January 1, 2014, participants are 100% vested at all times. Prior to January 1, 2014, participants vested gradually over time with full vesting after four years of service.

Contributions

Each year, participants may contribute to the Plan 1% to 75% of their eligible gross earnings (as defined by the Plan), subject to limitations set by the Code. Contributions may be made on a pre-tax or Roth after tax basis or a combination thereof. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed by the participant. Participants age 50 or more are eligible to make additional catch-up contributions of up to \$6,000 in 2015. Effective January 1, 2015, the Company matching contributions to participants' accounts, is based on their employee contributions in an

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

amount equal to 100% of the first 3% of their compensation contributed to the Plan and 50% of the next 3%. Prior to January 1, 2015, the Company made matching contributions in the amount of 75% of the first 6% of their compensation contributed to the Plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the company matching contribution, and allocations of the Plan's earnings and is charged with an allocation of plan investment losses and any applicable administrative expenses. Allocations are based on participant contribution earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

Upon termination of employment, participants forfeit their non-vested balances. Forfeitures of unvested account balances of terminated participants are used to offset future employer contributions. Unallocated forfeiture balances as of December 31, 2015 and 2014, totaled \$34,738 and \$0, respectively, and forfeitures of \$20,238 were used to offset 2015 employer contributions.

Distributions

Distributions are available in the event of separation from service for any reason, at age 59½, or in situations involving financial hardship. Terminated employees may choose to leave their vested balance in the Plan if in excess of specified dollar amounts, as defined by the Plan. The form of payment is typically a lump-sum distribution; however, participants may elect to receive partial or installment payments. If the value of an individual participant's account does not exceed \$5,000, distribution from the Plan shall be made to the participant in a single lump sum in lieu of all other forms of distribution.

Loans to Participants

The Plan allows participants to take out loans secured by their vested account balances. Participants may borrow a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans will be charged a reasonable rate of interest, will be for a minimum one-year term, and must be repaid through payroll deductions within five years.

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Company and participants.

Notes Receivable From Participants

Notes receivable from participants represent loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification Topic 820, *Fair Value Measurement*. Disclosure about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management has elected to adopt ASU 2015-07 early.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, or risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. This ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II of this ASU early.

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

3. Investments

Certain information related to investments held and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2015 and 2014, and net depreciation in fair value of investments interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company, the trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan:

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trust fund: Valued at the NAV provided by the administrator of the fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

	December 31, 2015			Total
	Level 1	Level 2	Level 3	
Mutual funds	<u>\$ 81,461,506</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 81,461,506</u>
Common/collective trusts measured at net asset value as a practical expedient:

Balanced ^(b)				32,126,768
				<u>\$ 127,010,780</u>

4. Fair Value Measurements (continued)

	December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 76,414,665	\$ –	\$ –	\$ 76,414,665
Common/collective trusts measured at net asset value as a practical expedient:				
Stable value fixed income ^(a)				13,579,959
Balanced ^(b)				29,218,986
				<u>\$ 119,213,610</u>

^(a) This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Redemptions are permitted by participants on any business day and by the Plan within 12 months of written notice.

^(b) This category seeks to provide capital appreciation and current income consistent with its current asset location. These funds use an asset allocation strategy, designed for investors planning to retire based on the investor's target year. The trusts' asset allocation will become more conservative over time. There are no redemption restrictions on these funds.

5. Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (the IRS) dated May 28, 2014, stating that the form of the Plan is qualified under Section 401 of the Code and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2014-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

5. Tax Status (continued)

recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported on the statements of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants remain 100% vested in their account balances.

8. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31 to the Form 5500:

	<u>2015</u>	<u>2014</u>
Net assets available for benefits per the financial statements	\$ 128,904,562	\$ 120,999,214
Adjustment from contract value to fair value for interest in common/collective trust related to fully benefit-responsive investment contracts	–	416,867
Net assets available for benefits per Form 5500	<u>\$ 128,904,562</u>	<u>\$ 121,416,081</u>

Schneider Electric Telvent USA 401(k) Plan

Notes to Financial Statements (continued)

8. Reconciliation of Plan Financial Statements to Form 5500 (continued)

The following is a reconciliation of the net increase in net assets available for benefits before transfers per the financial statements to the Form 5500:

	<u>2015</u>
Net increase in net assets available for benefits before transfers per the financial statements	\$ 8,124,390
Adjustment from contract value to fair value for interest in common/collective trust related to fully benefit-responsive investment contracts from prior year	<u>(416,867)</u>
Net increase in net assets available for benefits per Form 5500	<u>\$ 7,707,523</u>

As discussed in Note 2, the Plan adopted ASU 2015-12 in the current year. As a result, the stable value common/collective trust fund (Fund) is no longer identified as a fully benefit-responsive investment contract. The financial statements and the Form 5500 both presented the Fund at fair value using the NAV practical expedient as of December 31, 2015. The Form 5500 measured fair value in a different manner as of December 31, 2014.

9. Related-Party Transactions

The Plan holds shares of mutual funds and units of common/collective trust funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2016, the date these financial statements were available to be issued.

Effective January 1, 2016, the plan name changed to Schneider Electric Telvent 401(k) Plan. Also, the Company changed its matching contributions to 100% of the first 4% and 50% of the next 2% up to 6%.
