Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

Note 1: Description of the Plan

The following description of the Pon North America Defined Contribution Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution plan covering all eligible employees of Pon North America, Inc. and adopting controlled group members, as defined in the Plan Document (collectively, the Company) who have at least three months of service. The adopting controlled group members include W&O Supply, Inc.; Equipment Depot Kentucky, Inc.; Valve Automation and Control of San Diego; Pon Material Handling NA, Inc.; A-T Controls, Inc.; AVC-Paltex Corporation; PVI Holdings, Inc.; Setpoint Integrated Solutions, Inc. (formerly known as DMC Carter Chambers, Inc.); Pon North America, Inc.; Equipment Depot Pennsylvania, Inc.; Equipment Depot Ohio, Inc.; Equipment Depot, Ltd.; Equipment Depot of Illinois, Inc.; FOCUS Bicycles USA, Inc. and The Hiller Companies, Inc..

Effective January 1, 2015, the Louisiana Valve Source, LLC 401k Plan was merged in the Plan and as a result assets amounting to \$3,429,152 were transferred into the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants automatically have 3 percent of their annual compensation contributed as pretax contribution each payroll period, unless they elect not to contribute or to contribute an alternate amount. The Plan also allows Roth elective deferrals, wherein participants can designate a portion of their elective deferral contributions as after-tax Roth elective deferral contributions. In addition, participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan. The Company does not match employee catch-up contributions. Additional discretionary contributions may be allocated to participants active on the last day of the plan year and with at least 1,000 hours of service during the previous 12 months. During 2015, none of the adopting controlled group members elected to contribute discretionary contributions, on behalf of their participants, to the Plan. Contributions are subject to certain limitations.

Plan fees

The Company has elected to adopt a simpler, more transparent fee structure for their employees. Beginning November 2, 2015, all participants will pay the same annual fee of \$81 for administrative plan expenses, regardless of individual investment elections or account balances. This fee will be

Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

deducted from participants' accounts on a quarterly basis, which will be shown clearly on each quarterly statement.

Participant Accounts

Each participant account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon separation of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

The non-vested balance in a participant's account is forfeited upon termination of service. Forfeitures may be used to pay Plan expenses and/or to reduce future Company contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$282,533 and \$165,000, respectively. During 2015, Company contributions were reduced by \$128,858 from forfeited non-vested accounts.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year, and expenses related to the Plan's investment portfolio.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and Plan management deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits paid directly to participants are recorded when paid.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2015, and through October 13, 2016, which is the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). Impacting reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient, the amendments in ASU 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy for which fair value is measured using the NAV per share practical expedient under Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (ASC 820). Instead, an entity would be required to include those investments in the disclosure so that the total fair value of investment amount is consistent with the fair value investment balance on the Statements of Net Assets Available for Benefits. For the Plan, the amendments in ASU 2015-07 are effective on a retrospective basis for fiscal years starting after

Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

December 15, 2015, with early adoption permitted. Plan management has elected to early adopt ASU 2015-07. The adoption did not have an impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. For indirect investments in fully benefit-responsive investment contracts through collective investment trusts, NAV per share should be calculated in a manner consistent with the measurement principles of ASC 946, *Financial Services — Investment Companies* (ASC 946). As required by ASC 946, the NAV is calculated by the fund is based on the net assets which includes fully benefit-responsive contracts at contract value. This NAV represents the Plan's fair value. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III is to be applied prospectively. Part III is not applicable to the Plan. Plan management has elected to early adopt Parts I and II as of and for the year ended December 31, 2015, and has applied the provisions retrospectively. See Note 3 for discussion of the impact of the adoption of ASU 2015-12 to the Plan. In addition, Plan management has eliminated the historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Furthermore, Plan management also simplified the level of disaggregation of investments in the fair value hierarchy table.

Note 3: Investments and Investment Income

Information related to investments and related investment income as of December 31, 2015 and 2014 and for the year ended December 31, 2015 were certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Custodian), as permitted by 29 CFR 2520.103-8 of the Department of Labor rules under ERISA.

Stable Value Fund

During 2015, the Plan held an interest in the Principal Stable Value Fund Z Class (SVF). The Fund primarily consists of a diversified portfolio of Stable Value Investment Contracts (Investment Contracts) issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Plan management has determined that this fund does not meet the criteria for a fully benefit responsive investment contract and the contract value represents the fair value. The adoption of ASU 2015-12 has resulted in the reclassification of \$124,536 related to the adjustment from fair value to

Pon North America Inc. Defined Contribution Plan
Notes to Financial Statements
December 31, 2015 and 2014

contract value for investment contracts within its Statement of Net Assets Available for Benefits as of December 31, 2014. Indirect investments in contracts are included in the fair value disclosure.

Note 4: Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at fair value of the underlying investments in the separate accounts at year end.

Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	2015	2014
Level 1:		
Mutual funds:	\$ 68,791,790	\$ 99,378,180
Level 2:		
Pooled separate accounts	49,375,283	12,472,794
	118,167,073	111,850,974
Investments measured at NAV:		
Stable value fund	12,124,397	11,718,758
Total Investments, at fair value	\$ 130,291,470	\$ 123,569,732

Note 5: Party-In-Interest Transactions

Certain plan investments are managed by Principal Trust Company, which is the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the statement of net assets available for benefits.

Note 7: Plan Tax Status

Effective October 1, 2012, the Plan adopted a non-standardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. The Plan was originally effective January 1, 2001. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Pon North America Inc. Defined Contribution Plan

Notes to Financial Statements

December 31, 2015 and 2014

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8: Reconciliation of Financial Statements to Form 5500
