SYSTEMAX, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of Plan

The following description of the Systemax, Inc. (the "Plan") and its domestic subsidiaries (collectively the "Company") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established on January 1, 1987 and is a defined contribution 401(k) plan for the exclusive benefit of all full-time employees who meet minimum age and service requirements. The Plan was amended effective 11/10/2015 to adopt certain provisions of the American Taxpayer Relief Act of 2012 ("ATRA"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective February 2015 a new subsidiary began contributing to the Plan. In April 2015 $4,280,214 was transferred from the former Plan of the new subsidiary into the Systemax, Inc. 401(k) Plan and shows as a transfer of assets on the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Contributions

Participants must have more than one month of service with the Company, be at least 21 years old and may contribute a percentage of their annual compensation through either deferral or Roth not to exceed 60% of compensation, subject to the maximum contribution allowable under the Internal Revenue Code. In accordance with the amended plan, the Company makes matching contributions equal to 25% of the amount of a participant's salary reduction contribution up to 6% of compensation. The Company made matching contributions of $901,051 for the year ended December 31, 2015. The Company can also make a discretionary profit sharing contribution, the amount of which is determined by management. No discretionary profit sharing contribution was authorized for the year ended December 31, 2015. A participant must complete 1,000 hours of service and be employed by the Company as at the last day of the plan year to be eligible for the discretionary profit sharing contribution. Employer's matching contributions are allocated to each participant based on the amount of his salary reduction contribution to the Plan and discretionary profit sharing contributions are allocated as a percentage of each eligible active participant's compensation plus a percentage of each eligible active participant's compensation in excess of the Social Security taxable wage base for the plan year ("integration level"). Excess deferral contributions made by participants in 2015 amounted to $95,509. This amount was refunded on March 14, 2016 in order to satisfy the relevant nondiscrimination provisions of the Plan and is included in the statement of net assets available for benefits as excess contribution payable at December 31, 2015 and separately stated on the statement of changes in net assets available for benefits for the year ended December 31, 2015. Similar excess deferral contributions made by participants in 2014 totaled $92,533 and were refunded in March 2015.

NOTE A - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and earnings and allocations of the Company's contribution. Forfeited balances of terminated participants' nonvested accounts are used to reduce Company contributions, which are allocated as discussed above. For the year ended December 31, 2015, $414,312 of non-vested forfeited benefits were used to reduce Company contributions to members' accounts as defined above.

Vesting

Participants are immediately vested in their contributions and the earnings thereon. The Company's discretionary and matching contributions, plus the earnings thereon, vest according to the schedule below. However, upon the participant's death, disability or attainment of age 65, all amounts are immediately vested.

Years of Vesting Service	Vesting Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Participant Loans

The Plan allows participants to borrow from their account a minimum of $1,000 and a maximum of up to 50% of the vested value of their account balance. However, outstanding loans under the Plan may not exceed $50,000 per participant. Loans, which are evidenced by a promissory note, bear interest at the prime rate plus 1% which is fixed at the date of the loan. Repayment is required in level payments over a period not to exceed five years, unless the loan qualifies as a home loan in which case the repayment period is not to exceed ten years. Participant loans are carried at their unpaid principal balance plus any accrued but unpaid interest.

Investment Options

All contributions to the Plan of amounts deferred by a participant and the Company's profit sharing and matching contributions are participant directed.

Withdrawals

Withdrawals of all vested amounts may be made after a participant attains 59 ½ years of age or if the withdrawal is for reason of hardship (as defined).

NOTE A - Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant, or the participant's beneficiary, if due to death, is to receive the vested value of their account in either a lump sum, if the account balance is less than $5,000 or, at the participant's discretion, an annuity contract or lump sum, if the account balance is greater than $5,000.

NOTE B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Changes in Accounting Principles

In July 2015, FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the FASB Emerging Issues Task Force).

Part III is not applicable to the Plan. Part I of this ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset.

The amendments in FASB ASU No. 2015-12 are effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively and early adoption is permitted. The Plan's management has elected to early adopt Part I and II and the adoption is reflected retrospectively in these financial statements.

NOTE B - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles may require the plan administrator to make certain estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end and are based on quoted market values. See Note C for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans are carried at their unpaid principal balance plus any accrued but unpaid interest. Interest rates on outstanding loans ranged from 4.25% to 9.2% during 2015. As of December 31, 2015, the due dates on the outstanding loans range from one month to eight years. Delinquent participant loans are reclassified as distributions upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

NOTE B - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has considered subsequent events occurring through October 14, 2016, the date the financial statements were available for issuance, in evaluating its estimates and in the preparation of its financial statements.

NOTE C - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

The Financial Accounting Standards Board standard on "*Fair Value Measurements"* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 is observable information for similar items in active or inactive markets, and Level 3 inputs are unobservable inputs to be used in situations where markets don't exist or are illiquid. Level 3 have the lowest priority.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and considered as Level 1 investments.

The following table summarizes the Plan's investments at fair value as of December 31, 2015 and 2014:

December 31, 2015	**Fair Value Total**	**Level 1**
Mutual Funds	**$64,237,465**	**$64,237,465**
December 31, 2014		
Mutual Funds	**$58,214,714**	**$58,214,714**

NOTE D - Investment In Fidelity Managed Income Portfolio

The Plan has a fully benefit-responsive investment contract with Fidelity Management Trust Company ("FMTC") who established a separate fund known as the Managed Income Portfolio (the "Portfolio"). The Portfolio is a commingled pool, dedicated exclusively to the active management of the assets of employee benefit plans and totaled $1,961,331 at December 31, 2015 and $1,958,576 at December 31, 2014. The contract is included in the financial statements at contract value as reported to the Plan by FMTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The Portfolio seeks the preservation of capital, as well as to provide a competitive level of income over time consistent with the preservation of capital. The Portfolio seeks to maintain a stable net asset value of $1 per share, but it does not guarantee the ability to do so. The yield of the Portfolio will fluctuate.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by FMTC, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

NOTE D - Investment In Fidelity Managed Income Portfolio (Continued)

The investment contract itself does not have a maturity date. FMTC may terminate the Portfolio as of any valuation date, without advance notice, by withdrawal from the Portfolio and distribution of the units from the Portfolio. Upon termination, FMTC shall distribute the units from the Portfolio to the investment option selected by the Plan Fiduciary, or, in the absence of any such direction, to a short-term fund.

NOTE G - Related Party and Party-In-Interest Transactions

Certain plan investments are managed by an affiliate of Fidelity Management Trust Company, the Plan's custodian. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. The fair value of such investments aggregated $56,311,509 and $49,655,311 as of December 31, 2015 and 2014, respectively. The contract value of such investments totaled $1,961,331 and $1,958,576 as of December 31, 2015 and 2014, respectively. Fees paid by the Plan for investment management services are netted against net appreciation in fair value of investments. Based on information provided by the custodian, these annualized fees ranged from approximately .25% to 1.00 % of investments during the year ended December 31, 2015.

NOTE H Termination of Plan

In the event of the termination of the Plan, after payment of administrative expenses, if any, the trust fund shall be used for the exclusive benefit of members and their beneficiaries and for no other purpose. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE I Tax Status

The Internal Revenue Service has issued a determination letter stating that the prototype Plan from which the current Plan was derived meets the requirements of Section 401(a) of the Internal Revenue Service Code ("IRC") qualifying for tax-exempt status. Therefore, a specific determination letter for the Plan has not been applied for or obtained. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

NOTE J - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
