KBA NORTH AMERICA, INC., SHEETFED DIVISION 401(K) & PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. PLAN DESCRIPTION

The following brief description of KBA North America, Inc., Sheetfed Division 401(K) & Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution deferred compensation 401(k) plan formed on January 1, 1990, and amended and restated December 1, 2012. The Plan covers all employees who have completed three months or more of service and have attained 18 years of age, except intercompany transferee employees from the parent company in Germany, Koenig & Bauer AG, and nonresident alien employees as defined in the Plan of KBA North America, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendments

There were no plan amendments during the years ended December 31, 2015 and 2014.

Contributions

Participants may make contributions of up to 50% of pre-tax annual compensation, as defined in the Plan. Participants who are at least age 50 by the end of the plan year may make an additional catch-up contribution. Contributions are subject to limitation requirements by the Internal Revenue Code (IRC). Employees are authorized to make rollover contributions, limited by requirements of the IRC.

Due to economic conditions, the employer match was eliminated effective February 21, 2009, and subsequently replaced with an employer discretionary nonelective contribution. The discretionary nonelective contribution amount may be contributed at the option of the Company's CEO and CFO. The nonelective contribution is allocated, or divided, among eligible participants as determined by the Plan. Participants who are not employed on the last day of the year are not eligible for an allocation of the Company's nonelective contributions for such year, except upon retirement, disability, or death. The Company’s nonelective contributions were $469,372 and $295,009 in 2015 and 2014, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's profit sharing contribution and Plan earnings. Allocations of

Plan earnings are based on a participant's eligible compensation relative to total eligible compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's account. Each participant determines the investment strategy of his or her account as provided in the Plan.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions and Company matching contributions, plus actual earnings thereon. Vesting in employer non-elective profit sharing contribution is based on years of service as follows:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participants automatically become fully vested upon disability, death, or normal retirement while under the employment of the Company.

Notes Receivable from Participants

Participants are permitted two outstanding loans. Loans are treated as an investment of each participant's account, rather than as an investment of the entire trust. As a result, each payment of interest is made to the account of the participant who receives the loan. Interest is charged at the current Wall Street Journal prime rate plus 1 %, as defined by the Plan. Participants may borrow from a minimum of $500, up to 50% of their vested account balance, provided the loan does not exceed $50,000. Loans are collateralized by the participant's account. The interest rate is 4.25% for loans outstanding at December 31, 2015. The loan terms range from one to five years, or within a reasonable amount of time which could extend beyond five years, if the purpose of the loan is to acquire a primary residence.

Payment of Benefits

Benefits are distributed under the Plan based on normal retirement date (age 65), disability, death, hardship, or termination of employment of the participant. A participant may elect to receive a lump-sum distribution equal to the value of his or her account or may elect to receive installments for a specified term.

Forfeited Accounts

Under the Plan, forfeitures of participants' nonvested accounts are used to reduce any employer's contributions to the Plan. The amounts $10,707 and $5,879 were forfeited in 2015 and 2014, respectively. No forfeitures were used to reduce employer's contributions in 2015 or 2014. Forfeitures available to reduce future employer contributions were $31,218 and $20,286 at December 31, 2015 and 2014, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant notes receivable are valued at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator, based upon the terms of the plan document, deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Plan administrative costs

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and investment related expenses are charged directly to the participant's account and are included in administrative expenses.

NOTE 3. INFORMATION CERTIFIED AND PROVIDED BY STATE STREET BANK AND TRUST COMPANY

For the years ended December 31, 2015 and 2014, the investment assets of the Plan were maintained under a trust agreement with the trustee, State Street Bank and Trust Company. The trustee invested the Plan assets through its investment advisors and distributed the monies in accordance with the trust agreement. The December 31, 2015 and 2014 Statement of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

State Street Bank and Trust Company has certified to the completeness and accuracy of the total investments of $7,635,584 and $7,116,659 as of December 31, 2015 and 2014, respectively, and related net investment income of $16,440 for the year ended December 31, 2015.

NOTE 4. INVESTMENTS

During the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $385,961 as follows:

(Depreciation)/Appreciation of Investments at Fair Value as Determined by Quoted Market Price:		
Mutual funds	$	(391,838)
Common/collective trusts		5,877
Net Change in Fair Value	$	(385,961)

NOTE 4. INVESTMENTS (CONTINUED)

The Plan maintains the following investments representing 5% or more of net assets available for benefits at December 31, 2015 and 2014:

	December 31,	
	2015	2014
JP Morgan Core Bond Fund - A	$ 841,461	$ 769,255

Total Investments 5% or Greater	$ 6,573,118	$ 6,590,515
Total Investments Less than 5% Each	$ 1,062,466	$ 526,144

* Investment represents less than 5% of Net Assets Available for Benefits in the respective year.

The Plan invests in stable value collective funds through the Invesco Stable Asset Trust ("ISAT"). ISAT is a collective trust established by Invesco National Trust Company, a national trust bank organized and existing under the laws of the United States. This collective trust was established for purposes of collectively investing and reinvesting the assets of eligible pension and profit sharing trusts and other eligible entities. ISAT primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

The Plan reports its investment in the ISAT at fair value. However, since the ISAT collective funds are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive stable value collective funds because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the ISAT, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Statements of Net Assets Available for Benefits, as of December 31, 2015 and 2014, present the fair value of the investment in the ISAT. Additionally, the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 present the adjustment of the investment in the ISAT from fair value to contract value relating to stable value collective funds.

NOTE 4. INVESTMENTS (CONTINUED)

The fair value of the Plan's investment in the Invesco Trust at December 31, 2015 and 2014 was $854,596 and $706,173, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are typically reviewed and reset on a monthly or quarterly basis according to each contract.

Following are certain details related to the stable value collective funds held by the ISAT as of December 31, 2015 and 2014:

Duration and Yields	2015	2014
Average portfolio duration	2.97 yrs	2.80 yrs
Average yield based on market value	1.87%	1.45%
Average yield based on crediting rate	1.66%	1.57%

NOTE 5. FAIR VALUE MEASUREMENTS

Current authoritative guidance established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under current authoritative guidance are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in active markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common/collective trust: Reported at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments.

Mutual funds: Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value
As of December 31, 2015

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,780,988	$ -	$ -	$ 6,780,988
Interest bearing cash	-	-	-	-
Common and collective trust	-	854,596	-	854,596
Total Assets at Fair Value	$ 6,780,988	$ 854,596	$ -	$ 7,635,584

Assets at Fair Value
As of December 31, 2014

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,410,486	$ -	$ -	$ 6,410,486
Interest bearing cash	-	-	-	$ -
Common and collective trust	-	706,173	-	$ 706,173
Total Assets at Fair Value	$ 6,410,486	$ 706,173	$ -	$ 7,116,659

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2015 are reported in net depreciation in fair value of investments.

NOTE 6. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain plan investments are share/units of separate accounts managed by an affiliate of the State Street Bank and Trust Company. This institution serves as record keeper and custodian of the Plan, and, therefore, these investments qualify as related transactions. Morgan Stanley, the investment advisor for the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such in the supplemental Schedule of Assets (Held at End of Year). Fees paid by the Plan for the investment management services amounted to $6,190 for the year ended December 31, 2015.

NOTE 6. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS (CONTINUED)

Chapman, Hext & Company, P.C. provides audit services to the Plan. These services qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

The Plan allows for participant loans. These loans qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision of ERISA.

In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8. TAX STATUS

The Plan has adopted a prototype plan, which received a favorable determination letter from the Internal Revenue Service on July 16, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 9. PARTICIPANTS WITH DEFERRED VESTED BENEFITS

There were 31 and 29 terminated participants with vested benefits of $1,135,479 and $1,417,144 as of December 31, 2015, and 2014, respectively.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
