## 1. Description of Plan

The following description of Argus of Colorado 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan, which became effective April 1, 2003 is a defined contribution plan covering all employees of Argus of Colorado, Argus Health Network LLC, Argus Home Care Inc., Ark Valley Home & Health Care and Tartan Healthcare Management (collectively referred to as "the Company") who have one year of service and are age twenty-one or older. The Plan, which was restated on September 1, 2015, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

### Contributions

Each year, participants may contribute a discretionary amount per pay period equal to at least 1%, but no more than 100% of annual compensation, as defined in the Plan. Deferral contributions shall not exceed certain limits as set forth by the Internal Revenue Code ($18,000 for 2015 and $17,500 for 2014). The Internal Revenue Service adjusts this limitation each year for cost of living increases. Participants may change their contribution percentage throughout the year and may cease making contributions at any time. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants contribute pre-tax elective deferral contributions into the Plan which are 100% vested when contributed.

The Company may contribute discretionary amounts as a match of participant elective contributions for the Plan year. The amount of the match will equal such an amount as the employer deems appropriate except that a participant's elective contributions in excess of a percentage of compensation for the payroll period as determined by the Company shall not be taken into account. The Company did not make matching contributions for the years ended December 31, 2015 and 2014.

Rollover contributions transferred from other qualified retirement plans or from Individual Retirement Accounts are accepted as permitted by the Plan.

### Participant accounts

Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution, and, (b) Plan earnings. In addition, participant accounts are charged with an allocation of administrative expenses. Allocations are based on account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## 1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 25% vested after one year of service, and vest 25% per year thereafter, until becoming fully vested after 4 years of service. Participants will be 100% vested upon permanent disability or death.

Forfeitures

Pursuant to the Plan, forfeitures from non-vested participants shall be utilized to offset expenses and employer contributions. Forfeitures used to offset expenses and employer contributions totaled $1,933 and $0 for the years ended December 31, 2015 and 2014, respectively. Total amount of non-vested assets forfeited in 2015 and 2014 were approximately $0 and $2,800, respectively. Total amount of forfeitures available for use for the years ended December 31, 2015 and 2014 are approximately $8,000 and $10,000, respectively.

Notes receivable from participants

The Plan allows for loans to be taken against the vested benefits of a participant's account. The maximum term of the loan is five years unless the loan is for the purchase of a primary residence, for which the term is a maximum of ten years. A participant may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 minus the difference of the largest unpaid loan balance during the last twelve months and the unpaid loan balance outstanding the day the loan is made. The loans are secured by the balance in the participants account. The interest rate charged for loans are determined by the Plan's third party administrator and rates are similar to commercial lending rates. Principal and interest is paid ratably through payroll deductions.

As of December 31, 2015 and 2014, there were ten and thirteen outstanding participant loans maturing in five years or less, with total outstanding principal balances of $44,459 and $61,260, respectively.

Payment of benefits

In the event of termination of services, retirement, disability or death, a participant will receive their accumulated contributions made to the plan, the vested portion of the accumulated contributions made by the Company and the investment earnings that have accumulated on those contributions while they were in the plan. Benefits can be rolled into another qualified plan, received in a lump-sum or paid in installments over a specific period based on age at retirement. Account balances less than $1,000 at termination will be rolled to another qualified plan or paid in a lump sum. Benefits are recorded when paid

## 2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are held in individual mutual funds managed by State Farm Insurance Company and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold and held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Payment of benefits

Benefits are recorded when paid.

## 4. Fair Value Measurements

The Plan has adopted Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 820, *Fair Value Measurements and Disclosures*. FASB ASC Topic 820 establishes a single authoritative definition of fair value and sets a hierarchy for measuring fair value. The hierarchy for measuring fair value prioritizes the inputs to valuation techniques used to measure fair value and gives the highest priority to unadjusted quoted prices for securities traded in active markets (level 1) and the lowest priority to unobservable inputs (level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The hierarchies for measuring fair value under FASB ASC Topic 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## 4. Fair Value Measurements (continued)

As required by FASB ASC Topic 820, the Plan's portfolio investments as of December 31, 2015 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

| Description | Level 1 | Level 2 | Level 3 | Totals |
|---|---|---|---|---|
| Mutual funds | $ 1,262,485 | $ - | $ - | $ 1,262,485 |

As required by FASB ASC 820, the Plan's portfolio investments as of December 31, 2014 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

| Description | Level 1 | Level 2 | Level 3 | Totals |
|---|---|---|---|---|
| Mutual funds | $ 1,280,976 | $ - | $ - | $ 1,280,976 |

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2015 and 2014.

*Mutual funds* – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are actively traded.

## 5. Tax Status

Compliance

The Internal Revenue Service has determined and informed Acensus, Inc., the Plan's custodian, by a letter dated March 31, 2008, that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code.

Employee contributions to the Plan include pre-tax earnings, as permitted by section 401(k) of the Internal Revenue Code, and are subject to federal income taxes when distributed to participants. Earnings from the Plan's investments are not taxable to the participants until partial or complete distribution of such earnings is made. Therefore, no provision for income taxes has been included in the Plan's financial statements.

## 5. Tax Status (continued)

Uncertain tax positions

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

## 6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2015 and 2014 and the related Form 5500:

| | 2015 | 2014 |
|---|---|---|
| Net assets available for benefits per Form 5500 | $ 1,312,784 | $ 1,382,116 |
| Adjustment to employees' contributions receivable | 13,044 | 10,258 |
| Net assets available for benefits per the financial statements | $ 1,325,828 | $ 1,392,374 |

## 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total accounts.

## 8. Information Prepared and Certified by Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest dividends, interest income on notes receivable from participants, administrative expenses, benefits paid to participants and other expenses for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Acensus Trust Company, the custodian of the Plan.

## 9. Risks and Uncertainties

The Plan is required by FASB ASC Topic 825, *Financial Instruments,* to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2015 and 2014, the financial instruments that potentially subject the Plan to a concentration of credit risk consist principally of investments.

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility risk. Due to the level of risk associated with investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such change could materially affect participants' account balances and amount presented in the statements of net assets available for benefits.

## 10. Party-In-Interest and Related Party Transactions

Certain Plan investments are shares of mutual funds managed by State Farm Insurance Company, the asset custodian of the Plan as of December 31, 2015 and 2014. These transactions qualify as exempt party-in-interest transactions.

## 11. Prohibited Transactions - Participant Contributions

During the Plan years ended December 31, 2015 and 2014, the Company was delinquent in remitting to the Custodian certain employee contributions totaling $78,914 and $95,335, respectively, within the time period set forth in the Department of Labor's (DOL) plan asset regulations. Upon full correction, participants will be credited with the amount of investment gain that would have been earned had the participant contributions been remitted on a timely basis.

## 12. Subsequent Events

Subsequent events have been evaluated by management as of the date of these financial statements. This date represents the date the financial statements were available to be issued.
