(1) Description of plan

The following description of the Island Hospitality, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Island Hospitality, Inc. (the "Company") and affiliated adopting employers for the benefit of their full-time non-union and non highly compensated employees who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan merger - Effective December 31, 2014, Island Hospitality Management III, Inc. 401(k) Plan (the "Affiliate Plan"), a defined contribution plan sponsored by a related party under common ownership of the Company was merged into the Plan. On that date, the control of all assets under the Affiliate Plan was transferred to the Plan. Net assets of the Affiliate Plan at December 31, 2014 consisted of the following:

Investments at fair value	$	951,174
Receivables:		
Employer contributions		5,421
Participants' contributions		11,919
Notes receivable from participants		9,588
	$	978,102

Accordingly, the Plan included the assets of the Affiliate Plan on the statement of net assets available for benefits at December 31, 2014 and recorded transfers in on the statement of changes in net assets available for benefits for the year then ended.

Plan amendment and subsequent event - Effective January 1, 2016, the Plan was amended and restated. The following are the material changes to the Plan document:

- The Plan name changed to Island Hospitality Management, LLC 401(k) Safe Harbor Plan.
- Adding employer safe harbor matching contribution equal to 100% up the first 3%, plus 50% of the next 2% of each participant's eligible compensation, as defined in the Plan document.
- Participants become immediately vested in the Company's safe harbor contribution.

Contributions - Participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

(1) Description of plan (continued)

Contributions (continued)

The Company may make discretionary matching contributions based on a percentage of a participant's compensation as defined in the Plan. The Company has elected to contribute 50% of the first 6% of base compensation that a participant contributed to the Plan for the years ended December 31, 2015 and 2014. During the years ended December 31, 2015 and 2014, the Company made discretionary matching contributions, net of forfeitures, totaling $697,890 and $301,924, respectively. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, various pooled separate accounts, a common collective trust, and various guaranteed interest accounts as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes generally must be repaid within five years unless used for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

(2) Summary of significant accounting policies

Payment of benefits - On termination of service due to death, disability, early retirement upon achievement of age 55 and 6 years of service, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments as defined in the Plan. For termination of service due to distributions qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - At December 31, 2015 and 2014, forfeited non-vested accounts totaled $2,100 and $0, respectively. Forfeitures may be used to offset employer matching contributions, reallocated to participants, or reduce plan administrative expenses. During the years ended December 31, 2015 and 2014, employer contributions were reduced by $11,126 and $14,315, respectively from forfeited non-vested accounts. During the years ended December 31, 2015 and 2014, forfeited non-vested accounts were used to pay $22,937 and $850, respectively, of plan administrative expenses.

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates an assumptions that affect reported amounts of net assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncements - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "*Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*." The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification ("ASC") 820 *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

(2) Summary of significant accounting policies (continued)

New accounting pronouncements (continued) -

In July 2015, the FASB issued ASU 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part Ill) Measurement Date Practical Expedient.*" Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of plan. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan's management has elected to early adopt ASU 2015-12 Parts I and II. The statements of changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance. Part III is not applicable to this Plan.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions from mutual fund investments are reported as a component of interest and dividends.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when occurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit is recorded.

(2) Summary of significant accounting policies (continued)

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(3) Information prepared and certified by the custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (collectively "Principal"), the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

(4) Fair value measurements (continued)

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the NAV of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest accounts are not considered benefit-responsive and are valued at estimated fair value as determined by Principal. The crediting interest rates ranged from 0.35% to 1.12% and 0.35% to 1.53% for the years ended December 31, 2015 and 2014, respectively. For the years ended December 31, 2015 and 2014, the average net return for the guaranteed interest accounts was 0.75%. At December 31, 2015, maturities ranged from December 31, 2015 through December 31, 2019. At December 31, 2014, maturities ranged from December 31, 2014 through December 31, 2018.

(4) Fair value measurements (continued)

Common/collective trust funds: A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Investments at Fair Value as of December 31, 2015

(4) Fair value measurements (continued)

Investments Measured Using the Net Asset value per Share Practical Expedient

The following tables summarize investments for which fair value is based on NAV per share as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable to the Plan.

Investments	Fair Value 12/31/2015	Fair Value 12/31/2014	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value common collective trust	$ 572,554	$ 526,178	**	**	**
Pooled separate accounts	7,750,926	5,885,826	*	*	*
Total	$ 8,323,480	$ 6,412,004			

* The pooled separate accounts are redeemed on a daily basis and do not have any redemption restrictions. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

** Unitholders may redeem units, but the units may not otherwise be transferred without the consent of the Stable Value Fund's trustee, Union Bond and Trust Co. Withdrawals from the Fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the trustee's approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, require a 12 months advance written notice. Included in this advance written notice requirement are full or partial withdrawals of assets invested in the Fund resulting from plan sponsor directed actions. Additionally, there are no unfunded commitments.

(5) Related party transactions and party-in-interest transactions

Certain plan investments in pooled separate accounts and the guaranteed investment account are managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. In addition, Principal Trust Company acts as the custodian for investments not held under a group annuity contract. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, fees paid by the Plan to Principal for recordkeeping services amounted to $41,288 and $12,551 for the years ended December 31, 2015 and 2014, respectively, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations, which was not covered by revenue sharing.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) Tax status

The IRS has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed Principal Life Insurance Company such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

(9) Reconciliation of financial statements to Schedule H of Form 5500

Certain investment income line items reported on Schedule H of Form 5500 for the year ended December 31, 2015 have been reclassified on the accompanying statement of changes in net assets available for benefits. These reclassifications have no impact on net assets available for benefits at December 31, 2015 or changes in net assets available for benefits for the year then ended.

(10) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. During 2011 and 2010, the Plan sponsor failed to timely remit $117 of participant contributions and note repayments. The Company remitted these delinquent employee contributions, including any lost earnings during 2014.

(11) Subsequent events

The Plan has evaluated subsequent events through October 13, 2016, which is the date the financial statements were available to be issued. Except as noted in Note 1, no significant matters were identified for disclosure during this evaluation.
