Note 1–Description of the plan

The following description of the Wolverine Hourly 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, sponsored by Wolverine Advanced Materials, LLC (the Company), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Substantially all hourly employees of the Company are eligible to participate in the Plan upon hire. Effective January 1, 2015, only hourly employees covered by specified collective bargaining agreements in the Plan document are eligible to participant in the Plan upon hire. All other hourly employees became eligible for the Wolverine Salaried 401(k) Plan.

Contributions

Participants may elect to contribute up to 100% of their base compensation, or the maximum dollar amount allowed by law, as a pre-tax deferral. Effective January 1, 2014 the Plan changed the calculation of the match such that it is based on each payroll period rather than the plan year to eliminate the true up at the end of the year. The Company makes a matching contribution equal to 50% of the first 6% of participant pre-tax deferral contributions. The Company did not make a discretionary profit sharing contribution to the Plan in 2015.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contribution.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions, (b) Company discretionary contributions and (c) Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in pre-tax deferral and rollover contributions plus actual earnings (losses) thereon. Participants will become vested in the Company's contributions plus actual earnings (losses) thereon upon being credited with three years of vested service.

Notes receivable from participants

Effective January 1, 2014 the Plan removed the loan provision of the Plan. Prior to that date, participants could borrow against their vested account balance a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the participant's vested account balance. Loans are secured by the vested balance in the participant's account, and bear interest at rates commensurate with current interest rates charged for loans made under similar circumstances by lending institutions. The term of any loan shall not exceed five years, except in the case of a loan used to acquire any dwelling to be used as a primary residence.

Note 1–Description of the plan–continued

Payment of benefits
On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments over a fifteen year period. Distributions must commence by March 31 of the calendar year following the calendar year the participant reaches age 70½ and has separated from service.

Forfeitures
When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the Company's contributions or pay Plan expenses for the year. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $0 and $73, respectively. These accounts are used to reduce future employer contributions.

Administrative expenses
Administrative expenses are paid by the Plan unless the Company elects to make payment.

Note 2–Significant accounting policies

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition
Investment transactions are accounted for on a trade-date basis, and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned.

Purchases and sales of securities are recorded on a trade date basis. Interest income is rewarded on the accrual basis. Dividends are recorded on the ex-dividend basis.

Note 2–Significant accounting policies–continued

Investment valuation and income recognition–continued
The Plan has investments in the JP Morgan Commingled Pension Trust Fund (Stable Asset Income) (the Trust Fund) at December 31, 2015 and 2014. These funds are comprised of highly diversified fixed income investments which may include U.S Treasury and agency securities, mortgage backed securities, asset-backed securities, commercial mortgage-backed securities, private mortgages, corporate debt and short-term investments. The Trust Fund also enters into investment contracts to provide benefit responsive wraps. The investments are recorded and valued at fair value and adjusted to contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The JP Morgan Commingled Pension Trust Fund has separately audited financial statements which provide additional information on the fully benefit-responsive investment at December 31, 2015 and 2014.

The yield earned by the Trust Fund at December 31, 2015 and 2014 was 1.99% and 1.55%, respectively. This represents the annualized earnings of all investments in the fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the fund at December 31, 2015 and 2014, respectively.

The yield earned by the Trust Fund with an adjustment to reflect the actual interest rate credited to the participants in the fund at December 31, 2015 and 2014 was 1.80% and 1.77%, respectively. This represents the annualized earnings credited to participants in the fund, divided by the fair value of all investments in the fund at December 31, 2015 and 2014, respectively.

Financial Accounting Standards Board (FASB) guidance, "Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide" and "Defined-Contribution Health and Welfare and Pension Plans" require that investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FASB guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The fully benefit-responsive investment fund and investment contracts are recorded at fair value and adjusted to contract value. Contract value represents investment contracts at cost plus accrued interest income less amounts withdrawn to pay benefits.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the plan document.

Payment of benefits
Benefits are recorded when paid.

Note 2–Significant accounting policies–continued

Risks and uncertainties
The Plan utilizes various investment instruments, including mutual funds, common/collective trust funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Subsequent events
The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Recently issued accounting pronouncement
In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan Sponsor is evaluating the impact of this update but does not expect it will have a material effect on the Plan's financial statements.

Note 3–Investments
The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, JPMorgan Chase Bank, (the Trustee) has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments.

- Investments
- Net appreciation (depreciation) in fair value of investments
- Interest and other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 3–Investments–continued

The following investments individually represent greater than 5% of total net assets available for benefits at December 31:

		2015	2014
	Ridgeworth Small Cap Value	$ 482,848	$ 576,017
*	JPMorgan Stable Asset Income	447,813	499,209
*	JPMorgan Smart Retirement 2020	439,266	486,413
*	JPMorgan Core Bond Select	240,870	358,519
	Alger Capital Appreciation	159,581	**
*	JPMorgan Smart Retirement 2030	155,353	244,324

* *Party in interest*
** *Investment does not exceed 5% of plan assets.*

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ (216,595)
Common stocks	(3,001)
Common/collective trust funds	6,159
Total depreciation	$ (213,437)

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4–Fair value measurements-continued

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common/Collective Trust Fund – valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common Stocks – valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4–Fair value measurements-continued

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

		Fair Value Measurements at December 31, 2015 Using

Under the terms of a trust agreement between the Trustee and the Company, the Trustee invests all contributions to the Plan in various fund options as directed by the individual participants.

Note 5–Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 6–Tax status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS), that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7-Related party transactions and party in interest transactions

Certain Plan investments are managed by the trustee, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. There have been no known prohibited transactions with a party in interest, except as noted in the supplemental schedule h, line 4(a) – schedule of delinquent participant contributions.

During 2015, $612,840 was transferred from the Wolverine Hourly 401(k) Plan to the Wolverine Salaried 401(k) due to some hourly employees becoming eligible for the salaried plan, effective January 1, 2015, as stated in Note 1.
