Flint Hills Resources Chemicals Salary Deferral Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Flint Hills Resources Chemicals Salary Deferral Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon/BNY Mellon N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2015, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following brief description of the Flint Hills Resources Chemicals Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering certain groups of union employees of Flint Hills Resources, LP (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on August 1, 2007.

Aon Hewitt Associates LLC (Hewitt) is the record-keeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust) with the exception of the CISC Self-Directed Brokerage Account.

Eligibility

All employees of the Company who are members of a participating group Local No. 436G of the United Steelworkers International Union, AFL-CIO, CLC; Local No. 2286 of the International Brotherhood of Electrical Workers AFL-CIO, CLC (Port Arthur); Local No. 13-423 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Port Arthur); and Local No. 2-004 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Marysville), are eligible to participate in the Plan on the first day of the month following the date of employment.

Contributions and Vesting

The Plan allows for participants to contribute up to 25% of their eligible compensation on a pre-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

The latest collective bargaining agreements for each location dictate eligibility for the Company's matching contributions and vesting schedule.

For employees who elect to participate in the Plan at a deferral percentage less than 6%, the initial pre-tax contribution will automatically increase 1% each plan year continuing until the total deferral is 6% of compensation. Participants may opt out of contributing or escalating at any time.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1 Description of the Plan (continued)

Withdrawals and Terminations

Withdrawals from participant accounts may be made only for the following reasons: termination of employment, certain financial hardships, retirement, death or attainment of age 59-1/2. Upon occurrence of one of these events and upon election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment or, if eligible, a series of installment payments not to exceed 240 months.

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right for a participant to make elective contributions to the Plan for a period of six months.

Notes Receivable from Participants

The Plan allows participants currently employed by the Company to obtain up to three loans which in total are equal to the lesser of \$50,000 or 50% of their vested account balances. Loans bear interest at a rate equal to the prime rate plus 1% or other reasonable lending rate at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and loans normally must be repaid within five years. Loans become due and payable in full once a participant terminates employment, however, the participant will be allowed to continue making the loan payments in accordance with his or her loan agreement.

Forfeited Accounts

At December 31, 2015, forfeited non-vested accounts totaled \$30,752. These accounts will be used to reduce future employer contributions. During 2015, no forfeited non-vested accounts were used to reduce employer contributions.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2 Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain/loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification ("ASC") 820 Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. The adoption has been reflected in the financial statements and notes that follow.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively for all financial statements presented. Early application is permitted. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Early application is permitted. Management has determined to early adopt Parts I and II of this new standard. The adoption has been reflected in the financial statements and notes that follow. Part III is not applicable to the Plan.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The Plan administrator has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 0.25% at December 31, 2015. Investment income (loss) of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 4, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the contract value of the Stable Value Fund:

December 31	2015
Interest receivable	\$ 51,625
Investments at fair value:	
Mutual funds	1,784,769,041

3 Investment in Master Trust (continued)

The following is the change in net assets for the Master Trust for the year ended December 31, 2015:

For the year ended December 31	2015
Depreciation in fair value of investments	\$ (23,650,200)
Interest	7,414,098
Dividends	336,675
Net investment loss	(15,899,427)

Net transfers	(111,590,001)
Decrease in net assets	<u>\$ (129,902,929)</u>

4 Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit-responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Notes to Financial Statements
For the Year Ended December 31, 2015

4 Fully Benefit-Responsive Investment Contracts (continued)

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
For the Year Ended December 31, 2015

5 Fair Value Measurements (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

CISC Self-Directed Brokerage Account investments are brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, mutual funds, and certificates of deposit. These investments are valued at quoted market prices, which represent the net asset values of the shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value as of December 31, 2015:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,784,769,041	-	-	\$ 1,784,769,041
Total assets in the fair value hierarchy	\$ 1,784,769,041	-	-	1,784,769,041
Investments measured at NAV ^(a)				4,339,524,655
Total investments at fair value				\$ 6,124,293,696

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair value of the investments in the collective trust funds have been estimated using the net asset value of the investments. The collective trust funds listed in the above chart are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

5 Fair Value Measurements (continued)

The following table sets forth by level, the fair value hierarchy, a summary of investments held outside the Master Trust at fair value as of December 31, 2015:

December 31, 2015	Level 1		Level 2		Level 3		Total
CISC self-directed brokerage accounts	\$	983,363	\$	-	\$	-	\$ 983,363

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, fully benefit-responsive investment contracts, and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2015.
- Net investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of investment loss per the financial statements to the Form 5500:

For the year ended December 31	2015
Investment loss per the financial statements	\$ (812,052)
Adjustment from contract value to fair value for fully benefit-responsive investment contract, prior year	(6,737)
Investment loss per Form 5500	\$ (818,789)

9 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 11, 2011, that the Plan and the related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving the determination letter; however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statement of net assets available for benefits.

11 Related Party Transactions and Party-In-Interest Transactions

Certain fees incurred by the Plan are included in net investment loss from Plan's interest in the Koch Companies Defined Contribution Master Trust, as they are paid through revenue sharing, rather than direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to Plan's operations.

12 Plan Transfers

During 2015, certain participants transferred their balances between the plans sponsored by the Company or by one of its affiliates. Plan transfers out totaled \$454,442.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Flint Hills Resources Chemicals Salary Deferral Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon/BNY Mellon N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2015, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Flint Hills Resources Chemicals Salary Deferral Plan

Notes to Financial Statements

For the Year Ended December 31, 2015

1 Description of the Plan

The following brief description of the Flint Hills Resources Chemicals Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering certain groups of union employees of Flint Hills Resources, LP (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on August 1, 2007.

Aon Hewitt Associates LLC (Hewitt) is the record-keeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust) with the exception of the CISC Self-Directed Brokerage Account.

Eligibility

All employees of the Company who are members of a participating group Local No. 436G of the United Steelworkers International Union, AFL-CIO, CLC; Local No. 2286 of the International Brotherhood of Electrical Workers AFL-CIO, CLC (Port Arthur); Local No. 13-423 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Port Arthur); and Local No. 2-004 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Marysville), are eligible to participate in the Plan on the first day of the month following the date of employment.

Contributions and Vesting

The Plan allows for participants to contribute up to 25% of their eligible compensation on a pre-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

The latest collective bargaining agreements for each location dictate eligibility for the Company's matching contributions and vesting schedule.

For employees who elect to participate in the Plan at a deferral percentage less than 6%, the initial pre-tax contribution will automatically increase 1% each plan year continuing until the total deferral is 6% of compensation. Participants may opt out of contributing or escalating at any time.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1 Description of the Plan (continued)

Withdrawals and Terminations

Withdrawals from participant accounts may be made only for the following reasons: termination of employment, certain financial hardships, retirement, death or attainment of age 59-1/2. Upon occurrence of one of these events and upon election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment or, if eligible, a series of installment payments not to exceed 240 months.

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right for a participant to make elective contributions to the Plan for a period of six months.

Notes Receivable from Participants

The Plan allows participants currently employed by the Company to obtain up to three loans which in total are equal to the lesser of \$50,000 or 50% of their vested account balances. Loans bear interest at a rate equal to the prime rate plus 1% or other reasonable lending rate at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and loans normally must be repaid within five years. Loans become due and payable in full once a participant terminates employment, however, the participant will be allowed to continue making the loan payments in accordance with his or her loan agreement.

Forfeited Accounts

At December 31, 2015, forfeited non-vested accounts totaled \$30,752. These accounts will be used to reduce future employer contributions. During 2015, no forfeited non-vested accounts were used to reduce employer contributions.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2 Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain/loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification ("ASC") 820 Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. The adoption has been reflected in the financial statements and notes that follow.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively for all financial statements presented. Early application is permitted. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Early application is permitted. Management has determined to early adopt Parts I and II of this new standard. The adoption has been reflected in the financial statements and notes that follow. Part III is not applicable to the Plan.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The Plan administrator has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 0.25% at December 31, 2015. Investment income (loss) of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 4, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the contract value of the Stable Value Fund:

December 31	2015
Interest receivable	\$ 51,625
Investments at fair value:	
Mutual funds	1,784,769,041
Common collective trusts	4,339,524,655

3 Investment in Master Trust (continued)

The following is the change in net assets for the Master Trust for the year ended December 31, 2015:

For the year ended December 31	2015
Depreciation in fair value of investments	\$ (23,650,200)
Interest	7,414,098
Dividends	336,675
Net investment loss	(15,899,427)

Net transfers	(111,590,001)
Decrease in net assets	<u>\$ (129,902,929)</u>

4 Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit-responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

For the Year Ended December 31, 2015

4 Fully Benefit-Responsive Investment Contracts (continued)

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
For the Year Ended December 31, 2015

5 Fair Value Measurements (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

CISC Self-Directed Brokerage Account investments are brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, mutual funds, and certificates of deposit. These investments are valued at quoted market prices, which represent the net asset values of the shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value as of December 31, 2015:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,784,769,041	-	-	\$ 1,784,769,041
Total assets in the fair value hierarchy	\$ 1,784,769,041	-	-	1,784,769,041
Investments measured at NAV ^(a)				4,339,524,655
Total investments at fair value				\$ 6,124,293,696

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair value of the investments in the collective trust funds have been estimated using the net asset value of the investments. The collective trust funds listed in the above chart are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

5 Fair Value Measurements (continued)

The following table sets forth by level, the fair value hierarchy, a summary of investments held outside the Master Trust at fair value as of December 31, 2015:

December 31, 2015	Level 1		Level 2		Level 3		Total
CISC self-directed brokerage accounts	\$	983,363	\$	-	\$	-	\$ 983,363

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, fully benefit-responsive investment contracts, and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2015.
- Net investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of investment loss per the financial statements to the Form 5500:

9 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 11, 2011, that the Plan and the related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving the determination letter; however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statement of net assets available for benefits.

11 Related Party Transactions and Party-In-Interest Transactions

Certain fees incurred by the Plan are included in net investment loss from Plan's interest in the Koch Companies Defined Contribution Master Trust, as they are paid through revenue sharing, rather than direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to Plan's operations.

12 Plan Transfers

During 2015, certain participants transferred their balances between the plans sponsored by the Company or by one of its affiliates. Plan transfers out totaled \$454,442.

Report on the financial statements

We were engaged to audit the financial statements of **Flint Hills Resources Chemicals Salary Deferral Plan** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 6, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2014 and 2013, and for the year ended December 31, 2014, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note 6, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following brief description of the Flint Hills Resources Chemicals Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering certain groups of union employees of Flint Hills Resources, LP (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on August 1, 2007.

Aon Hewitt Associates LLC (Hewitt) is the record-keeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust).

Eligibility

All employees of the Company who are members of a participating group Local No. 436G of the United Steelworkers International Union, AFL-CIO, CLC; Local No. 2286 of the International Brotherhood of Electrical Workers AFL-CIO, CLC (Port Arthur); Local No. 13-423 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Port Arthur); and Local No. 2-004 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Marysville), are eligible to participate in the Plan on the first day of the month following the date of employment.

Contributions and Vesting

The Plan allows for participants to contribute up to 25% of their eligible compensation on a pre-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

The latest collective bargaining agreements for each location dictate eligibility for the Company's matching contributions and vesting schedule.

For employees who elect to participate in the Plan at a deferral percentage less than 6%, the initial pre-tax contribution will automatically increase 1% each plan year continuing until the total deferral is 6% of compensation. Participants may opt out of contributing or escalating at any time.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals and Terminations

Withdrawals from participant accounts may be made only for the following reasons: termination of employment, certain financial hardships, retirement, death or attainment of age 59-1/2. Upon occurrence of one of these events and upon election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment or, if eligible, a series of installment payments not to exceed 240 months.

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right for a participant to make elective contributions to the Plan for a period of six months.

Notes Receivable from Participants

The Plan allows participants currently employed by the Company to obtain up to three loans which in total are equal to the lesser of \$50,000 or 50% of their vested account balances. Loans bear interest at a rate equal to the prime rate plus 1% or other reasonable lending rate at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and loans normally must be repaid within five years. Loans become due and payable in full once a participant terminates employment, however, the participant will be allowed to continue making the loan payments in accordance with his or her loan agreement.

2 Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statements have been presented using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain/loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reporting of Guaranteed Investment Contracts

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, presents the fair value of the Plan's interest in the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Recent Accounting Pronouncements

In July 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively for all financial statements presented. Early application is permitted. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Early application is permitted. Management is evaluating the impact of the ASU on the Plan's financial statements.

Payment of Benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

Subsequent Events

The Plan administrator has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 0.25% and 0.24% at December 31, 2014 and 2013, respectively. Investment income of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 2, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the fair value of the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value:

December 31	2014	2013
Interest receivable	\$ 20,460	\$ 14,274
Investments at fair value:		
Mutual funds	354,413,023	375,116,804
Common collective trusts	5,914,754,722	5,324,816,710
Stable value fund	454,510,752	461,590,138
Investments at fair value	6,723,678,497	6,161,523,652
Accounts payable	1,285,601	455,875
Net assets of the Master Trust at fair value	6,722,413,356	6,161,082,051
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(4,860,504)	(390,269)
Net assets of the Master Trust	\$ 6,717,552,852	\$ 6,160,691,782

Net investment gain of the Master Trust is as follows:

For the year ended December 31		2014
Appreciation (depreciation) in fair value of investments:		
Common collective trusts	\$	424,767,789
Stable value fund		6,453,877
Net appreciation in fair value of investments		431,221,666
Interest and dividends		169,074
Investment manager expense		(2,372,590)
Net investment gain	\$	429,018,150

4 Stable Value Fund

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The crediting interest rates for the synthetic GICs are calculated on a quarterly basis (or more frequently, if necessary) using the contract value, and the market value, yield and duration of the underlying securities, but cannot be less than zero. The crediting interest rate of the Stable Value Fund was 1.29% and 1.25% at December 31, 2014 and 2013, respectively.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

The average market value yield of the Stable Value Fund was 1.54% for 2014 (calculated by taking the average of the quarterly market value weighted yields of the investments). The average yield earned by the Stable Value Fund that reflects the actual interest credited to participants was 1.62% for 2014 (calculated by dividing annualized earnings credited to participants by the market value of the Stable Value Fund).

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification section (FASB ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Collective trust funds: Are valued based on the year-end unit value as determined by the issuer by dividing the fair values of the total net assets of the fund at year-end by the outstanding units. The fair value of the total net assets is determined by the nature of the fund's underlying investments.

Stable value fund: Valued at fair value measured as the net asset value (NAV) per unit based on the fair value of the underlying investments, which include synthetic investment contracts (See Note 4).

CISC Self-Directed Brokerage Account investments are brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, mutual funds, and certificates of deposit. These investments are valued at quoted market prices, which represent the net asset values of the shares held by the Plan at year-end.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value as of December 31, 2014 and 2013:

December 31, 2014	Level 1	Level 2	Level 3	Total
Collective trust funds:				
Target date funds	\$ -	\$ 1,409,901,562	\$ -	\$ 1,409,901,562

Mutual fund - money market	375,116,804	-	-	375,116,804
Stable value fund	-	461,590,138	-	461,590,138
Total investments, at fair value	\$ 375,116,804	\$ 5,786,406,848	\$ -	\$ 6,161,523,652

The following tables set forth by level, the fair value hierarchy, a summary of investments held outside the Master Trust at fair value as of December 31, 2014 and 2013:

December 31, 2014		Level 1		Level 2		Level 3		Total
CISC self directed brokerage accounts - Equity	\$	1,085,033	\$	-	\$	-	\$	1,085,033
CISC self directed brokerage accounts - Other	\$	298,591	\$	-	\$	-	\$	298,591

December 31, 2013		Level 1		Level 2		Level 3		Total
CISC self directed brokerage accounts - Equity	\$	167,500	\$	-	\$	-	\$	167,500
CISC self directed brokerage accounts - Other	\$	108,952	\$	-	\$	-	\$	108,952

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net investment earnings and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2014.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

December 31	2014	2013
Net assets available for benefits per the financial statements	\$ 19,266,589	\$ 15,772,545
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	6,737	522
Net assets available for benefits per Form 5500	\$ 19,273,326	\$ 15,773,067

The following is a reconciliation of investment gain per the financial statements to the Form 5500:

For the year ended December 31	2014
Investment gain per the financial statements	\$ 1,290,934
Current period adjustment from fair value to contract value for fully benefit-responsive investment contract	6,737
Prior period adjustment from fair value to contract value for fully benefit-responsive investment contract	(522)
Investment gain per Form 5500	\$ 1,297,149

9 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 11, 2011, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan administrative committee believes that the Plan and related trusts are currently designed and being operated in compliance with the applicable requirements of the IRC.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, and for the year ended December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statements of net assets available for benefits.

11 Related-party Transactions

During the year ended December 31, 2014, the Koch Companies Defined Contribution Master Trust paid \$527,069 in fees to BNY Mellon, the trustee on behalf of the participants.

12 Plan Transfers

During 2014, certain participants transferred their balances between the plans sponsored by the Company or by one of its affiliates. Plan transfers out totalled \$54,821.
