Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 7, which was certified by Northern Trust Company, the trustee of the Plan (Trustee), except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the Plan's investment assets and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2015 and 2014 and for the years then ended, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee has been audited by us in accordance with US GAAS and, in our opinion, is presented in compliance with DOL Rules and Regulations for Reporting and Disclosure under ERISA.

RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

1. DESCRIPTION OF THE PLAN

The following brief description of the Dynegy Northeast Generation, Inc. Retirement Income Plan (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

General

The Plan is sponsored by Dynegy Inc., a Delaware corporation (“Dynegy”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Dynegy Inc. Benefit Plans Committee serves as the “Plan Administrator” for the Plan. Assets of the Plan are held by the Northern Trust Company (the “Trustee”) in the Dynegy Inc. Master Retirement Trust (the “Master Trust”). The Plan is a defined benefit pension plan.

The Plan was adopted effective January 31, 2001 in connection with the Asset Purchase and Sale Agreement dated August 7, 2000 between Central Hudson Gas and Electric Corporation and Dynegy Power Corporation. The Plan was created through the spin-off of assets and liabilities from the Retirement Income Plan of Central Hudson Gas and Electric Corporation (the “Prior Plan”).

Dynegy amended the Plan effective for periods after December 31, 2011, ceasing all benefit accruals under the Final Average Pay Component of the Plan for non-represented participants; freezing participation of all non-represented employees in the Final Average Pay Component of the Plan to the extent not already frozen (such that no non-represented employee who is not a participant in the Final Average Pay Component of the Plan as of December 31, 2011 will become a participant after such date); and instead making such non-represented employees eligible to participate in the Cash Balance Component of the Plan effective for periods after December 31, 2011 (assuming all other applicable eligibility requirements met).

The Plan was amended and restated effective January 1, 2013.

Participation

The Plan covers substantially all employees of Dynegy Northeast Generation, Inc. (the “Company”)¹ who have completed 12 consecutive months of employment. However, the following employees are not eligible to participate in the Plan: (1) an employee whose terms and conditions of employment are governed by a collective bargaining agreement unless such agreement provides for his or her coverage under the Plan, (2) a non-resident alien who has no United States source income, (3) a leased employee, (4) an individual who is deemed to

¹ In connection with a corporate reorganization of Dynegy’s subsidiaries in August 2011, certain additional subsidiaries were added as participating employers under the Plan effective August 8, 2011. See Note 3.

be an employee pursuant to Treasury regulations issued under Section 414(o) of the Internal Revenue Code of 1986, as amended (the "Code"), (5) an employee who waives participation in the Plan through any means, and (6) an individual who is not treated as a common law employee by the employer even if a court or administrative agency determines that the individual is a common law employee. Further, effective April 3, 2008, union employees hired on or after April 3, 2008 by the Company and covered by the collective bargaining agreement by and between the Company and IBEW Local Union 320 are not eligible to participate in the Plan. Additionally, effective January 1, 2009, employees hired (or re-hired) on or after January 1, 2009 are not eligible to participate in the Plan. Finally, effective January 1, 2012, non-represented employees are not eligible to participate in the Plan.

Benefits

If a participant retires on his or her normal retirement date (the first day of the month on or next following a participant turning age 65), the participant is entitled to begin receiving a normal retirement pension (based on the formula under the Plan). Participants may delay retirement beyond normal retirement age (age 65) and will continue to earn benefits until their actual retirement date; however, participants must begin receiving benefits no later than certain required dates (discussed further below). The Plan provides for a subsidized early retirement benefit for a participant who retires on or after the first day of the month following the month in which the participant has both reached age 55 and completed 10 years of vesting service; such a participant may start monthly benefit payments without reduction for early commencement. If a participant terminates employment before reaching normal retirement age and has five or more years of vesting service, the participant is entitled to annual pension benefits beginning at normal retirement age equal to a normal retirement pension as determined by the formula under the Plan. Vested participants who do not qualify for normal or early retirement benefits at the time of their termination of employment may elect to receive a reduced benefit commencing at age 55 if they do not wish to wait until reaching normal retirement age to receive benefits. If a participant terminates employment before completing five years of vesting service, the participant will forfeit the right to receive the portion of his or her accrued Plan benefit attributable to the Company's contributions. Subject to certain spousal consent requirements, participants may elect to receive their pension benefits in the form of a single life annuity or a joint and survivor annuity.

The Prior Plan established various cash balance accounts for certain eligible participants (the "Cash Balance Accounts"). These accounts were transferred from the Prior Plan to the Plan, and the accounts are periodically credited with interest based on the yield of 30-year Treasury bonds with constant maturities. Subject to certain spousal consent requirements, the balance in a participant's Cash Balance Account may be paid upon the termination of the participant's employment in the form of a single lump sum cash payment or in the form of an annuity. Participants should refer to the Plan documents for more detailed information about the Cash Balance Accounts.

DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

If a participant dies after his or her benefit commencement date, no death benefit is paid under the Plan except to the extent, if any, provided under the annuity form of benefit the participant was receiving at the time of his or her death. However, under certain circumstances, the beneficiary of such a participant may be entitled to a benefit if the participant made after-tax employee contributions to the Prior Plan. If a vested participant dies prior to his or her benefit commencement date, a survivor benefit will be paid to the participant's spouse. If a participant is unmarried or unvested and dies prior to his or her benefit commencement date, no pre-retirement death benefit will be payable with respect to the Participant's non-cash balance plan benefit. However, the surviving spouse or designated beneficiary of a participant who dies prior to his or her benefit commencement date will be entitled to a death benefit if a cash balance account is maintained under the Plan for the participant or if the participant made after-tax employee contributions to the Prior Plan.

A participant who retires prior to age 60 due to disability is eligible to receive a disability benefit under the Plan commencing at age 60. The amount of the benefit will be determined as if the participant's employment had continued during the period he or she receives payments from the Company's long term disability plan and as if his or her compensation as of October 1 preceding his or her disability had remained constant. A participant who has attained age 55 with at least 10 years of vesting service may elect to receive an early retirement benefit under the Plan in lieu of the disability benefit.

Vesting

Participants become fully vested in the Plan benefit after completing five years of vesting service. Additionally, if participants are not already vested, they will become fully vested in their accrued benefit upon turning age 65 while employed by the Company (or certain affiliates of the Company).

Participants are 100% vested in their Cash Balance Accounts.

Contributions

Employee contributions were permitted under the terms of the Prior Plan, and the benefits attributable to those contributions were transferred from the Prior Plan to the Plan. Currently, employee contributions are not required or permitted under the Plan.

The Company is required to make contributions in the amounts determined by the Plan Administrator to be necessary to provide benefits under the Plan, based on the minimum funding requirements as calculated by the Plan's actuary. Except in very limited circumstances, Company contributions are irrevocable and are utilized only for the benefit of participants and beneficiaries.

Distributions

Distributions, as provided for in the Plan documents, are made to terminated Plan participants or their beneficiaries. Distributions must begin by April 1st of the calendar year following the later of the calendar year in which the participant reaches age 70½ or the calendar year in which the participant retires. All distributions are made in the form of cash (in a single lump-sum payment or in an annuity form).

Plan Merger

Effective December 31, 2015, participant accounts were transferred to the Dynegy, Inc. Frozen Retirement Benefit Plan (formerly known as Sithe Pension Account Plan). The total transfer amounting to \$49,266,621 is presented as plan-to-plan transfer in the Statement of Changes in Net Assets Available for Benefits.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and the changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of the valuation date. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments held in the Master Trust are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are valued at fair value as determined in good faith by or under the direction of the Trustee. The Trustee determines the Plan's interest in the market value of the Master Trust's net assets in accordance with a computational method agreed upon between the Plan Administrator and the Trustee.

Investment income from the Plan's investment in the Master Trust consists of the Plan's proportionate share of the Master Trust's interest and dividend income and investment income/loss from net appreciation (depreciation) in the fair value of investments. The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned.

DECEMBER 31, 2015 AND 2014

Realized gains and losses on security sales are computed on an average cost basis. Purchases and sales of securities are recorded on a trade-date-basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and current employees.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2015

Mortality basis:	RP-2014 with adjustments to reflect actual experience from the Human Mortality Database from 2006 to 2010.
Discount rate:	5.70%

Contributions

Contributions to the Plan from the Company are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefit payments to participants/beneficiaries are recorded upon distribution.

Expenses of the Plan

Certain expenses incurred in the administration of the Plan and the Master Trust are paid by the Master Trust and allocated to the participating plans. These expenses include, for example, fees and expenses of the Trustee, fund managers and consultants. Any other expenses incurred in the operation of the Plan are paid by the employers participating in the Plan.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification (ASC) 820. ASU 2015-07 is effective for the Plan retrospectively for the year beginning after December 15, 2015 with early adoption permitted. Plan management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "(Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, (Part III) *Measurement Date Practical Expedient*" (ASU 2015-12). The ASU 2015-12 (i) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (ii) requires an employee benefit plan to disaggregate its investments only by general type and eliminates the requirement to disaggregate by nature, characteristics and risks of the investment, eliminates the requirement to disclose the net appreciation or depreciation in fair value of investments by general type, eliminates the requirement to disclose individual investments with a value equal to or greater than 5% of net assets available for benefits, and eliminates the requirement to disclose the fair value information about significant investment strategies for an investment in a fund that files an annual report on Form 5500 as a direct filing entity when that investment is measured using the net asset value per share practical expedient, and (iii) allows a plan with a fiscal year end that does not end at the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early application permitted. An entity is required to apply the amendments retrospectively for all statements presented except for Part III which requires a prospective application. Plan management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2015, and through October 14, 2016, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

3. PLAN AMENDMENTS

The Plan was amended and restated effective January 1, 2013. The Plan has been amended subsequently as follows:

- Amendment 1 (11/25/14) - Amendment to Comply with Revenue Ruling 2013-17 and Notice 2014-10 relating to the recognition of the same sex marriage for federal tax purposes and to provide for 2014 Lump Sum Window for terminated vested participants

4. INCOME TAXES

A determination letter dated February 12, 2014 was received from the Internal Revenue Service stating that the Plan constitutes a qualified plan under the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

5. FUNDING POLICY

The Plan's participating employers' funding policy is to contribute an amount at least equal to the minimum funding requirement and no more than the maximum tax deductible contribution in accordance with ERISA and the Code. Such amount is determined by a consulting actuary and is certified in an Actuarial Valuation Report. For the Plan years ended December 31, 2015 and 2014, there were no minimum funding requirements of ERISA.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated

DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. PARTICIPATION IN MASTER TRUST

The Plan participates in the Master Trust. Other plans participating in the Master Trust include the Dynegy Inc. Retirement Plan and the Sithe Stable Pension Account Plan. At December 31, 2015 and 2014, the Plan's interest in the Master Trust was approximately 0% and 18.7%, respectively, and represents 5% or more of the Plan's net assets available for benefits.

8. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 820 (“FASB ASC 820”) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Equity Securities: Comprised of common/collective trusts and a 103-12 investment entity; valued at net asset value (“NAV”) and generally include the use of significant observable inputs in determining the unit value.

Fixed Income Securities: Comprised of 1) a mutual fund valued at NAV of units held by the Master Trust at year end and 2) a common collective trust valued as described in Equity Securities above.

DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

Partnership: The interest in this fund has been valued using the partner's capital contributions, withdrawal or distributions, the allocation of the partnership's net profits and losses and any other capital account adjustments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2015 and 2014:

9. NAV PER SHARE

In accordance with FASB Accounting Standards Update (“ASU”) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2015 and 2014. For the Plan, such assets include investments in common collective trust funds.

The following tables for December 31, 2015 and 2014, sets forth a summary of the Master Trust’s investments with a reported NAV.

* The fair values of the investment have been estimated using the NAV of the investment.

- (a) The investment objective of this fund is to match the return of the Dow Jones (DJ) U.S. Total Stock Market Index through a fund-of-funds approach, wherein units of SSgA's S&P 500 and DJ U.S. Completion Total Stock Market Index Funds are combined using appropriate market-capitalization weights. This fund uses a sampling strategy to provide reasonable tracking of the DJ U.S. Completion Total Stock Market Index.
- (b) The investment objective of this fund is to match the return of the Barclays Capital U.S. Long Credit Index by investing in a diversified portfolio of corporate bond issues with maturities longer than 10 years. This fund uses a sampling strategy to provide reasonable tracking to the Barclays Capital U.S. Long Credit Index.
- (c) The investment objective of this fund is to match the return of the MSCI All Country World Ex-U.S. Index. This fund is constructed using a series of commingled country funds. The investment objective of each fund has been to approximate as closely as practicable, before expenses, the performance of the MSCI Index of that respective country over the long term.
- (d) The investment objective of this fund is to seek long-term capital appreciation by investing primarily in common stocks of companies across the globe. The fund seeks to outperform the MSCI World Index.
- (e) The investment objective of this fund is to seek long-term capital appreciation by investing primarily in common stocks of companies across the globe. The fund seeks to outperform the MSCI World Index.
- (f) The investment objective of this fund is to provide an attractive risk-adjusted rate of return above the asset class's benchmark.

10. PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by the Northern Trust Company. Because Northern Trust Company is the Trustee as defined by the Plan, these qualify as party-in-interest transactions allowable under ERISA regulations. Fees paid during the year for professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Benefit commencement date:

- Preretirement death benefit Upon death of active participant
- Deferred vested benefit For active participants upon termination of employment:
 - Annuities Age 65
 - Lump Sums Immediately

Current terminated vested participants not eligible for a lump sum on the traditional benefit are assumed to commence annuity payments at age 65 and receive the cash balance lump sum based on the following schedule:

Years from Termination	Percentage taking Lump Sum
1	40%
2	30%
3	20%
4	10%

Current terminated vested participants eligible for a lump sum in the traditional benefit are assumed to commence their lump sum in 2015.

- Disability benefit Age 65 for plans that provide continued accruals. Otherwise, upon termination of employment
- Retirement benefit Upon retirement

Form of payment

- Cash Balance Benefit 100% of participants are assumed to take the account balance as a lump sum.
- Final Average Pay Benefit 100% of participants who are eligible for a lump sum are assumed to elect a lump sum. All others assumed to elect the normal form, which is the lifetime annuity for single participants and the 50% contingent annuity for married participants

The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. Assumptions Rationale – Significant Economic Assumptions for Contributions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	<p>The plan credits interest to cash balance accounts using the 30-year Treasury rate.</p> <p>Interest crediting rate assumption is long-term assumption based on consensus economic forecasts for 30-year treasury rates adjusted to reflect current conditions, minimum interest credits under the plan and the interest rate basis defined under the plan, if different.</p> <p>We believe that the selected assumptions do not significantly conflict with what would be reasonable based on future expectations consistent with other economic assumptions used, other than the interest rate.</p>
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are the same as described above for the interest rate.
Administrative expenses	Administrative expenses are estimated by determining the average expenses paid from the trust over the preceding 3 years.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale – Significant Demographic Assumptions

Healthy and Disabled Mortality	As prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2012 combined with best estimates for future experience taking into account whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2012 combined with best estimates for future experience taking into account whether any conditions have changed that would be expected to produce different results in the future.
Deferred vested benefit commencement age for participants	<p>Deferred vested participants with a lump sum option are assumed to take their lump sum payment within four years of the valuation date based on a best estimate of expected future experience.</p> <p>All other deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.</p>
Percent married	The assumed percentage married is based on general population statistics with adjustments as appropriate based on how expected future experience will vary amongst the population cohorts.
Spouse age	The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Plan Provisions

The plan was amended and restated effective January 1, 2013.

Plan Sponsor

Dynegy Inc.

Plan Year

The twelve-month period ending December 31.

Status of the Plan

The plan is closed to new entrants effective January 1, 2009. All non-union accruals were frozen effective January 1, 2012. All union accruals were frozen effective January 1, 2013.

Benefits Not Included in Valuation

We believe we have reflected all significant plan provisions in this valuation

Changes in Plan Provisions Since Prior Year

If the actuarial present value of the vested pension benefit of a participant exceeds \$1,000, but does not exceed \$5,000, and the participant does not elect to rollover that amount into another eligible retirement plan or receive it directly, it will be directly rolled over into a retirement plan designated by the plan administrator.

Participants and surviving spouses, who were not 70½ as of December 1, 2014, who had not commenced their accrued benefit as of August 1, 2014 and who were not otherwise eligible for a lump sum were given the opportunity to elect a lump sum payment in 2014.

- Lump sums provided to participants were calculated as the present value of the accrued benefit payable at age 65.
- Lump sums provided to surviving spouses were calculated as the present value of the benefit payable at the earliest commencement date.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides for optional monthly payment forms. Actuarial equivalence for this purpose is based on 7.50% interest rate and the 1983 Group Annuity Mortality Table assuming the participant is male and the contingent annuitant is female. To determine single sum values, the applicable interest rate and applicable mortality table as determined in accordance with Code Section 417(e)(3) with the applicable phase-in percentages to the new PPA interest rate basis are used. The applicable interest rate for a given plan year is based on the month of August (the lookback month) that precedes the Plan Year (the stability period) in which the distribution is made.

The normal form of payment is a single life annuity for unmarried participants and 50% joint and survivor annuity for married participants. Non-cash balance formula lump-sum distributions in excess of \$5,000 are only allowed for DNE union participants who were active employees on January 1, 2013. Such lump sum will be based on the present value of the age 65 accrued benefit. Other optional forms of payment for married participants are as follows:

- A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 50% or 75% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant.
- A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 30%, 40%, 75% or 100% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant. If the designated joint annuitant predeceases the participant while the participant is receiving retirement payments, then, the participant's monthly benefit will increase to the amount he would have been receiving under the plan if he had originally elected the Single Life Annuity.
