Note 1 - Description of the Plan

The following description of Hidden Eyes, LLC 401(K) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering all employees of Hidden Eyes, LLC (the Company) who have completed three months of service and have attained twenty-one years of age. The purpose of the Plan is to enable eligible employees to save for retirement, as well as providing certain benefits in the event of death, disability or other termination of employment. The Plan was established effective January 1, 2010 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Salary deferral contributions are made to the Plan by participating employees through payroll deductions in amounts authorized by the employees. Participants may contribute up to the limits of the Internal Revenue Service (IRS) of $18,000 of pretax annual compensation for 2015. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2015, the annual catch-up contribution limit was $6,000.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's discretionary profit sharing or discretionary matching contribution, employers matching contributions and an allocation of the Plan earnings. Allocations of the Plan earnings are based on participants' account balances.

Vesting

Participants are immediately vested in their salary deferral contributions, rollover contributions, and earnings thereon. Participants are vested 100% in employer discretionary profit sharing contributions. Vesting for discretionary matching contributions and earnings thereon are based on years of service, as defined in the Plan, as follows:

Completed Years of Service	Vested Percentage
0-1	0 %
2	100 %

If, while an employee, the participant dies, becomes disabled, or reaches normal retirement age of 65 before the two year vesting period, the participant's account will be 100% vested.

Note 1 - Description of the Plan (Continued)

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and allocate contributions to the investment options available under the Plan. Employer contributions are allocated according to the participant's allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant.

Participants may change their investment options at any time using the Trustee's website or via telephone, which allows a participant to access their account using a personal identification number.

Notes Receivable from Participants

The Plan does allow for loans to be taken out by participants if certain criteria are met. A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Creditworthiness is considered and all loans must be adequately secured, generally by the vested interest in the Plan. A promissory note must be signed along with a loan pledge. Interest rates on outstanding loans from participants as of December 31, 2015 were 4.25%. Principal and interest are paid through payroll deductions. Loans that are outstanding at the occurrence of a distributable event will become due in their entirety. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. No allowance has been established for uncollectable loans from participants as of December 31, 2015 and 2014. The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason, other than death or total and permanent disability, prior to satisfying the age and service requirements for normal retirement, the terminated participant may elect, with the consent of his or her spouse, to receive in a lump-sum payment any vested amounts plus the earnings thereon. Employees must work at least 1,000 hours in order to be credited with one year of service for vesting purposes. If the participant's vested account balance is $5,000 or less, the Plan Administrator will direct the Trustee to distribute as a lump-sum payment upon termination.

Plan Termination

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan. In the event of Plan termination, the participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

Note 2 - Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Investments

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of investments are recorded on the trade date. Income from investments in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Dividend income is recognized when earned.

Net Appreciation (Depreciation) in the Fair Value of Investments

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Benefits Paid to Participants

Benefits are recorded when paid.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 - Administrative Expenses

Fees paid by the Plan for the year ended December 31, 2015 totaled $2,608.

Note 4 - Investments

Investment balances that represent 5% or more of the net assets available for benefits are as follows:

	2015		
	Number of Shares		Market Value
John Hancock Funds Lifestyle Balanced Portfolio Class R5	25,957.2977	$	371,189

Note 4 - Investments (Continued)
Investment balances that represent 5% or more of the net assets available for benefits are as follows:

	2014 (Unaudited)	
	Number of Shares	Market Value
John Hancock Funds Lifestyle Balanced Portfolio Class R5	25,410.9471	$ 178,025

Note 5 - Tax Status
Effective January 1, 2010, the Plan has adopted a standardized form of a prototype plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator and Trustee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 6 - Risks and Uncertainties
The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7 - Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the year ended December 31, 2015 and 2014.

Self-directed brokerage fund and mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange valued at the end of each day.

Note 7 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Note 1 - Description of the Plan

The following description of Hidden Eyes, LLC 401(K) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering all employees of Hidden Eyes, LLC (the Company) who have completed three months of service and have attained twenty-one years of age. The purpose of the Plan is to enable eligible employees to save for retirement, as well as providing certain benefits in the event of death, disability or other termination of employment. The Plan was established effective January 1, 2010 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Salary deferral contributions are made to the Plan by participating employees through payroll deductions in amounts authorized by the employees. Participants may contribute up to the limits of the Internal Revenue Service (IRS) of $18,000 of pretax annual compensation for 2015. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2015, the annual catch-up contribution limit was $6,000.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's discretionary profit sharing or discretionary matching contribution, employers matching contributions and an allocation of the Plan earnings. Allocations of the Plan earnings are based on participants' account balances.

Vesting

Participants are immediately vested in their salary deferral contributions, rollover contributions, and earnings thereon. Participants are vested 100% in employer discretionary profit sharing contributions. Vesting for discretionary matching contributions and earnings thereon are based on years of service, as defined in the Plan, as follows:

Completed Years of Service	Vested Percentage
0-1	0 %
2	100 %

If, while an employee, the participant dies, becomes disabled, or reaches normal retirement age of 65 before the two year vesting period, the participant's account will be 100% vested.

Note 1 - Description of the Plan (Continued)

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and allocate contributions to the investment options available under the Plan. Employer contributions are allocated according to the participant's allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant.

Participants may change their investment options at any time using the Trustee's website or via telephone, which allows a participant to access their account using a personal identification number.

Notes Receivable from Participants

The Plan does allow for loans to be taken out by participants if certain criteria are met. A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Creditworthiness is considered and all loans must be adequately secured, generally by the vested interest in the Plan. A promissory note must be signed along with a loan pledge. Interest rates on outstanding loans from participants as of December 31, 2015 were 4.25%. Principal and interest are paid through payroll deductions. Loans that are outstanding at the occurrence of a distributable event will become due in their entirety. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. No allowance has been established for uncollectable loans from participants as of December 31, 2015 and 2014. The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason, other than death or total and permanent disability, prior to satisfying the age and service requirements for normal retirement, the terminated participant may elect, with the consent of his or her spouse, to receive in a lump-sum payment any vested amounts plus the earnings thereon. Employees must work at least 1,000 hours in order to be credited with one year of service for vesting purposes. If the participant's vested account balance is $5,000 or less, the Plan Administrator will direct the Trustee to distribute as a lump-sum payment upon termination.

Plan Termination

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan. In the event of Plan termination, the participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

Note 2 - Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Investments

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of investments are recorded on the trade date. Income from investments in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Dividend income is recognized when earned.

Net Appreciation (Depreciation) in the Fair Value of Investments

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Benefits Paid to Participants

Benefits are recorded when paid.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 - Administrative Expenses

Fees paid by the Plan for the year ended December 31, 2015 totaled $2,608.

Note 4 - Investments

Investment balances that represent 5% or more of the net assets available for benefits are as follows:

	2015		
	Number of Shares		Market Value
John Hancock Funds Lifestyle Balanced Portfolio Class R5	25,957.2977	$	371,189

Note 4 - Investments (Continued)
Investment balances that represent 5% or more of the net assets available for benefits are as follows:

	2014 (Unaudited)	
	Number of Shares	Market Value
John Hancock Funds Lifestyle Balanced Portfolio Class R5	25,410.9471	$ 178,025

Note 5 - Tax Status
Effective January 1, 2010, the Plan has adopted a standardized form of a prototype plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator and Trustee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 6 - Risks and Uncertainties
The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7 - Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the year ended December 31, 2015 and 2014.

Self-directed brokerage fund and mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange valued at the end of each day.

Note 7 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets are set forth within the fair value hierarchy at December 31, 2015 as follows:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2015	Level 1	Level 2	Level 3
Mutual funds	$ 504,953	$ 504,953	$	$
