Report on the Financial Statements

We were engaged to audit the accompanying financial statements of **P.J.'s Lumber, Inc. 401(k) Plan,** which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information disclosed in Note 5, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

P.J.'s Lumber, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Note 1: Description of Plan:

The following description of the P.J.'s Lumber, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan established under Section 401(k) of the Internal Revenue Code. The Plan covers substantially all nonunion, full-time employees of P.J.'s Lumber, Inc. ("the Company") who have completed at least 250 hours within the first three months of service and are age twenty-one (21) or older. Participants enter the Plan on the first day of the month following the satisfaction of eligibility requirements. Participants are eligible to receive employer contributions after one year of service with at least 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

2. Contributions: Participants may elect to defer a percentage of their compensation up to the maximum allowed by law. Catch up contributions for participants at least 50 years of age of $6,000 per year are also allowed. The Plan also allows Roth 401(k) employee deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans or individual retirement accounts. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 30 pooled separate accounts and one guaranteed investment contract as investment options for participants.

   The Plan is a safe harbor 401(k) plan under which the Company's safe harbor matching contributions are equal to 100% of the participant's salary deferrals that do not exceed 3% of participant's compensation plus 50% of deferrals between 3% and 5% of compensation. The Company may also elect to make additional discretionary matching and nonelective contributions. No discretionary or nonelective contributions were made for the year ended December 31, 2015.

3. Participant Accounts: The plan administrator maintains a separate account for each participant and each type of contribution. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

   Certain fees are charged to the funds and are offset against plan investment income and losses as presented on the statement of changes in net assets available for benefits.

Note 1: Description of Plan, continued:

4. Vesting: Plan participants are immediately 100% vested in salary reduction contributions, rollover contributions, employer safe harbor matching contributions, and actual earnings or losses thereon. Discretionary employer matching and nonelective contributions are vested based on years of service according to the following schedule:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

5. Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum aggregate for all loans outstanding of $50,000 or 50 percent of their vested account balance, whichever is less. Participants are allowed to have three loans outstanding at one time. The loans are secured by the balance in the participant's account, are repaid by payroll deductions in equal installments, and bear interest at rates determined when the loan is disbursed. The interest rate on loans outstanding as of December 31, 2015 and 2014 is 4.25%. Loan terms range from one to five years. As of December 31, 2015, loan maturity dates range from August 2015 to December 2019.

6. Payment of Benefits: On termination of service, or upon death, disability or retirement, a participant can elect to receive either a lump-sum or installment payments equal to the value of the participant's vested interest in his or her account. The Plan allows for automatic distributions for participant accounts that have a vested balance of $5,000 or less on date of separation. The Plan allows for in-service distributions for participants who are at least 59 ½ years of age or are disabled. In-service distributions can only be made from accounts which are 100% vested.

   Certain participant account balances may be automatically rolled into an Individual Retirement Account (IRA) held in the participant's name by Voya Retirement Insurance and Annuity Company. The IRA account will be automatically invested in a type of investment designed to preserve principal and to provide a reasonable rate of return and liquidity.

7. Forfeitures: Forfeitures are created when participants terminate employment before they become 100% vested in their account balance. Forfeitures are used to offset employer contributions and/or plan expenses. For the year ended December 31, 2015, forfeitures of $5,825 were used to pay plan expenses. There were unallocated forfeitures of $568 and $6,393 as of December 31, 2015 and 2014, respectively.

Note 1: Description of Plan, continued:

8. Administrative Expenses: The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan’s investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Investment income (loss), derived from underlying pooled account fund and guaranteed investment contract investments, is comprised of interest, dividends (recorded on the ex-dividend date), and realized and unrealized gains and losses. The investment gain (loss) is reported net of investment charges.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note 2: Summary of Significant Accounting Policies, continued:

Payment of Benefits:

Benefits are recorded when paid.

Recent Accounting Pronouncements:

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement, Topic 820, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent).* The ASU removes the requirement to categorize investments measured at fair value using net asset value (NAV) as a practical expedient within the fair value hierarchy. The ASU is effective for all plan years beginning after December 15, 2016, with early adoption permitted and applied retrospectively. The Plan has early adopted the ASU and its provisions have been applied retrospectively to its years ended December 31, 2015 and 2014. Fair value disclosures in the accompanying financial statements have been updated in accordance with the ASU.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early in these financial statements, via retrospective application. As a result of adopting this Update, fair value disclosures as of December 31, 2015 and 2014 exclude the Voya Fixed Account Fund as required by this guidance.

Subsequent Events:

The Plan has evaluated subsequent events through October 12, 2016, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at the net asset value (NAV) of the units held by the Plan. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying investment assets owned by the fund, less operating expenses. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Note 3: Fair Value Measurements, continued:

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, all pooled separate account investments were measured at net asset value per share and, accordingly, have not been classified in the fair value hierarchy.

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 3,106,151	N/A	Daily	Daily

December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 2,852,071	N/A	Daily	Daily

Note 4: Guaranteed Investment Contract with Voya Retirement Insurance and Annuity Company:

The Plan has a guaranteed investment contract with Voya Retirement Insurance and Annuity Company ("VRIAC") that invests contributions in the Voya Fixed Account Fund. The Voya Fixed Account Fund is a general account product.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented at contract value on the face of the statement of net assets available for benefits. Contract value, as reported to the plan by VRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is determined on a monthly basis by an actuarial formula as designated by VRIAC. The crediting interest rate is subject to a guaranteed minimum floor, as defined on an annual basis by VRIAC.

Certain events may limit the Plan’s ability to transact at contract value with the insurance company. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Note 5: Investments and Information Certified by the Plan’s Custodian:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company, the custodian of the Plan, has certified to the completeness and accuracy of the investments under contract reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, the related net appreciation (depreciation) in fair value of investments reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015, and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

Note 6: Related Party Transactions:

Plan investments are maintained in pooled separate account funds and a guaranteed investment contract managed by Voya Retirement Insurance and Annuity Company. This company acts as the investment custodian and provides administrative services to the Plan. Therefore, these transactions qualify as party-in-interest transactions.

The Company provides to the Plan certain accounting and administrative services for which no fees are charged and absorbs certain plan expenses.

Note 7: Income Tax Status:

The Plan has adopted a prototype plan sponsored by Flynn, Shojinaga & Associates, Inc. The prototype plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Plan administrator and the Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Note 9: Risks and Uncertainties:

The Plan invests in various pooled separate account funds and a guaranteed investment contract. These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
