Greeley and Hansen Profit Sharing and Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Greeley and Hansen (the Company) Profit Sharing and Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established to provide retirement income to eligible employees and principals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation: An employee or principal is eligible to participate in the Plan on the beginning of the next month after employment and reaching the age of 21. Temporary employees who are paid on an hourly basis are not eligible to participate in the Plan. All eligible participants are automatically enrolled at three percent of eligible compensation in the Plan unless they specifically opt not to participate.

Contributions: Participants in the Plan may contribute up to 50 percent of their annual compensation subject to the Internal Revenue Code (IRC) limits. Annual compensation includes all compensation paid while a participant is in the Plan.

The employer will match 25 percent of the participant's contribution after one year of service, up to 5.5 percent of the participant's eligible compensation for each plan year.

The Company may also make discretionary profit sharing contributions to the Plan. All eligible participants receive an allocation of the profit sharing contribution based on salary and years of service.

Investment options: A participant may direct both employee contributions and Company contributions into any of 21 investment options, including 20 mutual funds and one common/collective trust (CCT) fund.

Participant accounts: Under the Plan, separate accounts are maintained to reflect the interests of each participant. Each participant's account is credited with the participant's contribution, and allocations of the Company's matching contributions and profit sharing contributions, if any, forfeitures and investment earnings. Each participant's account is also charged with an allocation of administrative expenses. Allocations are based on plan account balances, or participant earnings, as defined.

Terminated or retired participants with undistributed benefits remaining as part of the Plan's assets continue to earn pro rata allocation of investment income.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's matching contributions upon fulfilling the eligibility requirements. Participants become 100 percent vested in their profit sharing allocations after three years of service per the Plan Document. Participants who attain retirement age, as defined, or terminate employment due to death or disability are 100 percent vested in their accounts.

Notes receivable from participants: The Plan allows each participant to borrow a minimum amount of \$1,000 and a maximum amount not to exceed the lesser of one-half of the participant's vested account balance or \$50,000 (reduced by the participant's highest outstanding loan balance in the preceding 12 months). The loan term may not exceed five years unless it is for the purchase of a principal residence, in which case it may not exceed 10 years. The loans are secured by the balance in the participant's account and bear interest at a commercially reasonable interest rate, initially set at prime rate plus 1 percent. Interest rates for the plan year ended December 31, 2015 ranged from 4.25 to 4.50 percent. Loans are repaid ratably through bi-weekly payroll deductions.

Greeley and Hansen Profit Sharing and Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: Distributions are made at the time of termination or death by a lump-sum payment. A terminated or retired employee with an account balance of at least \$1,000 may elect to leave his existing funds in the Plan.

Administrative costs: Administrative expenses of the Plan are paid by both the Company and the Plan.

Forfeitures: Forfeitures may be allocated to eligible participants per the Plan Document or used to offset plan expenses. The Plan used \$1,648 and \$202 to reduce employer match contributions for the years ended December 31, 2015 and 2014, respectively. The Plan used \$1,911 and \$21,412 to reduce profit sharing contributions for the years ended December 31, 2015 and 2014, respectively. As of December 31, 2015 and 2014, forfeited non-vested accounts totaled \$469 and \$2,575, respectively.

Note 2. Summary of Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Valuation of investments and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies using information provided by the trustee and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan Document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefit payments are recorded when paid.

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this ASU for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior-year disclosures have been revised to reflect the retrospective application of this ASU. The impact of adopting this ASU is reflected in Notes 2 and 4.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this ASU is to simplify plan accounting.

- The amendments in Part I of this ASU designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this ASU will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this ASU reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Summary of Accounting Policies (Continued)

The ASU may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. As Parts I and III are not applicable to the Plan, the Plan adopted amendments in Part II of this ASU for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 2 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2016, the date the financial statements were available to be issued.

Note 3. Summary of Investment Information Certified by Charles Schwab Bank, Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that were prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	December 31,	
	2015	2014
Shares of registered investment companies	\$ 38,749,068	\$ 38,122,979
Shares of common/collective trust	5,760,543	6,567,497
Notes receivable from participants	609,472	521,690
Net depreciation in fair value of investments	(1,824,019)	
Interest and dividends	1,748,464	
Interest income on notes receivable from participants	21,616	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodologies include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodologies are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Shares of common/collective trust: Valued at the NAV utilized as practical expedient of underlying investments held by the Plan at year-end.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets measured at fair value, as of December 31, 2015 and 2014:

	2015			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Shares of registered investment companies	\$ 38,749,068	\$ -	\$ -	\$ 38,749,068
Total assets in fair value hierarchy	<u>\$ 38,749,068</u>	<u>\$ -</u>	<u>\$ -</u>	38,749,068
Investments measured at net asset value (a):				
Shares of common/collective trusts				5,760,543
Investments at fair value				<u>\$ 44,509,611</u>

Note 4. Fair Value Measurements (Continued)

	2014			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Shares of registered investment companies	\$ 38,122,979	\$ -	\$ -	\$ 38,122,979
Total assets in fair value hierarchy	\$ 38,122,979	\$ -	\$ -	38,122,979
Investments measured at net asset value (a):				
Shares of common/collective trusts				6,567,497
Investments at fair value				\$ 44,690,476

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on net asset value per share (or its equivalent) as of December 31, 2015 and 2014.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2015	2014			
Shares of common/collective trust	\$ 5,760,543	\$ 6,567,497	\$ -	90 days	12 months

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain plan investments are shares of a common/collective trust fund and of mutual funds managed by Charles Schwab Bank. Charles Schwab Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services amounted to approximately \$5,430 and \$23,161 for the years ended December 31, 2015 and 2014, respectively. Fees paid by the Plan to the trustee for management services amounted to approximately \$29,852 and \$31,304 for the years ended December 31, 2015 and 2014, respectively.

Certain employees of the Company provide administrative services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 6. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their accounts.

Note 7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated February 16, 2011, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Benefits Committee and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
