Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditor

The Pension Committee
Lafarge North America Inc. Pension Plan for
Hourly Compensated Employees (Multi-Plant)
Chicago, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant) (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015, and for the year then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As described in Notes 1 and 7, to the financial statements, the Blue Circle Pension Plan was merged into the Plan effective December 31, 2014, and certain Plan assets were transferred to the Hourly Pension Plan Hourly (Steelworkers) during 2015. As described in Note 9 to the financial statements, subsequent to December 31, 2015, the Lafarge North America Inc. Retirement Plan transferred certain Plan assets into the Plan.

Prior Period Financials

Plan management is responsible for the accompanying financial statements of the Plan which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by Plan management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Participants should refer to the Plan document, as amended and restated, for a more complete description of the Plan’s provisions.

General – The Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant) was established on May 1, 1963, and was most recently amended effective January 1, 2016, to increase the automatic lump sum distribution level from \$1,000 to \$5,000. Effective December 31, 2014, the Blue Circle Inc. Pension Plan merged into the Plan. The Plan is a noncontributory defined benefit plan that provides for pension benefits to certain employees who work at the Joppa, Illinois plant and are a member of the Local Union No. 3907 of the United Mineworkers of America, and participants covered by the former Blue Circle Inc. Pension Plan. The Plan provides for normal retirement at age 65 with 5 years of credited service, with early retirement after age 55 and 10 years of credit service or 30 years of credited service regardless of age. The Plan also provides for benefits to Participants with at least 10 years of credited service who meet certain disability requirements. Additionally, under certain circumstances, participants may be eligible to receive benefits in the event of a layoff or permanent shutdown of a plant. If a participant eligible for early or normal retirement dies before electing to retire, his or her surviving spouse may be eligible to receive benefits. The ultimate Plan Sponsor for the Plan is Lafarge North America Inc. (the “Company”). On July 10, 2015, the Company completed a merger with Holcim Ltd and became Lafarge Holcim. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code (“IRC”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

During 2015, certain Plan assets were transferred to the Hourly Pension Plan (Steelworkers). See Note 7 for further information.

The Plan is administered by the Company’s Investment Committee and Benefit Administration Committee (collectively the “Committees”). The Committees have overall responsibility for the operation and administration of the Plan. The Committees determine the appropriateness of the Plan’s investment offerings and monitor Plan investment performance.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust (“Master Trust”). During the years ended December 31, 2015 and 2014, assets in the Master Trust were held by The Northern Trust Company (the “trustee”). Upon the order of the Company, the trustee pays amounts to specified Plan beneficiaries. SEI Investments Company (“SEI”) currently acts as the Plan’s investment manager and has authority to invest and reinvest the Master Trust assets.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits as prescribed by ERISA. Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (“PBGC”) at the time of termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s benefits. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014 (UNAUDITED)

Note 1—Description of Plan (continued)

Pension Benefits – Plan participants are eligible for their Plan benefit after retiring or terminating employment with vested rights. Participants become vested in the Plan upon completion of 5 years of vesting service or attainment of the normal retirement age (65). If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits.

Upon retirement or termination, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. If the value of the employee's vested benefit is \$1,000 or less, the benefit automatically will be paid out in the form of a lump sum. Effective January 1, 2016, the Company amended the Plan to increase the automatic lump sum distribution level from \$1,000 to \$5,000. The monthly annuity payables have a variety of payment options.

Death and Disability Benefits – If an employee dies, the vested benefits may be paid to the surviving qualified spouse. No benefits are paid to a beneficiary of a participant who does not have a surviving qualified spouse when the employee dies. Active employees who become totally disabled and are vested in their benefits may elect to receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled.

Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, based on their final average earnings as of the date they became permanently disabled.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Cash and Cash Equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 5), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the trustee among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Funding Policy – The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. The Company's contributions for 2015 and 2014 met or exceeded the minimum funding requirements of ERISA.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014 (UNAUDITED)

Note 2—Summary of significant accounting policies (continued)

Estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties – The Master Trust makes investments in various securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amount reported in the statements of net asset available for benefits and the statements of changes in net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative Expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the respective plan based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

New Accounting Pronouncements – In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. As permitted, the Plan has elected early adoption of Part II and has applied the ASU retrospectively for all periods presented. The adoption of Part II eliminated the historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, disclosure of investments by nature, characteristics and risks, as well as the net appreciation or depreciation of fair value types.

Fair Value Measurement – GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

LAFARGE NORTH AMERICA INC. PENSION PLAN FOR HOURLY COMPENSATED EMPLOYEES (MULTI-PLANT)

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014 (UNAUDITED)

Note 2—Summary of significant accounting policies (continued)

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds – These investments are public investment vehicles valued using the Net Asset Value (the “NAV”) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Cash and Cash Equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3—Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) surviving spouse of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees (or their beneficiaries) are based on the employee's credited service and compensation during the highest 60 consecutive months out of the last 120 months of employment prior to January 1, 2009.

The accumulated plan benefits for active employees are based on credited service and average compensation during the 120 months preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial information is based on reports prepared by the Plan's actuary, Willis Towers Watson, as of January 1, 2015.

Note 3—Actuarial present value of accumulated plan benefits (continued)

The actuarial calculations are based on participants becoming fully vested after five years of continuous service. The actuarial calculations are also based on the participants covered under the Plan as of January 1, 2015. The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (“PPA”). As of January 1, 2015, significant assumptions underlying the actuarial computations include an effective interest rate of 6.15%, a decrease from 6.64% (unaudited) as of January 1, 2014, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at various ages, ranging from 45 to 65 and over. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings.

The actuarial present value of accumulated plan benefits as of January 1, 2015 is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 15,737,827
Other participants	<u>6,802,910</u>
Total vested benefits	<u>22,540,737</u>
Total nonvested benefits	<u>2,169</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 22,542,906</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2015:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 815,924
Increase (decrease) during the year attributable to:	
Benefits accumulated & non-investment experience	21,911,238
Increase for interest due to decrease in discount period	52,722
Benefits paid	(9,776)
Assumption changes	<u>(227,202)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 22,542,906</u>

Certain actuarial assumptions changed during 2015; the segment interest rates used to calculate the funding target were updated from an applicable month of September 2013 to September 2014, and the required mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvements.

As noted in Notes 1 and 7 effective December 31, 2014, the Blue Circle Inc. Pension Plan merged into the Plan. Accordingly, the other plan's accumulated plan benefits and net assets were transferred into the Plan on January 1, 2015. In addition, the former employees represented by Local No. 174532 affiliated with the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union at Oswego, New York in the Plan spun off to the Lafarge North America Inc. Hourly Pension Plan (Steelworkers). These events are reflected in the valuation.

HOURLY COMPENSATED EMPLOYEES (MULTI-PLANT)
NOTES TO THE FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014 (UNAUDITED)

Note 3—Actuarial present value of accumulated plan benefits (continued)

As described in Note 1, the Plan was amended effective January 1, 2016 to increase the automatic lump sum distribution from \$1,000 to \$5,000. This event was not reflected in the valuation.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4—Income tax status

The Plan has received its latest determination letter from the IRS dated June 24, 2014 stating that the Plan, as then designed, is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income and that the Plan and trust continue to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5—Interest in the Master Trust (unaudited)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment (loss) income less actual distributions and allocated administrative expenses. At December 31, 2015 and 2014, the Plan's interest in the investments of the Master Trust was approximately 3.32% and 0.17% (unaudited), respectively. Investment (loss) income and administrative expenses relating to the Master Trust are allocated to the individual plans based on each Plan's interest.

All investment information disclosed in the accompanying financials, including investments held at December 31, 2015 and 2014, and net investment (loss) income in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. The trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

Note 7—Significant Plan transactions

On December 31, 2014, the Blue Circle Inc. Pension Plan merged into the Plan. This resulted in a \$21,850,762 transfer in to the Plan. During 2015, assets and liabilities for hourly employees and former employees represented by Local No. 174532 affiliated with the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union at Oswego, New York in the Plan spun off to the Lafarge North America Inc. Hourly Pension Plan (Steelworkers). This resulted in a \$670,966 transfer out from the Plan.

Note 8—Party-in-interest transactions

Certain investments of the Master Trust are shares of SEI. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These fees were based on customary and reasonable rates for such services, and are party-in-interest transactions for which a statutory exemption exists under ERISA.

Note 9—Subsequent events

In 2014, the Company became aware that the Lafarge North America Inc. Retirement Plan had investments in the Master Trust that included obligations totaling \$155,905 for certain individuals that will be paid from the Plan. In 2015, the Company became aware that there was an additional \$436,808 in obligations that will be paid from the Plan. On April 20, 2016, the Lafarge North America Inc. Retirement Plan transferred \$592,713 to the Plan to correct the obligations for these certain individuals. The statement of net assets available for benefits as of December 31, 2015 includes a receivable in the amount of \$592,713.

Subsequent to December 31, 2015, the Company became aware that during 2016 the Lafarge North America Inc. Retirement Plan paid for obligations totaling \$158,192 that should have been paid by the Plan. As such on August 31, 2016, the Plan transferred \$158,192 to the Lafarge North America Inc. Retirement Plan to correct these obligations.

The Plan has evaluated events through October 14, 2016 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.25% for the preceding plan year and 7.00% for the second preceding plan year (7.00% and 6.50%, respectively, for the plans formerly sponsored by Lafarge Building Materials) during the 12 month periods preceding the valuation date (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p> <p>The IRS has not issued formal guidance in circumstances of pension plan mergers and spin-offs. The following approach was taken for plans affected by the December 31, 2014 mergers: Deferred investment gains and losses were determined for each affected plan prior to the mergers, and then aggregated for the plans affected by each merger, prior to applying the 10% corridor around each merged plan's market value of assets. The spin-off of \$646,049 from the Multi-Plant plan was treated as a negative cashflow as of December 31, 2014 for that plan, and the merger of the \$646,049 into the Whitehall plan was treated as a positive cashflow as of December 31, 2014 for that plan.</p>
Benefits not valued	<p>All significant benefits described in the Plan Provisions were valued except (1) plant shutdown and other "unpredictable contingent event benefits" which are not valued until and unless the triggering event occurs (unless otherwise noted) and (2) automatic lump sum distribution in the event that the present value of benefits is no more than \$1,000 or \$5,000 as applicable. Willis Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>

Termination	Termination rates were based on an experience study conducted in 2010, with annual considerations of whether any conditions have changed that would be expected to produce different results in the future.
Form of payment	Forms of payment and commencement date (for terminated vested participants) are based on an experience study conducted in 2010, with annual considerations of whether any conditions have changed that would be expected to produce different results in the future.
Unpredictable contingent event	Unpredictable contingent event assumptions are based on annual input from the plan sponsor about future expected experience.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Attachment to 2015 Form 5500, Schedule SB, Line 22: Weighted Average Retirement Age

Each Employee is assumed to retire in accordance with the table of retirement rates. The average weighted retirement age is derived by applying these rates to an employee with the characteristics at plan entry of an average current plan participant. The average retirement age is 61. The weighted average retirement age is computed as follows:

Joppa (based on average entry age of 29):

(A) <u>Age</u>	(B) Probability of Attaining <u>Age</u>	(C) Retirement <u>Rate</u>	(D) Percentage Retiring <u>at Each Age</u>	(A) * (D)

EIN 58-1290226/PN 002
Attachment to 2015 Schedule SB Part V – Summary of Plan Provisions

Effective Date

The original effective date of this plan was May 1, 1963.

Covered Employees

All hourly compensated employees of Lafarge North America Inc. who are represented by Local No. 14532 affiliated with the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union at Oswego, New York, and who first had an hour of service prior to January 1, 2015.

All salaried and non-bargained, hourly employees of Joppa effective August 1, 2008.

Participation Date

Date of hire

Joppa participants ceased participating in the plan effective September 1, 2011.

Definitions

Eligibility service

An employee earns one year of eligibility service for each calendar year in which he works 1,000 hours. No eligibility service is earned if the employee works less than 1,000 hours.

Credited service

Credited service is computed according to the following schedule:

<u>Service</u>	<u>Full Year Credit</u>	<u>One Month Credit</u>
Before 5/1/63	1,600 hours	133 1/3 hours
5/1/63 – 4/30/67	1,400 hours	116 hours
5/1/67 and after	1,200 hours	100 hours

Partial credit is earned when the required hours for a full year's credit are not worked.

Credited service for Joppa participants begins at the later of date of hire and August 1, 2008.

Normal retirement date
(NRD)

First day of the month coinciding with or next following the attainment of age 65 and completion of 5 years of eligibility service.

Monthly pension benefit

The accrued benefit for an employee at the Oswego location is computed by multiplying the retirement multiplier below by credited service:

<u>Retirement Multiplier</u>	<u>Effective Date</u>
\$28.50	12/16/2003
\$29.50	12/16/2004
\$30.50	12/16/2005
\$31.50	12/16/2006
\$32.50	12/16/2007
\$34.50	12/16/2008
\$36.50	12/16/2009
\$37.50	12/16/2010
\$39.00	12/16/2011
\$40.50	12/16/2012
\$42.00	12/16/2013

The accrued benefit for an employee at the Joppa location is computed by multiplying the retirement multiplier below by credited service:

<u>Retirement Multiplier</u>	<u>Effective Date</u>
\$34.00	8/1/2008
\$35.00	8/1/2010
\$36.00	8/1/2011

Joppa benefits were frozen upon union decertification effective September 1, 2011.

Monthly preretirement death benefit

If the participant was eligible for retirement, 66 2/3% of the accrued monthly pension benefit as of the date of death, reduced for 66 2/3% joint and survivor election and reduced for payment as early as the participant's 55th birthday. Otherwise, if the participant had at least five years eligibility service, 50% of the monthly pension benefit as of date of death, reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

The earlier of the first day of the month coinciding with or next following the attainment of age 55 with 10 years of eligibility service, or 30 years of eligibility service regardless of age.

Postponed retirement

Retirement after NRD

Vested termination

Termination for reason other than death or retirement after completing 5 years of eligibility service.

Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant)
EIN 58-1290226/PN 002
Attachment to 2015 Schedule SB Part V – Summary of Plan Provisions

Disability retirement	A participant with 10 years of eligibility service who is unable to obtain gainful employment by reason of total and permanent disability is eligible for disability retirement.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.
Shutdown benefits	<p>A participant who has at least 10 years of eligibility service and whose age and eligibility service equal at least 65 is eligible for a benefit if service is broken by plant shutdown or if he is laid off and the company declares employment is unlikely.</p> <p>For purposes of determining eligibility service for Joppa employees, service under LNARP is included.</p>

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit reduced by .3% for each month that actual retirement precedes NRD, however the benefit is unreduced after 30 years of eligibility service.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit is equal to the accrued normal retirement benefit as of the date of termination. If the benefit starts before normal retirement date, the benefit is reduced using early retirement benefit reduction factors.
Disability retirement	The monthly disability benefit, payable immediately, is equal to the disability multiplier (retirement multiplier plus \$1.00) multiplied by credited service. The minimum monthly benefit is \$450.
Preretirement death	Monthly preretirement death benefit on behalf of both active and terminated vested employees is reduced as described above.
Shutdown benefits	Monthly pension benefit unreduced for early commencement.

Other Plan Provisions

Forms of payment	<p>Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity. Or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are:</p> <ul style="list-style-type: none">▶ Joint and 66 2/3% survivor annuity▶ Joint and 75% survivor annuity▶ Joint and 100% survivor annuity

Actuarial equivalence for optional form conversion other than lump sum:

- ▶ Participant mortality: UP 1984 Unisex
- ▶ Beneficiary mortality: UP 1984 Unisex
- ▶ Interest rate: 7.00%

Automatic cashouts are made if the present value of benefits is no more than \$1,000 (\$5,000 effective January 1, 2016) and \$5,000 for survivor benefits.

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Changes in Plan Provisions Since Prior Year Valuation and Other Events

Effective December 31, 2014, the Blue Circle Inc. Pension Plan merged into the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant). Subsequently, assets and liabilities for hourly employees and former employees represented by Local No. 14532 affiliated with the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union at Oswego, New York in the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant) spun off to the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Whitehall). These events are reflected in the 2015 valuation.

Effective January 1, 2015, the plan was amended to permit certain administrative expenses to be paid from plan assets.

Effective July 2015, Lafarge (the parent company of Lafarge North America Inc.) merged with Holcim to form LafargeHolcim. This did not impact the plan valuation, and the plan sponsor remains Lafarge North America Inc.

In December 2015, LafargeHolcim amended the plan to increase the automatic lump sum distribution level from \$1,000 to \$5,000. This was not reflected in the valuation.

Willis Towers Watson is not aware of any other plan changes which are required to be reflected.

EIN 58-1290226/PN 002
Attachment to 2015 Schedule SB Part V – Summary of Plan Provisions

Plan provisions for employees formerly participating in the Blue Circle Inc. Pension Plan

Covered Employees	Salaried employees and hourly employees who are not members of a collective bargaining unit.
Participation Date	Date of hire
Definitions	
Eligibility service	A year of eligibility service is a vesting computation period in which a participant has completed 1,000 hours of service. A vesting computation period is a 12 consecutive month period beginning on the anniversary of their date of hire. As of January 1, 2002, the sponsoring employer had no employees (many former employees of the sponsor are now employees of Lafarge Building Materials Inc.). Consequently, no periods of employment after December 31, 2001 will be considered credited service for the purpose of calculating the amount of any benefits under this plan. However, periods of employment with Lafarge North America after December 31, 2001 will be considered for the purposes of determining benefit eligibility.
Credited service	A year of credited service is earned for each plan year (after the attainment of age 21, with a maximum of 40 years) in which a participant is actively employed. Credit is granted for fractional years by rounding up to the next higher 1/12. As of January 1, 2002, the sponsoring employer had no employees (many former employees of the sponsor are now employees of Lafarge Building Materials Inc.). Consequently, no periods of employment after December 31, 2001 are considered credited service for the purpose of calculating the amount of any benefits under this plan. However, periods of employment with Lafarge North America after December 31, 2001 are considered for the purposes of determining benefit eligibility.
Earnings	<p>A participant's compensation, not greater than \$170,000 (as indexed), is defined as his base pay, annual and short term bonus and overtime pay for a plan year plus salary deferrals under Code section 401(k) and 125 plus any pre-tax 401(k) contributions less any director's fees.</p> <p>Note: As of January 1, 2002, the sponsoring employer had no employees (many former employees of the sponsor are now employees of Lafarge Building Materials Inc.). Consequently, no earnings after December 31, 2001 are considered earnings for the purposes of this plan.</p>
Final average earnings	The average of compensation for the 60 consecutive months of earnings out of the participant's last 120 months for which compensation is highest.
Normal retirement date (NRD)	First day of the month coinciding with or next following the attainment of age 65.
Monthly pension benefit	The accrued benefit for an employee is equal to 1.33% of final average earnings multiplied by credited service.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	First day of the month coinciding with or next following the attainment of age 55 with 5 years of eligibility service.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reason other than death or retirement after completing 5 years of eligibility service.
Disability retirement	A participant who becomes disabled and is entitled to receive disability benefits under the company's Long Term Disability Benefit Plan will be entitled to receive a disability benefit at his normal retirement date.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit is reduced .3333% for each month that actual retirement precedes NRD.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit is equal to the accrued normal retirement benefit as of the date of termination, payable at normal retirement date. Reduced benefits may be paid prior to NRD
Disability retirement	The monthly disability benefit, payable at normal retirement date, is equal to the accrued benefit as of the date of disability.
Preretirement death	<p>If an active participant dies after his early retirement date, the surviving spouse is eligible to receive the benefit amount under the 75% joint and survivor option. If a participant terminates employment after his early retirement date but dies before benefit commencement, the surviving spouse is eligible to receive the benefit amount under the 50% joint and survivor option. The benefit will commence on the participant's normal retirement date or date of death, if later. If the participant's death occurred before the participants normal retirement date, the surviving spouse may elect early commencement as of the first of the month following the participant's date of death.</p> <p>If an active or former participant dies before reaching early retirement age but after completing 5 years of eligibility service, the surviving spouse is eligible to receive the benefit amount under the 50% joint and survivor option. The surviving spouse may elect to receive a benefit starting on the first of any month after what would have been the participant's 55th birthday. However, if the spouse elects early commencement the amount of benefit received will be calculated using the vested benefit amount as if the participant had requested benefit commencement on that earlier date.</p>

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity, or if the participant elects and the spouse consents, another actuarially equivalent form offered by the plan. Optional forms are:

- ▶ Joint and 66 2/3% survivor annuity
- ▶ Joint and 75% survivor annuity
- ▶ Joint and 100% survivor annuity
- ▶ 5 year annuity certain and continuous
- ▶ 10 year annuity certain and continuous
- ▶ 15 year annuity certain and continuous
- ▶ Level annuity (in conjunction with Social Security)
- ▶ Lump sum distribution

An automatic lump sum distribution is made if the present value of benefits is no more than \$1,000 (\$5,000 effective January 1, 2016) and \$5,000 for survivor benefits.

Lump sums are calculated using IRC § 417(e) assumptions, however the lump sum is no less than the present value calculated using a 5.5% discount rate. In addition, lump sums are based on the present value of benefits commencing at the later of age 55 or current age.

Actuarial equivalence for optional form conversion other than lump sum and level annuity forms of payment:

- ▶ Participant mortality: UP 94 blended 80% males; 20% females
- ▶ Beneficiary mortality: UP 94 blended 20% males; 80% females
- ▶ Interest rate: 6.00%

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

EIN 58-1290226/PN 002
Attachment to 2015 Schedule SB Part V – Summary of Plan Provisions

Changes in Plan Provisions Since Prior Year Valuation and Other Events

Lafarge sponsored a limited period lump sum offering for certain participants in the Lafarge North America Inc. Retirement Plan for payment effective November 2014. As a result, many participants in the Blue Circle Inc. Pension Plan with benefits in the Lafarge North America Inc. Retirement Plan who elected to commence their pension in the later plan, also elected to receive distributions from the Blue Circle Inc. Pension Plan. This event is reflected in the 2015 valuation.

Effective December 31, 2014, the Blue Circle Inc. Pension Plan merged into the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant). This event is reflected in the 2015 valuation.

Effective July 2015, Lafarge (the parent company of Lafarge North America Inc.) merged with Holcim to form LafargeHolcim. This did not impact the plan valuation, and the plan sponsor remains Lafarge North America Inc.

In December 2015, LafargeHolcim amended the plan to increase the automatic lump sum distribution level from \$1,000 to \$5,000. This was not reflected in the valuation.

No plan changes were recognized. Willis Towers Watson is not aware of any plan changes which are required to be reflected.
