Notes to Financial Statements
December 31, 2015 and 2014

1. DESCRIPTION OF PLAN

The following description of the Emergency Services, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Emergency Services, Inc. ("Company") established the Plan effective January 1, 1975. The Plan operates in accordance with Section 401(k) of the Internal Revenue Code. The Plan is a defined contribution plan covering substantially all employees of the Company. To be eligible, employees must have attained the age of 21 and have completed one month of service, as defined in the Plan. The Plan allows employees to enter the Plan on the first day of the month coinciding with or following the date on which the employee completes the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute up to 100% of their annual compensation, as defined in the Plan. Participants may make pre-tax or Roth elective deferral contributions. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Company makes a safe harbor matching contribution equal to 100% of the first 6% of the eligible participant's compensation contributed to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company. For the year ended December 31, 2015, the Company made a \$1,343,626 profit sharing contribution to the plan. Employees of the Company may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of (a) Company profit sharing contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct all contributions to any of the investment options available to them through Fidelity Investments, which includes the option of a self-directed brokerage account through Fidelity Investments. As of December 31, 2015, self-directed brokerage accounts are invested in mutual funds, common stocks, interest bearing cash, government bonds and annuity insurance products.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan, including legal and audit fees, have been paid by the Company and are, therefore, not expenses of the Plan. The Plan pays fees related to the management of participating accounts.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Notes Receivable from Participants

The Plan does not allow for loans to participants.

Payment of Benefits

The vested portion of a participant's account becomes payable upon death, disability, retirement or termination of service for any other reason. Participants may choose to receive vested account balances either as a lump sum amount or, for a specified class of participants, as an annuity.

In-service distributions of vested balances may be made to a participant who has not separated from service provided the participant has attained age 59 ½. Involuntary distributions of amounts less than \$5,000 are permitted under the Plan, but such distributions greater than \$1,000 must be directly rolled over to an individual retirement account set up by the plan administrator for the benefit of the participant. In-service hardship withdrawals of participant balances are permitted upon proof, to the satisfaction of the plan administrator, of an immediate and heavy financial need.

Vesting

Participants are immediately vested in their elective deferrals and Company safe harbor matching contributions, plus actual earnings thereon. Participants become fully vested in the Company profit sharing contributions upon death, total and permanent disability, or retirement. In the event of termination for any other reason, a participant shall have a vested right in Company profit sharing contributions based on the participant's years of service with the Company. Participants become 100% vested after three years of service.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$141,578 and \$145,575, respectively. These accounts are to be used to reduce Company contributions or they may be used to pay administrative expenses of the Plan. During the year ended December 31, 2015, \$50,215 of forfeited nonvested accounts were used to reduce Company contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Plan assets did not include any fully benefit-responsive investment contracts as of December 31, 2015 and 2014.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan early adopted the new guidance in Part II in 2015 and has applied it retrospectively as required by the ASU.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to information certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. The following is a summary of the unaudited information regarding the Plan, included in the plan's 2015 financial statements, which was prepared by or derived from information prepared and certified by the trustee and furnished to the plan administrator:

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at quoted prices in markets that are not active by a combination of inputs, including but not limited to quotations from market makers in the underlying funds and other directly and indirectly observable inputs.

Self-directed brokerage accounts: Valued at the last reported sales price of the underlying investments on the last business day of the Plan year reported by the active markets in which the individual underlying investments are traded, excluding investments in annuities described below.

Annuities: The fair value of each contract is calculated based on the fair value of the investments underlying the contract. The fair value of the underlying investments is determined based on quoted exchanges, models from pricing vendors and other inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

December 31, 2015 and 2014

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments as of December 31, 2015 and 2014 were shares of mutual funds and self-directed brokerage accounts that were managed by affiliates of Fidelity Management Trust Company, the Plan's trustee. Therefore, these transactions qualify as party-in-interest transactions.

8. TAX STATUS

The Plan has adopted a volume submitter plan document on which the Internal Revenue Service has issued an opinion letter dated March 31, 2014 that stated that the volume submitter document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter document has been amended since issuance of the most recent opinion letter. The Plan has not requested an individual determination letter from the Internal Revenue Service. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements
December 31, 2015 and 2014

1. DESCRIPTION OF PLAN

The following description of the Emergency Services, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Emergency Services, Inc. ("Company") established the Plan effective January 1, 1975. The Plan operates in accordance with Section 401(k) of the Internal Revenue Code. The Plan is a defined contribution plan covering substantially all employees of the Company. To be eligible, employees must have attained the age of 21 and have completed one month of service, as defined in the Plan. The Plan allows employees to enter the Plan on the first day of the month coinciding with or following the date on which the employee completes the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute up to 100% of their annual compensation, as defined in the Plan. Participants may make pre-tax or Roth elective deferral contributions. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Company makes a safe harbor matching contribution equal to 100% of the first 6% of the eligible participant's compensation contributed to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company. For the year ended December 31, 2015, the Company made a \$1,343,626 profit sharing contribution to the plan. Employees of the Company may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of (a) Company profit sharing contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct all contributions to any of the investment options available to them through Fidelity Investments, which includes the option of a self-directed brokerage account through Fidelity Investments. As of December 31, 2015, self-directed brokerage accounts are invested in mutual funds, common stocks, interest bearing cash, government bonds and annuity insurance products.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan, including legal and audit fees, have been paid by the Company and are, therefore, not expenses of the Plan. The Plan pays fees related to the management of participating accounts.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Notes Receivable from Participants

The Plan does not allow for loans to participants.

Payment of Benefits

The vested portion of a participant's account becomes payable upon death, disability, retirement or termination of service for any other reason. Participants may choose to receive vested account balances either as a lump sum amount or, for a specified class of participants, as an annuity.

In-service distributions of vested balances may be made to a participant who has not separated from service provided the participant has attained age 59 ½. Involuntary distributions of amounts less than \$5,000 are permitted under the Plan, but such distributions greater than \$1,000 must be directly rolled over to an individual retirement account set up by the plan administrator for the benefit of the participant. In-service hardship withdrawals of participant balances are permitted upon proof, to the satisfaction of the plan administrator, of an immediate and heavy financial need.

Vesting

Participants are immediately vested in their elective deferrals and Company safe harbor matching contributions, plus actual earnings thereon. Participants become fully vested in the Company profit sharing contributions upon death, total and permanent disability, or retirement. In the event of termination for any other reason, a participant shall have a vested right in Company profit sharing contributions based on the participant's years of service with the Company. Participants become 100% vested after three years of service.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$141,578 and \$145,575, respectively. These accounts are to be used to reduce Company contributions or they may be used to pay administrative expenses of the Plan. During the year ended December 31, 2015, \$50,215 of forfeited nonvested accounts were used to reduce Company contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Plan assets did not include any fully benefit-responsive investment contracts as of December 31, 2015 and 2014.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan early adopted the new guidance in Part II in 2015 and has applied it retrospectively as required by the ASU.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to information certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. The following is a summary of the unaudited information regarding the Plan, included in the plan's 2015 financial statements, which was prepared by or derived from information prepared and certified by the trustee and furnished to the plan administrator:

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Emergency Services, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at quoted prices in markets that are not active by a combination of inputs, including but not limited to quotations from market makers in the underlying funds and other directly and indirectly observable inputs.

Self-directed brokerage accounts: Valued at the last reported sales price of the underlying investments on the last business day of the Plan year reported by the active markets in which the individual underlying investments are traded, excluding investments in annuities described below.

Annuities: The fair value of each contract is calculated based on the fair value of the investments underlying the contract. The fair value of the underlying investments is determined based on quoted exchanges, models from pricing vendors and other inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments as of December 31, 2015 and 2014 were shares of mutual funds and self-directed brokerage accounts that were managed by affiliates of Fidelity Management Trust Company, the Plan's trustee. Therefore, these transactions qualify as party-in-interest transactions.

8. TAX STATUS

The Plan has adopted a volume submitter plan document on which the Internal Revenue Service has issued an opinion letter dated March 31, 2014 that stated that the volume submitter document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter document has been amended since issuance of the most recent opinion letter. The Plan has not requested an individual determination letter from the Internal Revenue Service. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
